

Russia

Masha Gessen

The Story of Russia Orlando Figes, 2022-09-20 "This is the essential backstory, the history book that you need if you want to understand modern Russia and its wars with Ukraine, with its neighbors, with America, and with the West." —Anne Applebaum, author of *Twilight of Democracy* and *Red Famine* Named a Most Anticipated Book of the Year by Publishers Weekly and Kirkus Reviews From "the great storyteller of Russian history" (Financial Times), a brilliant account of the national mythologies and imperial ideologies that have shaped Russia's past and politics—essential reading for understanding the country today *The Story of Russia* is a fresh approach to the thousand years of Russia's history, concerned as much with the ideas that have shaped how Russians think about their past as it is with the events and personalities comprising it. No other country has reimagined its own story so often, in a perpetual effort to stay in step with the shifts of ruling ideologies. From the founding of Kievan Rus in the first millennium to Putin's war against Ukraine, Orlando Figes explores the ideas that have guided Russia's actions throughout its long and troubled existence. Whether he's describing the crowning of Ivan the Terrible in a candlelit cathedral or the dramatic upheaval of the peasant revolution, he reveals the impulses, often unappreciated or misunderstood by foreigners, that have driven Russian history: the medieval myth of Mother Russia's holy mission to the world; the imperial tendency toward autocratic rule; the popular belief in a paternal tsar dispensing truth and justice; the cult of sacrifice rooted in the idea of the "Russian soul"; and always, the nationalist myth of Russia's unjust treatment by the West. How the Russians came to tell their story and to revise it so often as they went along is not only a vital aspect of their history; it is also our best means of understanding how the country thinks and acts today. Based on a lifetime of scholarship and enthrallingly written, *The Story of Russia* is quintessential Figes: sweeping, revelatory, and masterful.

Assignment Russia Marvin Kalb, 2021-04-13 A personal journey through some of the darkest moments of the cold war and the early days of television news Marvin Kalb, the award-winning journalist who has written extensively about the world he reported on during his long career, now turns his eye on the young man who became that journalist. Chosen by legendary broadcaster Edward R. Murrow to become one of what came to be known as the Murrow Boys, Kalb in this newest volume of his memoirs takes readers back to his first days as a journalist, and what also were the first days of broadcast news. Kalb captures the excitement of being present at the creation of a whole new way of bringing news immediately to the public. And what news. Cold War tensions were high between Eisenhower's America and Khrushchev's Soviet Union. Kalb is at the center, occupying a unique spot as a student of Russia tasked with explaining Moscow to Washington and the American public. He joins a cast of legendary figures along the way, from Murrow himself to Eric Severeid, Howard K. Smith, Richard Hottelet, Charles Kuralt, and Daniel Schorr among many others. He finds himself assigned as Moscow correspondent of CBS News just as the U2 incident—the downing of a US spy plane over Russian territory—is unfolding. As readers of his first volume, *The Year I Was Peter the Great*, will recall, being the right person, in the right place, at the right time found Kalb face to face with Khrushchev. *Assignment Russia* sees Kalb once again an eyewitness to history—and a writer and analyst who has helped shape the first draft of that history.

The Future Is History Masha Gessen, 2018-10-02 WINNER OF THE 2017 NATIONAL BOOK AWARD IN NONFICTION FINALIST FOR THE NATIONAL BOOK CRITICS CIRCLE AWARDS WINNER OF THE NEW YORK PUBLIC LIBRARY'S HELEN BERNSTEIN BOOK AWARD NAMED A BEST BOOK OF 2017 BY THE NEW YORK TIMES BOOK REVIEW, LOS ANGELES TIMES, WASHINGTON POST, BOSTON GLOBE, SEATTLE TIMES, CHRISTIAN SCIENCE MONITOR, NEWSWEEK, PASTE, and POP SUGAR The essential journalist and bestselling biographer of Vladimir Putin reveals how, in the space of a generation, Russia surrendered to a more

virulent and invincible new strain of autocracy. Award-winning journalist Masha Gessen's understanding of the events and forces that have wracked Russia in recent times is unparalleled. In *The Future Is History*, Gessen follows the lives of four people born at what promised to be the dawn of democracy. Each of them came of age with unprecedented expectations, some as the children and grandchildren of the very architects of the new Russia, each with newfound aspirations of their own--as entrepreneurs, activists, thinkers, and writers, sexual and social beings. Gessen charts their paths against the machinations of the regime that would crush them all, and against the war it waged on understanding itself, which ensured the unobstructed reemergence of the old Soviet order in the form of today's terrifying and seemingly unstoppable mafia state. Powerful and urgent, *The Future Is History* is a cautionary tale for our time and for all time.

Russia and the Russians Geoffrey A. Hosking, 2001 Chronicles the history of the Russian Empire from the Mongol Invasion, through the Bolshevik Revolution, to the aftereffects of the Cold War.

Putin Country Anne Garrels, 2016-03-15 Short-listed for the Pushkin House Russian Book Prize More than twenty years ago, the NPR correspondent Anne Garrels first visited Chelyabinsk, a gritty military-industrial center a thousand miles east of Moscow. The longtime home of the Soviet nuclear program, the Chelyabinsk region contained beautiful lakes, shuttered factories, mysterious closed cities, and some of the most polluted places on earth. Garrels's goal was to chart the aftershocks of the U.S.S.R.'s collapse by traveling to Russia's heartland. Returning again and again, Garrels found that the area's new freedoms and opportunities were exciting but also traumatic. As the economic collapse of the early 1990s abated, the city of Chelyabinsk became richer and more cosmopolitan, even as official corruption and intolerance for minorities grew more entrenched. Sushi restaurants proliferated; so did shakedowns. In the neighboring countryside, villages crumbled into the ground. Far from the glitz of Moscow, the people of Chelyabinsk were working out their country's destiny, person by person. In *Putin Country*, Garrels crafts an intimate portrait of Middle Russia. We meet upwardly mobile professionals, impassioned activists who champion the rights of orphans and disabled children, and ostentatious mafiosi. We discover surprising subcultures, such as a vibrant underground gay community and a circle of determined Protestant evangelicals. And we watch doctors and teachers trying to cope with inescapable payoffs and institutionalized negligence. As Vladimir Putin tightens his grip on power and war in Ukraine leads to Western sanctions and a lower standard of living, the local population mingles belligerent nationalism with a deep ambivalence about their country's direction. Through it all, Garrels sympathetically charts an ongoing identity crisis. In the aftermath of the Soviet Union, what is Russia? What kind of pride and cohesion can it offer? Drawing on close friendships sustained over many years, Garrels explains why Putin commands the loyalty of so many Russians, even those who decry the abuses of power they regularly encounter. Correcting the misconceptions of Putin's supporters and critics alike, Garrels's portrait of Russia's silent majority is both essential and engaging reading at a time when cold war tensions are resurgent.

Kremlin Rising Peter Baker, Susan Glasser, 2005-06-07 In the tradition of Hedrick Smith's *The Russians*, Robert G. Kaiser's *Russia: The People and the Power*, and David Remnick's *Lenin's Tomb* comes an eloquent and eye-opening chronicle of Vladimir Putin's Russia, from this generation's leading Moscow correspondents. With the 1991 collapse of the Soviet Union, Russia launched itself on a fitful transition to Western-style democracy. But a decade later, Boris Yeltsin's handpicked successor, Vladimir Putin, a childhood hooligan turned KGB officer who rose from nowhere determined to restore the order of the Soviet past, resolved to bring an end to the revolution. *Kremlin Rising* goes behind the scenes of contemporary Russia to reveal the culmination of Project Putin, the secret plot to reconsolidate power in the Kremlin. During their four years as Moscow bureau chiefs for *The Washington Post*,

Peter Baker and Susan Glasser witnessed firsthand the methodical campaign to reverse the post-Soviet revolution and transform Russia back into an authoritarian state. Their gripping narrative moves from the unlikely rise of Putin through the key moments of his tenure that re-centralized power into his hands, from his decision to take over Russia's only independent television network to the Moscow theater siege of 2002 to the managed democracy elections of 2003 and 2004 to the horrific slaughter of Beslan's schoolchildren in 2004, recounting a four-year period that has changed the direction of modern Russia. But the authors also go beyond the politics to draw a moving and vivid portrait of the Russian people they encountered -- both those who have prospered and those barely surviving -- and show how the political flux has shaped individual lives. Opening a window to a country on the brink, where behind the gleaming new shopping malls all things Soviet are chic again and even high school students wonder if Lenin was right after all, *Kremlin Rising* features the personal stories of Russians at all levels of society, including frightened army deserters, an imprisoned oil billionaire, Chechen villagers, a trendy Moscow restaurant king, a reluctant underwear salesman, and anguished AIDS patients in Siberia. With shrewd reporting and unprecedented access to Putin's insiders, *Kremlin Rising* offers both unsettling new revelations about Russia's leader and a compelling inside look at life in the land that he is building. As the first major book on Russia in years, it is an extraordinary contribution to our understanding of the country and promises to shape the debate about Russia, its uncertain future, and its relationship with the United States.

Russia in Decline S. Enders Wimbush, Elizabeth M. Portale, 2017-03 Russia is in precipitous decline, which is unlikely to be reversed. This conclusion, based on the research of Russian and American experts, constitutes the bottom line of The Jamestown Foundation's project, *Russia in Decline*. Moreover, the tempo of Russia's decay is accelerating across virtually every fragment of its politics, economy, society and military, which renders Russia a poor candidate to survive globalization, let alone claim the mantle of a Great Power. This small volume details why Russia's spiraling into decline and disarray should keep strategists awake at night. It should also alert foreign policy, security and military planners, for whom Russia's decline will necessarily become the leitmotif of informed planning.

Russia ABCs Ann Berge, 2004 Privyet! Welcome to Russia! Come along on this ABC adventure through the biggest country on Earth. Read about diamond-studded eggs, the deepest lake in the world, and other fascinating facts.

Russia Rising Dimitar Bechev, Nicu Popescu, Stanislav Secieru, 2021-07-01 The war in Syria has put Russia at the centre of Middle Eastern politics. Moscow's return to the region following a prolonged period of absence has enhanced its geopolitical status at a time it has emerged as a rival to the West. Yet, contrary to the media hype, Vladimir Putin is not set to become the new power-broker in this strategically important part of the world. Co-authored by a team of prominent scholars and analysts from the EU, US, Russia and the Middle East, this book explores Russia's role in the Middle East and North Africa, the diverse drivers shaping its policy, and the response from local players. Chapters map out the history of Russian involvement, before and after the collapse of the Soviet Union, the impact on key issues such as security and defence, regional conflicts, arms trade, and energy, as well as relations influential states and country clusters such as Iran, the Gulf, Turkey, Israel, Egypt, and the Maghreb. It also looks at how the Middle East impacts on Russia's relations with the West. The book offers a balanced assessment of Russian influence, highlighting both the political, diplomatic and commercial gains made thanks to Putin's decision in September 2015 to intervene militarily in Syria and the constraints preventing Moscow from replacing the United States as a regional hegemon.

Twelve stories of Russia A. J. Perry, 2000 What is the book about? *Twelve Stories of Russia: A Novel*, I guess is about an American who moves to Moscow in 1991 - just before

the fall of the Iron Curtain - to help Russians understand the difference between the and a. In his quest he is witness to an unsuccessful coup, an even-less-successful rebellion, rampant inflation, unprecedented social, economic and political change, Mafia infighting, and a host of other phenomena that characterize this period. But, alas, the book pays almost no attention to any of this. In Russia such cataclysms are a given, and the narrator, in his discussions with Russian friends, is forced to address much more pressing issues of cross-cultural relations: Why is it, a friend asks, that you Americans smile so much? What is the structure of the novel? The book is four hundred forty-eight pages with a total word count of one hundred thirty-seven thousand words. It is divided into twelve chapters called books, which represent semi-independent stories, each with its own style. The chapters are connected both chronologically and by unifying themes: the main character's quest for the eleven Russian words that are not just words; his futile attempt to love vodka; his long-distance relationship with the aunt he has abandoned in his search for danger. Who is the audience? Any foreigner who has been to Russia and can compare the book with his own experiences. Russians who know English and are interested in seeing a fresh, thoughtful perspective on their culture. Intelligent readers who understand that America is not the only country in the world. People who enjoy reading for its own sake. --Book Jacket.

Russia in the Shadows Herbert George Wells, 1921

The Political Economy of Russia Neil Robinson, 2012-07-13 This timely book explores Russia's political development since the collapse of the USSR and how inextricably it has been bound up with economic change. Tracing the evolution of Russia's political economy, leading scholars consider how it may continue to develop going forward. They assess the historical legacies of the Soviet period, showing how—despite policies implemented after the USSR dissolved in 1991—there are ongoing bitter battles over property and state revenues, over land, and over welfare. The book puts these domestic issues in international and comparative perspective by considering Russia's position in the global economy and its growing role as a major energy producer. Focusing especially on the nature and future of Russian capitalism, the contributors weigh the political problems that confront Russia in its ongoing struggle to modernize and develop its economy. Contributions by: Andrew Barnes, Paul T. Christensen, Linda J. Cook, Gerald M. Easter, Neil Robinson, Richard Sakwa, and Stephen K. Wegren.

The Idea of Russia Vladislav Zubok, 2017-01-30 Dmitry Likhachev (1906-1999) was one of the most prominent Russian intellectuals of the twentieth century. His life spanned virtually the entire century - a tumultuous period which saw Russia move from Tsarist rule under Nicholas II via the Russian Revolution and Civil War into seven decades of communism followed by Gorbachev's Perestroika and the rise of Putin. In 1928, shortly after completing his university education, Likhachev was arrested, charged with counter-revolutionary ideas and imprisoned in the Gulag, where he spent the next five years. Returning to a career in academia, specialising in Old Russian literature, Likhachev played a crucial role in the cultural life of twentieth-century Russia, campaigning for the protection of important cultural sites and historic monuments. He also founded museums dedicated to great Russian writers including Dostoevsky, Pushkin and Pasternak. In this, the first biography of Likhachev to appear in English, Vladislav Zubok provides a thoroughly-researched account of one of Russia's most extraordinary and influential public figures.

The Chechen Wars Matthew Evangelista, 2004-05-13 Following the breakup of the Soviet Union, Boris Yeltsin improvised a system of asymmetric federalism to help maintain its successor state, the Russian Federation. However, when sparks of independence flared up in Chechnya, Yeltsin and, later, Vladimir Putin chose military action to deal with a brushfire that they feared would spread to other regions and eventually destroy the federation. Matthew Evangelista examines the causes of the Chechen Wars of 1994 and 1999 and challenges Moscow's claims that the Russian Federation was too fragile to

withstand the potential loss of one rebellious republic. He suggests that the danger for Russia lies less in a Soviet-style disintegration than in a misguided attempt at authoritarian recentralization, something that would jeopardize Russia's fledgling democratic institutions. He also contends that well-documented acts of terrorism by some Chechen fighters should not serve as an excuse for Russia to commit war crimes and atrocities. Evangelista urges emerging democracies like Russia to deal with violent internal conflict and terrorism without undermining the fundamental rights and freedoms of their citizens. He recommends that the United States and other democracies be more attentive to Moscow's violations of human rights and, in their own struggle against terrorism, provide a kind of role model.

The Return Daniel Treisman, 2011-01-04 Russia has long been a source of puzzlement—and sometimes alarm—for Western observers. Since shaking off communism two decades ago, the country has seemed wobbly at best, thoroughly corrupt and threatening at worst. But in recent years, as noted scholar Daniel Treisman shows in this compelling account, Russia has re-emerged as a pivotal nation in world affairs. In *The Return*, Treisman cuts through the myths and misinformation, as well as ongoing academic and journalistic debates, to present a portrait of a strong and independent country that is returning to the international community on its own terms. Drawing on two decades of research, interviews, and insider observation, *The Return* provides the first comprehensive history of post-communist Russia. From Gorbachev to Yeltsin, Putin, and Medvedev, it traces the twists and turns of the country's evolution, uncovering the causes behind Russia's plunge into depression in the 1990s and resurgence since 2000. Rather than a nation frozen in ancient authoritarian traditions, as Russia is often portrayed, Treisman shows a society modernizing rapidly, with a government that, although less than democratic, is sensitive to public opinion but which has been repeatedly buffeted by economic forces—the collapse of Soviet planning, the gyrations of oil prices—that have alternately boosted and drained the leaders' popularity. Knocked off balance once again by the global financial crisis, the Kremlin's current bosses must now struggle to reignite the growth on which the stability of their regime depends. As Russia grapples with its economic difficulties, the West will have to come to terms with the new Russia. With its UN Security Council veto, thousands of atomic warheads, continental dimensions, and vast mineral resources, Moscow sits at the epicenter of the toughest challenges the world will confront in the next generation—from Islamic terrorism and nuclear proliferation to energy security and global warming. To enlist Russia's cooperation in solving the problems of the twenty-first century, Western leaders will need to look beyond common misconceptions to see the country as it is rather than as it has often been imagined or depicted. Based on extensive research by an expert with intimate knowledge of the country, the book provides insight into the prospects for democracy in Russia, the challenges and opportunities of doing business there, the wars in Chechnya, and the motives behind Moscow's foreign policy. *The Return* is the ultimate accounting of what Russia is today, how it got there, and where it's going.

A Brief History of Russia Michael Kort, 2008 Provides an overview of Russia, from its early beginnings in the ninth century to the current presidency of Vladimir Putin, detailing the social, economic, and political changes and crises that the people of Russia have had to endure.

Russia in World History Choi Chatterjee, 2022-01-27 *Russia in World History* uses a comparative framework to understand Russian history in a global context. The book challenges the idea of Russia as an outlier of European civilization by examining select themes in modern Russian history alongside cases drawn from the British Empire. Choi Chatterjee analyzes the concepts of nation and empire, selfhood and subjectivity, socialism and capitalism, and revolution and the world order in the 19th, 20th, and 21st centuries. In

doing so she rethinks many historical narratives that bluntly posit a liberal West against a repressive, authoritarian Russia. Instead Chatterjee argues for a wider perspective which reveals that imperial practices relating to the appropriation of human and natural resources were shared across European empires, both East and West. Incorporating the stories of famous thinkers, such as Leo Tolstoy, Emma Goldman, Wangari Maathai, Arundhati Roy, among others. This unique interpretation of modern Russia is knitted together from the varied lives and experiences of those individuals who challenged the status quo and promoted a different way of thinking. This is a ground-breaking book with big and provocative ideas about the history of the modern world, and will be vital reading for students of both modern Russian and world history.

A Roadmap for U.S.-Russia Relations Andrey Kortunov, Olga Oliker, 2017-08-21 At a time of geopolitical tension and mutual distrust, the United States and Russia must work together in those areas where coordination is critical to global security, both to help stabilize the relationship and to buffer against conflict in the future.

Putin Richard Sakwa, 2007-11-13 The new edition of this extremely well-received political biography of Vladimir Putin builds on the strengths of the first edition to provide the most detailed and nuanced account of the man, his politics and his profound influence on Russian politics, foreign policy and society. New to this edition: analysis of Putin's second term as President more biographical information in the light of recent research detailed discussion of changes to the policy process and the élites around Putin developments in state-society relations including the conflicts with oligarchs such as Khodorkovsky review of changes affecting the party system and electoral legislation, including the development of federalism in Russia details on economic performance under Putin, including more discussion of the energy sector and pipeline politics Russia's relationship with NATO after the 'big bang' enlargement, EU-Russian relations after enlargement, and Russia's relations with other post-Soviet states the conclusion brings us up-to-date with debates over the question of democracy in Russia today and the nature of Putin's leadership and his place in the world. Putin is essential reading for all scholars and students of Russian politics.

Russia's Turn to the East Helge Blakkisrud, Elana Wilson Rowe, 2017-12-29 This book is open access under a CC BY license. This book explores if and how Russian policies towards the Far East region of the country – and East Asia more broadly – have changed since the onset of the Ukraine crisis and Russia's annexation of Crimea. Following the 2014 annexation and the subsequent enactment of a sanctions regime against the country, the Kremlin has emphasized the eastern vector in its external relations. But to what extent has Russia's 'pivot to the East' intensified or changed in nature – domestically and internationally – since the onset of the current crisis in relations with the West? Rather than taking the declared 'pivot' as a fact and exploring the consequences of it, the contributors to this volume explore whether a pivot has indeed happened or if what we see today is the continuation of longer-duration trends, concerns and ambitions.

Unveiling the Power of Verbal Beauty: An Psychological Sojourn through **Russia**

In a global inundated with displays and the cacophony of instantaneous connection, the profound power and psychological resonance of verbal beauty usually fade into obscurity, eclipsed by the continuous onslaught of sound and distractions. However, located within the lyrical pages of **Russia**, a interesting perform of fictional beauty that pulses with raw thoughts, lies an unique journey waiting to be embarked upon. Composed by a virtuoso wordsmith, this magical opus manuals readers on a psychological odyssey, gently exposing the latent possible and profound impact embedded within the delicate internet of language.

Within the heart-wrenching expanse with this evocative examination, we shall embark upon an introspective exploration of the book is main styles, dissect their charming writing type, and immerse ourselves in the indelible effect it leaves upon the depths of readers souls.
