**The Round House** Louise Erdrich, 2012-10-02 Winner of the National Book Award • Washington Post Best Book of the Year • A New York Times Notable Book From one of the most revered novelists of our time, an exquisitely told story of a boy on the cusp of manhood who seeks justice and understanding in the wake of a terrible crime that upends and forever transforms his family. One Sunday in the spring of 1988, a woman living on a reservation in North Dakota is attacked. The details of the crime are slow to surface because Geraldine Coutts is traumatized and reluctant to relive or reveal what happened, either to the police or to her husband, Basil, and thirteen-year-old son, Joe. In one day, Joe's life is irrevocably transformed. He tries to heal his mother, but she will not leave her bed and slips into an abyss of solitude. Increasingly alone, Joe finds himself thrust prematurely into an adult world for which he is ill prepared. While his father, a tribal judge, endeavors to wrest justice from a situation that defies his efforts, Joe becomes frustrated with the official investigation and sets out with his trusted friends, Cappy, Zack, and Angus, to get some answers of his own. Their quest takes them first to the Round House, a sacred space and place of worship for the Ojibwe. And this is only the beginning. The Round House is a page-turning masterpiece—at once a powerful coming-of-age story, a mystery, and a tender, moving novel of family, history, and culture.

Stanley Junction had become a wide-awake town of some importance since the shops had been moved there, and when a second line took it in as a passing point, the old inhabitants pronounced the future of the Junction fully determined.

**Ralph of the Roundhouse** Allen Chapman, 2013-12 The Daylight Express rolled up to the depot at Stanley Junction, on time, circling past the repair shops, freight yard and roundhouse, a thing of life and beauty. Stanley Junction had become a wide-awake town of some importance since the shops had been moved there, and when a second line took it in as a passing point, the old inhabitants pronounced the future of the Junction fully determined. Engine No. 6, with its headlight shining like a piece of pure crystal, its metal trimmings furbished up bright and natty-looking, seemed to understand that it was the model of the road, and sailed majestically to a repose that had something of dignity and grandeur to it. The usual crowd that kept tab on arriving trains lounged on the platform, and watched the various passengers alight. A brisk, bright-faced young fellow glided from their midst, cleared an obstructing truck with a clever spring, stood ready to greet the locomotive and express car as they parted company from the passenger coaches, and ran thirty feet along the siding to where the freight-sheds stood. He appeared to know everybody, and to be a general favorite with every one, for the brakeman at the coach-end air brake gave him a cheery: Hi, there, kid! gaunt John Griscom, the engineer, flung him a grim but pleased nod of recognition, and the fireman, discovering him, yelled a shrill: All aboard, now! The young fellow turned to face the latter with a whirl and struck an attitude, as if entirely familiar with jolly Sam Cooper's warnings.

*Kings of the Roundhouse* John Preston, 2004 Accountant, virgin, large-bottomed man of unusual drabness, Edmund Crowe wants nothing more than to fit in. Trouble is, nothing feels right. Least of all the Roundhouse: Mecca to Camden's undesirables. Assigned the job of balancing the Roundhouse's books - and thereby ensure its demise - Edmund is advised to keep his purpose there a secret. But then Barney appears on the scene: Barney the lothario, the fine-handed gypsy, and hitherto the undisputed king of the Roundhouse. Before long, Edmund and Barney are fighting it out for the affections of an ice-cream coquette called Lia. Sex, drugs, rock'n roll and mutant rats swiftly follow as Edmund's life changes in previously unimaginable ways. Charting the progress of Barney, Lia and Crowe, from the orgiastic, mind-bending '70s to the social-climbing, emotionally-famished '90s; from crumbling cityscape to lavish country retreat, Kings of the Roundhouse is a brilliantly twisted darkly comic

novel about love, friendship, men, money, and the life-transforming power of lightning strikes.

The Oneonta Roundhouse Jim Loudon,2010 The Oneonta Roundhouse provides the definitive account of the birth, life, and death of the world's largest railroad roundhouse, built in the early 1900s in Oneonta, New York. Jim Loudon, a founding member of the Leatherstocking Railway Historical Society, describes in detail the earlier roundhouses built on the site by the Delaware & Hudson Railroad, and how the company's rapid growth led to the turntable's expansion. He provides specific information about the background politics and the construction of the primary roundhouse, and the improvements made to the monumental building over the years. The book is heavily illustrated, with 122 photos and 53 maps and diagrams, including full schematics for the roundhouse, turntable, and adjacent buildings. Other chapters focus on the D&H's Challenger locomotives, and the coal pocket fire of 1946 that ultimately ended in tragedy. The book's epilogue chapter includes Loudon's photographs of the building's twilight, taken only months before the remaining structure was dismantled. About the Second Edition First published in 1993, The Oneonta Roundhouse has sold over 3000 copies worldwide, a tribute to its story and the continuing interest in railroading history. This second edition includes some revisions, a table of contents, and a new preface by the author. About the Author Jim Loudon is a native of Otsego County and currently resides in the West End of Oneonta, New York. He graduated from the State University of New York College at Oneonta in 1972 with a BS in Liberal Arts, majoring in art and history. In 1982 Jim organized the Leatherstocking Railway Historical Society, which currently operates the Cooperstown and Charlotte Valley Railroad tourist train ride, and for which he has served as Conductor, Engineer, and Brakeman. For over two decades Jim has devoted his time to researching the local area's railroad history, authoring several articles on the subject, as well as a second book, Leatherstocking Rails: A History of Railroading Along the Upper Susquehanna (2005). A practitioner of the visual arts, the subjects of Jim's paintings, drawings and photographs include wildlife, landscapes, locomotives and antique tractors.

**Cowboy in the Roundhouse** Bruce King,Charles Poling,1998 Bruce King towers over the political landscape of New Mexico in the last half of the twentieth century. Born the son of a homesteader in the tiny Santa Fe County farm-and-ranch community of Stanley, King decided in seventh grade to be governor of New Mexico. The story of how he accomplished that goal-three times!-plays out against the tremendous transformations occurring in the society, culture, politics, and business of New Mexico since World War II. When King won his first Santa Fe County Commission seat in 1954 at age 29, running for office was a down-home affair. Politics was personal. But as he served in office and climbed the political ladder toward his lifelong ambition, New Mexico changed. The state's population shifted away from the rural communities to the rapidly expanding cities, while the once-dominant agricultural interests in the legislature yielded to the emerging urban voting blocs. Meanwhile, the challenges of governing grew ever more complex. King's well-recognized skills of mediation and conciliation helped him lead the state through a time of often-bewildering change. This book is rich with colorful stories as King recalls the major events of his career and conveys the human side of campaigning, governing, political deal-making, and sparring with the press. He also talks about his friendships and encounters with many of the leading national and state political figures of our time, including President Bill Clinton, President Ronald Reagan, President Jimmy Carter, Senator Pete Domenici, and Energy Secretary Bill Richardson. A classic tale of political intuitions spiced by New Mexico flavor as unique as Hatch green chile, Cowboy in the Roundhouse is lively reading. As famed mystery writer Tony Hillerman writes in his introduction to the book, 'While I count myself among the many who wanted Bruce King to write an autobiography, I doubt if any of us had much hope he'd get around to doing it. Now he has and it's even better than we'd expected.'

*Ralph of the Roundhouse (1906)* by Allen Chapman,2017-12-12 Edward L. Stratemeyer (October 4, 1862 - May 10, 1930) was an American publisher and writer of children's fiction. He was one of the most prolific writers in the world, producing in excess of 1,300 books himself, selling in excess of 500 million copies. He also created many well-known fictional book series for juveniles, including The Rover Boys, The Bobbsey Twins, Tom Swift, The Hardy Boys, and Nancy Drew series, many of which sold millions of copies and are still in publication today. On Stratemeyer's legacy, Fortune wrote: As oil had its Rockefeller, literature had its Stratemeyer.Stratemeyer was born the youngest of six children in Elizabeth, New Jersey, to Henry Julius Stratemeyer, a tobacconist, and Anna Siegel. They were both from Hanover, Germany, immigrating to the United States in 1837. Although they were German, he and his siblings were educated in English and spoke English to each other. Growing up, Edward read the likes of Horatio Alger and William T. Adams, writers who penned beloved rags-to-riches tales of the hardworking young American. These stories greatly influenced him.[5] As a teenager, Stratemeyer operated his own printing press in the basement of his father's tobacco shop, distributing flyers and pamphlets among his friends and family. These included stories called The Newsboy's Adventure and The Tale of a Lumberman. After he graduated from high school, he went to work in his father's store. It wasn't until the age of 26 in 1888 that Stratemeyer sold his first story, Victor Horton's Idea, to the popular children's magazine Golden Days for \$76-over six times the average weekly paycheck at the time.
