Hot Rods Dain Gingerelli,2009-07-15 When it comes to building your hot rod, you're faced with choices for everything from which go-fast goodies to slap on your mill to what paint and other eye candy might define your rod more than anything else. And when it comes to a hot rod, parts aren't just parts; it's all in how they come together--either it works or it doesn't. This new Motorbooks Idea Book covers every system of a traditional hot rod-be it roadster, coupe, or tub-illustrating with hundreds of color photos the various options for frame rails, suspension, steering, brakes, wheels and tires, drivetrain, electrics, cooling, body, interior, and paint. Looking through this book, you'll be able to assess which choices fit your aesthetic sensibility as well as how they suit your plan to use your hot rod. You'll also get the "big picture"--a clear idea of how some choices work together and others just don't mesh in the same car. Whether you're looking for inspiration or practical answers, this book will guide you from off-the-shelf, fabricated, and even found parts and pieces to the finished hot rod of your dreams.

Roadster Chris Goodrich,1998-08-26 What does a man do on reaching midlife? Stereo-typically, he buys a red sports car. But that was too pat for Chris Goodrich; he decided to build one instead, hoping to understand a culture generally considered unsuitable for a prep-school, Ivy League graduate. A self-confessed auto-idiot, he was soon in over his head--but that proved part of the fun, because this immersion in auto mechanics forced Goodrich to can-front new ideas, new people, and new perspectives. In fourteen months it took to build the roadster he learned to appreciate not only how cars work but also the role they have played in shaping American culture--in the evolution of mass production and the reduction of craftsmen to wage slaves, in making the nation almost totally dependent on a machine that seemed to promise freedom. Ultimately, Roadster is a celebration of the automobile, for Goodrich builds a Caterharn Seven. A 1957 Lotus design, it's everything a sports car should be and more-noisy, drafty, uncomfortable, and absolutely thrilling. In completing the Seven, and finally driving it, Goodrich finds a completion of his own--a personal connection between theory and practice, the mental and the manual. As antidote to a virulent case of modern anomie, Chris Goodrich decided to build himself a car. The example he chose was a Lotus Seven--perhaps the most charming retro vehicle in history--and he succeeded not only in assembling a worthy roadster but in tossing off along the way a lighthearted look at the history of industrial ideas. I envied him the process of building it almost as much as the car--or the book--he ended up with. --John Jerome, author of Truck: On Rebuilding a Worn-Out Pickup, and Other Post-Technological Adventures When I told my friends I had decided, in my middle thirties, to build by hand a street-legal roadster, many suggested I was too young to be going through a midlife crisis. As time went on, I realized that the comment, intended humorously, held more than a grain of truth. It captured something I was loath to admit: that my working life was much less than I wanted it to be. I had held responsible positions, earned the respect of my peers, made a name for myself in (minor) professional circles ... and yet something was missing. That something? Joy. Of discovery, of open doors, of seeing the world in new ways; of living in the moment; of following your bliss, as mythologist Joseph Campbell put it. Surely you could do the work you loved without succumbing to its incidental baggage? Pursue a career without kowtowing to careerism; grow professionally without being professionalized? I would come across, years later, the perfect diagnosis of my work malaise. In the beginner's mind there are many possibilities, the Zen master Shunryu Suzuki told his students, but in the expert's there are few. --From Roadster

BMW Z3 Roadster James Michael Fishwick,2017-05-18 This book releases one of the best-kept secrets of the sports car world - the BMW Z3, the latest generation of the traditional small sports car, with the advantages of being based on a tried and tested model range produced by a manufacturer of high quality cars with enviable service and spares support. Designed in Bavaria, styled in California, and built in South Carolina, the Z3 caused generations of motoring writers to dismiss it as a toy sports car, fit only for 'Estate agents, hairdressers and footballers wives,' but is it really so bad? As the Z3 becomes a modern classic, potential buyers have little information to help them sort out the best cars from the others, most Z3 books being a combination of history and data. This guide shows what to expect and what to look for, written against a background of prolonged ownership and Z3 knowledge. Containing a wealth of Z3 information, practical inspection and driving evaluation hints, this book will help potential buyers through the process of finding the car they want, whether it is to be a summer runner or a car to keep and cherish.

These cars represent a clear vision that sets the standard for others to follow. They have been imitated, coveted, and revered; today, many have been painstakingly restored for private collections or museum display. These cars include the Niekamp roadster, Isky's T, the Pearson Brothers coupe, Doane Spencer's '32, the So-Cal'34 coupe, The Pacific Gunsight Special, and Roth's Outlaw T. Each car's history, technical background, and influence are discussed, along with information on the builders and owners. Photos include contemporary shots of the cars as they exist today, along with vintage photos of the cars when they were first built and shown. With Ken Gross' deep knowledge of the genre, and Robert Genat's well-trained lens, this new paperback edition is an important addition to any hot rodder's library.
