*Roswell* Thomas J. Carey,Donald R. Schmitt,2020-06-20 “[The authors] have, like each whistleblower before them, paid a price for their . . . amplification of the truth. . . . The most profound event in human history.” —Joseph G. Buchman, Ph.D, moderator for the Citizen Hearing on Disclosure Two of the world’s leading investigators declare definitively that the Roswell Incident happened and present their closing arguments. For more than seventy years, the crash at Roswell and its ensuing controversies and cover-ups have been investigated. Yet despite continually mounting evidence, there are still disbelievers. *Roswell: The Ultimate Cold Case* is Carey and Schmitt’s final and commanding word on the case in which they declare victory once and for all. The government has changed their official story on Roswell more than a dozen times, but the witnesses have not recanted. The evidence has not gone away. And won’t go away. The Roswell Incident is the most hotly debated and investigated UFO crash in history with seemingly endless evidence, and eyewitnesses coming forward even years later. Finally, late in life people feel safe enough or feel duty bound to reveal what they know, saw, and heard. *Roswell: The Ultimate Cold Case* will bring all new exclusive eye witness testimonies to light as well as cover the: Connection of astronauts Edgar Mitchell and Neil Armstrong to Roswell. Connection of Clinton, Carter, Goldwater, Schiff, and Richardson to Roswell. First time artist conception of impact site with craft and bodies based on firsthand testimony. First time full-size model of crash survivor based on eyewitness testimony. And more eyewitness corroboration. “There is no one on this planet who knows more about the Roswell incident than these two guys.” —Larry Landsman, director of special projects for the Syfy Channel

**Mexico's Roswell** Noe Torres,Ruben Uriarte,2008-04 On August 25, 1974, along the Rio Grande River near the Texas border town of Presidio, a thunderous explosion in the sky shattered the stillness of the warm summer night. An unidentified flying disc traveling at 2,000 miles per hour collided with a small airplane heading south from El Paso, Texas. The flaming wreckage of both aircraft fell to the Mexican desert below, igniting a desperate race by two governments to recover technology from beyond the stars. This book was the basis for an episode of the History Channel's *UFO Hunters* television series. **REVIEWS:** Amazing! This story is wilder than the U.S. Roswell. This book is an amazing piece of work. - George Noory, *Coast to Coast AM*. A very nice and thorough job. Jim Marrs, *Bestselling Author*. Noe and Ruben are to be commended. - Stanton T. Friedman, *UFO Researcher*.

What that object was, as well as what happened in the days following the crash, has been hotly disputed ever since. Did the United States government cover up the existence of an extraterrestrial UFO? **The Roswell Quest** DJ Schneider,2022-04-27 A B.R.A.G. MEDALLION HONOREE Their discovery could change the world forever... In 1947 a spaceship crashed outside Roswell, New Mexico. The government quickly covered it up. And the most famous UFO event in history remained buried. But what if someone smuggled material out from the crash site and decades later it remained hidden in a secret location? And what if a young teenage girl named Melanie Simpson is the only one who can figure out where? **READERS' FAVORITE REVIEW:** If you're a fan of TV shows like *Stranger Things*, you're going to love *The Roswell Quest*. DJ Schneider masterfully incorporates real-life events to craft an engaging narrative that keeps you hooked from start to finish. Frankie is a normal fourteen-year-old boy, enjoying baseball and pulling pranks until Melanie

Simpson moves in next door. She wears sleeveless t-shirts, jeans with holes in the knees, Converse sneakers, and can throw a really mean curveball. None of that stops Frankie from falling for her. But Melanie comes with a mystery; one even she doesn't know exists. Together, with their friend Beanie, they pull a hoax that goes terribly wrong but leads to an amazing discovery. Mel's father had been at the UFO crash in Roswell and smuggled some of the alien material out. He is dead now, and it is hidden somewhere. Mel, Frankie, and Beanie work to unravel the clues to where. They soon discover others are after it. The Air Force who wants to keep their cover-up secure, and a Russian Agent desperate to get the alien material for the valuable technology he could deliver to his country. It puts them in terrible danger—and only Melanie can find a way out. The Night Owl said: As a kid growing up with Stand By Me, Goonies, Monster Squad, and other films in that genre it was nice to get that feeling from a book. The UFO Detective said: DJ Schneider is doing something important—capturing the REAL truths about Roswell and delivering them in an entertaining novel. ABOUT ROSWELL: The most famous UFO event in history was the discovery of a crashed flying saucer and alien bodies outside Roswell, New Mexico, in July 1947. The military put out a press release saying they had recovered a flying disk, but recanted the next day, stating it was a big misunderstanding and just a weather balloon. Over the following days the military from Roswell Army Air Field covered it up—they cordoned off the crash sites, recovered the bodies and debris, threatened the local population into silence, and switched out pieces of a weather balloon for the crash debris in a big press event. And the most important UFO incident in history remained buried for years.

**The Outsider** Melinda Metz,2002-02-02 The acclaimed Roswell High series—and the inspiration for the upcoming Roswell, New Mexico TV series airing on the CW—returns with this new introduction, perfect for fans of Stranger Things and Riverdale. He's not like other guys. Liz has seen him around school. It's hard to miss Max—the tall, blond, blue-eyed senior stands out among all the other students at Roswell High. So why is he such a loner? Max is in love with Liz. He loves the way her eyes light up when she laughs and the way her long, black hair moves when she turns her head. Most of all, he loves to imagine what it would be like to kiss her. But he knows he can't get too close. He can't risk her discovering the truth about who he is—or what he is.... Because the truth could kill her.

**We Caused the Roswell Crashes** Phil H. Clark,E. J. Clark,2011-10-19 The 1947 Roswell incident was not a weather balloon but the result of not one or two but three UFO crashes! For sixty-four years the truth has remained hidden until two people have finally come forth to give their first-hand eye witness account of what really happened. They call themselves the forgotten witnesses. For the first time the full facts are revealed which will correct some facts that Roswell UFO researchers have assumed was correct. Consider yourself lucky to have one first-hand eye witness to an event; to have two first-hand eye witnesses to a major controversial event is extremely rare. From day one, the Roswell incident has been surrounded by controversy, government cover-ups, lies, and deception because of the lack of a first-hand eye witness account when the incident was occurring. It is difficult to refute an account told from two living witnesses who were on the scene when the incident happened whose only intent is to set the story straight. Their account, as told within this book, will certainly ignite the passion of Roswell UFO researchers once more.

**Ultimate Guide to the Roswell UFO Crash** Noe Torres,2019-11-06 This amazing book takes readers on an unforgettable trip back in time to July 1947, when something from beyond Earth fell out of the sky in the desert north of Roswell, New Mexico. Using historical photos, maps, and eyewitness testimony, readers go on a detailed tour of the actual places involved.

*Roswell USA* John LeMay,Neil Riebe,Noe Torres,2014-03 The year was 1997 and some 40,000 tourists and reporters descended upon the desert town of Roswell, New Mexico, where 50 years earlier a flying saucer is said to have crashed. Even today, UFOs and “Little Green Men” remain Roswell's top tourist draw. This book takes a fresh new look at the Roswell Incident from an “insider's perspective ” - that of lifelong Roswell resident John LeMay, a historian and author born and raised in the Alien Capital of the World. His childhood being filled with tales of flying saucers and alien autopsies, John grew up knowing several key Roswell eyewitnesses, including Robert Shirkey, who said he saw UFO debris being loaded onto a B-29 bomber at the Roswell Army Air Field in 1947.In the first part of this remarkable new book, John's keen insight and marvelous sense of humor deliver a fresh new angle on the story of the Roswell UFO crash and on some of Roswell's other, lesser-known mysteries, such as the “alien ghost” that haunts the former New Mexico Rehabilitation Center; the “Second” Roswell UFO Crash of 1949; Bottomless Lakes where cars sink into the depths and monsters emerge to the surface; and The Headless Horsewoman of Lover's Lane, a Victorian Era Spook with an axe to grind against young lovers.Roswell is by no means the only town to use strange events and bizarre creatures to draw tourism dollars. Nor was it the first. In the second part of John's book, he takes us on a tour of other towns all over the U.S. that celebrate weirdness - like Churubusco, Indiana, where a giant turtle transformed the town into “Turtle town, USA.” There is also Point Pleasant, West Virginia, where a moth-like humanoid has inspired an Annual Mothman Festival and a year-round Mothman Museum. Take a dip in the White River Monster Reservoir in Jacksonport, Arkansas, and visit an alien's grave in Aurora, Texas. Cruise along the E.T. Highway near Rachel, Nevada, and have your picture taken with Bigfoot in Fouke, Arkansas.
