*Emotion and the Structure of Narrative Film* Ed

S. Tan,2013-10-16 Introduced one hundred years

ago, film has since become part of our lives. For the past century, however, the experience offered by fiction films has remained a mystery. Questions such as why adult viewers cry and shiver, and why they care at all about fictional characters -- while aware that they contemplate an entirely staged scene -- are still unresolved. In addition, it is unknown why spectators find some film experiences entertaining that have a clearly aversive nature outside the cinema. These and other questions make the psychological status of emotions allegedly induced by the fiction film highly problematic. Earlier attempts to answer these questions have been limited to a few genre studies. In recent years, film criticism and the theory of film structure have made use of psychoanalytic concepts which have proven insufficient in accounting for the diversity of film induced affect. In contrast, academic psychology -- during the century of its existence -- has made extensive study of emotional responses provoked by viewing fiction film, but has taken the role of film as a natural stimulus completely for granted. The present volume bridges the gap between critical theories of film on the one hand, and recent psychological theory and research of human emotion on the other, in an attempt to explain the emotions provoked by fiction film. This book integrates insights on the narrative structure of fiction film including its themes, plot structure, and characters with recent knowledge on the cognitive processing of natural events, and narrative and person information. It develops a theoretical framework for

systematically describing emotion in the film viewer. The question whether or not film produces genuine emotion is answered by comparing affect in the viewer with emotion in the real world experienced by persons witnessing events that have personal significance to them. Current understanding of the psychology of emotions provides the basis for identifying critical features of the fiction film that trigger the general emotion system. Individual emotions are classified according to their position in the affect structure of a film -- a larger system of emotions produced by one particular film as a whole. Along the way, a series of problematic issues is dealt with, notably the reality of the emotional stimulus in film, the identification of the viewer with protagonists on screen, and the necessity of the viewer's cooperation in arriving at a genuine emotion. Finally, it is argued that film-produced emotions are genuine emotions in response to an artificial stimulus. Film can be regarded as a fine-tuned machine for a continuous stream of emotions that are entertaining after all. The work paves the way for understanding and, in principle, predicting emotions in the film viewer using existing psychological instruments of investigation. Dealing with the problems of film-induced affect and rendering them accessible to formal modeling and experimental method serves a wider interest of understanding aesthetic emotion -- the feelings that man-made products, and especially works of art, can evoke in the beholder.

**Metro Survive** Yuki Fujisawai, 2008 Originally

published in Japan in 2006 by Akita Publishing.

Cry to Heaven Anne Rice, 1995-04-01 In a sweeping saga of music and vengeance, the acclaimed author of *The Vampire Chronicles* draws readers into eighteenth-century Italy, bringing to life the decadence beneath the shimmering surface of Venice, the wild frivolity of Naples, and the magnetic terror of its shadow, Vesuvius. This is the story of the castrati, the exquisite and otherworldly sopranos whose graceful bodies and glorious voices win the adulation of royal courts and grand opera houses throughout Europe. These men are revered as idols—and, at the same time, scorned for all they are not. Praise for Anne Rice and *Cry to Heaven* “Daring and imaginative . . . [Anne] Rice seems like nothing less than a magician: It is a pure and uncanny talent that can give a voice to monsters and angels both.”—*The New York Times Book Review* “To read Anne Rice is to become giddy as if spinning through the mind of time.”—*San Francisco Chronicle* “If you surrender and go with her . . . you have surrendered to enchantment, as in a voluptuous dream.”—*The Boston Globe* “Rice is eerily good at making the impossible seem self-evident.”—*Time*

**Crying in H Mart** Michelle Zauner, 2021-04-20 #1 NEW YORK TIMES BESTSELLER • From the indie rock sensation known as Japanese Breakfast, an unforgettable memoir about family, food, grief, love, and growing up Korean American—“in losing her mother and cooking to bring her back to life, Zauner became herself” (NPR). • CELEBRATING OVER ONE YEAR ON THE NEW YORK TIMES BESTSELLER LIST In this exquisite story of family, food, grief, and

endurance, Michelle Zauner proves herself far more than a dazzling singer, songwriter, and guitarist. With humor and heart, she tells of growing up one of the few Asian American kids at her school in Eugene, Oregon; of struggling with her mother's particular, high expectations of her; of a painful adolescence; of treasured months spent in her grandmother's tiny apartment in Seoul, where she and her mother would bond, late at night, over heaping plates of food. As she grew up, moving to the East Coast for college, finding work in the restaurant industry, and performing gigs with her fledgling band--and meeting the man who would become her husband--her Koreanness began to feel ever more distant, even as she found the life she wanted to live. It was her mother's diagnosis of terminal cancer, when Michelle was twenty-five, that forced a reckoning with her identity and brought her to reclaim the gifts of taste, language, and history her mother had given her. Vivacious and plainspoken, lyrical and honest, Zauner's voice is as radiantly alive on the page as it is onstage. Rich with intimate anecdotes that will resonate widely, and complete with family photos, *Crying in H Mart* is a book to cherish, share, and reread.

**Battle Cry of Freedom** James M.

McPherson, 2003-12-11 Filled with fresh interpretations and information, puncturing old myths and challenging new ones, *Battle Cry of Freedom* will unquestionably become the standard one-volume history of the Civil War. James McPherson's fast-paced narrative fully integrates the political, social, and military events that

crowded the two decades from the outbreak of one war in Mexico to the ending of another at Appomattox. Packed with drama and analytical insight, the book vividly recounts the momentous episodes that preceded the Civil War--the Dred Scott decision, the Lincoln-Douglas debates, John Brown's raid on Harper's Ferry--and then moves into a masterful chronicle of the war itself--the battles, the strategic maneuvering on both sides, the politics, and the personalities. Particularly notable are McPherson's new views on such matters as the slavery expansion issue in the 1850s, the origins of the Republican Party, the causes of secession, internal dissent and anti-war opposition in the North and the South, and the reasons for the Union's victory. The book's title refers to the sentiments that informed both the Northern and Southern views of the conflict: the South seceded in the name of that freedom of self-determination and self-government for which their fathers had fought in 1776, while the North stood fast in defense of the Union founded by those fathers as the bulwark of American liberty. Eventually, the North had to grapple with the underlying cause of the war--slavery--and adopt a policy of emancipation as a second war aim. This new birth of freedom, as Lincoln called it, constitutes the proudest legacy of America's bloodiest conflict. This authoritative volume makes sense of that vast and confusing second American Revolution we call the Civil War, a war that transformed a nation and expanded our heritage of liberty.

Cry, by the methods you would delight in, could Ferdinand have persuaded me to love him: but often hath he raised himself in my esteem, when I believe I have not been in his thoughts, and when he hath been addressing his conversation to some other part of the company; and in this sense (and no other) often might he be said strongly to make love to me.

**Walking the Amazon** Ed Stafford, 2012 On 9th August 2010, Ed Stafford became the first person ever to walk the entire length of the Amazon river. This text takes readers on his daring journey along the world's greatest river and through the most bio-diverse habitat on Earth.

Swamplands Edward Struzik, 2021-10-12 In a world filled with breathtaking beauty, we have often overlooked the elusive magic of certain landscapes. A cloudy river flows into an Arctic wetland where sandhill cranes and muskoxen dwell. Further south, cypress branches hang low over dismal swamps. Places like these—collectively known as swamplands or peatlands—often go unnoticed for their ecological splendor. They are as globally significant as rainforests, yet, because of their reputation as wastelands, they are being systematically drained and degraded. *Swamplands* celebrates these wild places, as journalist Edward Struzik highlights the unappreciated struggle to save peatlands by scientists, conservationists, and landowners around the world. An ode to peaty landscapes in all their offbeat glory, the book is also a demand for awareness of the myriad threats they face. It inspires us to see the beauty and importance in

these least likely of places. Our planet's survival might depend on it.

What does it mean not just to survive, but to truly live? One summer morning, twelve-year-old Edward Adler, his beloved older brother, his parents, and 183 other passengers board a flight in Newark headed for Los Angeles. Among them are a Wall Street wunderkind, a young woman coming to terms with an unexpected pregnancy, an injured veteran returning from Afghanistan, a business tycoon, and a free-spirited woman running away from her controlling husband. Halfway across the country, the plane crashes. Edward is the sole survivor. Edward's story captures the attention of the nation, but he struggles to find a place in a world without his family. He continues to feel that a part of himself has been left in the sky, forever tied to the plane and all of his fellow passengers. *Reading the Romance* Janice A. Radway, 2009-11-18 Originally published in 1984, *Reading the Romance* challenges popular (and often demeaning) myths about why romantic fiction, one of publishing's most lucrative categories, captivates millions of women readers. Among those who have disparaged romance reading are feminists, literary critics, and theorists of mass culture. They claim that romances enforce the woman reader's dependence on men and acceptance of the repressive ideology purveyed by popular culture. Radway questions such claims, arguing that critical attention must shift from the text itself, taken in isolation, to the complex social event of reading. She examines that event, from the complicated business of publishing and distribution to the individual reader's

engagement with the text. Radway's provocative approach combines reader-response criticism with anthropology and feminist psychology. Asking readers themselves to explore their reading motives, habits, and rewards, she conducted interviews in a midwestern town with forty-two romance readers whom she met through Dorothy Evans, a chain bookstore employee who has earned a reputation as an expert on romantic fiction. Evans defends her customers' choice of entertainment; reading romances, she tells Radway, is no more harmful than watching sports on television. We read books so we won't cry is the poignant explanation one woman offers for her reading habit. Indeed, Radway found that while the women she studied devote themselves to nurturing their families, these wives and mothers receive insufficient devotion or nurturance in return. In romances the women find not only escape from the demanding and often tiresome routines of their lives but also a hero who supplies the tenderness and admiring attention that they have learned not to expect. The heroines admired by Radway's group defy the expected stereotypes; they are strong, independent, and intelligent. That such characters often find themselves to be victims of male aggression and almost always resign themselves to accepting conventional roles in life has less to do, Radway argues, with the women readers' fantasies and choices than with their need to deal with a fear of masculine dominance. These romance readers resent not only the limited choices in their own lives but the patronizing attitude that men especially express toward their reading

tastes. In fact, women read romances both to protest and to escape temporarily the narrowly defined role prescribed for them by a patriarchal culture. Paradoxically, the books that they read make conventional roles for women seem desirable. It is this complex relationship between culture, text, and woman reader that Radway urges feminists to address. Romance readers, she argues, should be encouraged to deliver their protests in the arena of actual social relations rather than to act them out in the solitude of the imagination. In a new introduction, Janice Radway places the book within the context of current scholarship and offers both an explanation and critique of the study's limitations.

**Blackwing** Ed McDonald, 2017-07-27 You think you know Misery? You've not seen anything yet . . . The republic faces annihilation, despite the vigilance of Galharrow's Blackwings. When a raven tattoo rips itself from his arm to deliver a desperate message, Galharrow and a mysterious noblewoman must investigate a long dead sorcerer's legacy. But there is a conspiracy within the citadel: traitors, flesh-eaters and the ghosts of the wastelands seek to destroy them, but if they cannot solve the ancient wizard's paradox, the Deep Kings will walk the earth again, and all will be lost. The war with the Eastern Empire ended in stalemate some eighty years ago, thanks to Nall's 'Engine', a wizard-crafted weapon so powerful even the Deep Kings feared it. The strike of the Engine created the Misery - a wasteland full of ghosts and corrupted magic that now forms a No Mans Land along the frontier. But when Galharrow

investigates a frontier fortress, he discovers complacency bordering on treason: then the walls are stormed, and the Engine fails to launch. Galharrow only escapes because of the preternatural magical power of the noblewoman he was supposed to be protecting. Together, they race to the capital to unmask the traitors and restore the republic's defences. Far across the Misery a vast army is on the move, as the Empire prepares to call the republic's bluff. Blackwing is a gritty epic fantasy for fans of Mark Lawrence, Scott Lynch and Daniel Polansky. Hurt people hurt people. Say there was a novel in  
which Holden Caulfield was an alcoholic and Lolita  
was a photographer's assistant and, somehow, they  
met in Bright Lights, Big City. He's blinded by

an honest, hilarious, and heartrending novel, but  
above all, a very realistic account of what we do  
to each other and what we allow to have done to  
us.
