**Sweet Talk** Philip F. Lawler,1986 Abstract: The media has been reporting on artificial sweeteners since cyclamate was banned nearly 20 years ago. This publication addresses the question of whether or not the media has influenced the debate over the safety of artificial sweeteners (especially aspartame). Media reviewed in this context are the New York Times, The Washington Post, Time, Newsweek, and the three major national television networks. The history of the artificial sweetener controversy including important scientific positions, the role that special interest groups play to minipulate the media, the assessment of accurate reporting, comparing various methods of media reporting the artificial sweetener debate, and the question of quality of media coverage of the artificial sweetener issue over the years, are topics discussed.
