*The Routemaster Pocket-Book* Matthew Jones, 2020-02-20 Nothing encapsulates the essence of London quite like the red double-decker Routemaster bus. Its iconic design, since its 1956 inception, has become as much a symbol of the capital as St Paul's or Tower Bridge. The design was revolutionary, drawing largely on the many innovative technological advances brought about by the development of aircraft during the Second World War. Boasting a lightweight, two-part sub frame assembly, independent front suspension, an automatic gearbox, power-hydraulic braking and power-steering, this truly modern machine was like nothing seen before in public transport. The Routemaster was specifically designed and constructed for service in the tough operating conditions of London and its suburbs. It served this vast area for nearly half a century and its utility and mechanical reliability made it a dependable workhorse for London Transport, leading to several refurbishments and life extensions before it was finally withdrawn from general service in 2005. Cherished by the public and tourists alike, it is a genuine classic and many heritage examples remain in working order – indeed, you can still hop on a Routemaster on parts of London's number 9 and 15 routes. This book is a delightful celebration of the Routemaster, using authentic material covering its exterior and interior design, technical aspects and operation, and illustrated with diagrams and line drawings throughout. There are sections on learning to be a bus driver (circa 1960), behind the scenes in a bus garage, reports and press releases on the first Routemasters, timetables and bus maps from 1956, instructions for drivers and conductors, and even a user's guide to the Gibson bus ticket machine for all aspiring 'clippies'. As Mayor of London Boris Johnson's 'new' Routemaster takes to the road it is a timely reminder of just how great the original was.

Last Years of the London Routemaster Matthew Wharmby, 2023-04-20 The last decade of Routemaster bus operation in London saw over seven hundred surviving RMs and RMLs divided between several new companies following the privatization of London Buses Ltd's subsidiaries in 1994. Now operating their existing twenty routes under contract to LRT (renamed TfL in 2000), Centrewest, Metroliner, MTL London Northern, Leaside Buses, Stagecoach East London, South London, London Central, London General and London United all adopted their own predominantly red liveries, but by the turn of the century these firms had clustered in pairs and generally sold out to the emerging big corporate groups. Two

independents, BTS and Kentish Bus, had also won a Routemaster route each and were similarly brought under the control of larger parents. In this photographic archive, each company's last Routemaster-operating decade is outlined in detail up to when each route was converted to OPO one by one between 29 August 2003 and 9 December 2005. The two heritage routes are then explored all the way up to their own end in 2019.

**London's New Routemaster** Tony Lewin,Thomas Heatherwick,2014-05-12 Few things are as synonymous with London as its famous red buses, thousands of which carry millions of passengers a year on hundreds of separate routes. Yet since the withdrawal from service of the much loved Routemaster in the mid-2000s, none of its replacements has succeeded in generating the same kind of affection among the travelling public. Now, however, the stylish, Thomas Heatherwick-designed New Routemaster looks set to recapture the imagination of Londoners and visitors alike. This book tells the story of the New Routemaster.
