30 of the Weirdest YouTube Videos Jack Goldstein,2017-06-01 YouTube is one website that can truly be considered a ‘game-changer’. Before now, the only people you saw on your screen were the professionals, people paid to say their piece to camera. Then one day everything changed - ANYONE could record a video and share it with the rest of the world. As this model no longer relied on viewing figures, the variety of content available increased exponentially, with people all over the planet filming whatever it was that pleased them, rather than the advertisers. There are some amazing videos to see, the best of which could easily be considered the Citizen Kanes of the 21st century. Then there are those videos which you reach at the end of a click marathon, and even though you don’t know why you’re still watching, you can’t bring yourself to look away. This collection presents you with thirty videos that sit firmly in both categories: the cream of the crop of the weirdest videos on YouTube. Be warned, though... once you have seen these clips, you can never un-see them. They will remain imprinted on your consciousness for evermore, fodder for your strangest dreams and your worst nightmares. Dare you watch them? A link is provided to each video within the list, so you’ll need an online connection and a device capable of playing video to make best use of this book.

Lemonade Liberty Witt’s mama always told her: When life gives you lemons, make lemonade. But Lem can’t possibly make lemonade out of her new life in Willow Creek, California—the Bigfoot Capital of the World—where she’s forced to live with a grandfather she’s never met after her mother passes away. Then she meets eleven-year-old Tobin Sky, the CEO of Bigfoot Detectives Inc., who is the sole Bigfoot investigator for their small town. After he invites Lem to be his assistant for the summer, they set out on an epic adventure to capture a shot of the elusive beast on film. But along the way, Lem and Tobin end up discovering more than they ever could have imagined. And Lem realizes that maybe she can make lemonade out of her new life after all. Melissa Savage's astoundingly good debut novel is packed with humor, mystery, friendship, family secrets, and even Bigfoot! I think you'll love it, too. —Karen Cushman, Newbery Medalist for *The Midwife's Apprentice*

The New Essentials Cookbook America's Test Kitchen, 2018-09-25 Take your cooking skills to the next level while developing a knockout repertoire of 200 essential, satisfying dishes—from simple meals to dinner-party centerpieces We've made improvements to well-loved dishes by incorporating innovative techniques in recipes such as Butter-Basted Rib-Eye Steak and added modern classics such as Vegetable Bibimbap and Olive Oil-Yogurt Bundt Cake. In this book, you'll find the perfect roast chicken and a killer banana bread but also a Turkish-inspired tomato soup, luscious Chinese braised short ribs, and a set of wholesome grain bowls. A chapter on weeknight dinners offers smart paths to great flavor—from Bucatini with Peas, Kale, and Pancetta that cooks in one pot to a pizza that bakes in a skillet—including plenty of vegetarian options. Other chapters turn up the volume on breakfast and dessert standbys; try the 100 Percent Whole-Wheat Pancakes and Brown Sugar Cookies and you may never go back to the regular versions. We'll also help you pull off your next—or even your first!—dinner party with recipes guaranteed to impress (and to work), such as Braised Lamb Shanks with Bell Peppers and Harissa, Miso-Marinaded Salmon, and Roasted Zucchini and Eggplant Lasagna. Most of us—not just newbies—could stand to bone up on certain culinary basics, and our methods may surprise even more experienced cooks, from seeding fresh chiles (we use a measuring spoon) to hulling strawberries (a plastic straw works well). And that's just the tip of the iceberg of what these recipes teach. You'll discover how to “reverse sear” thick pork chops so they turn out juicy all the way through, grind meat in a food processor for the ultimate burger, and shape fresh corn tortillas without a tortilla press or rolling pin. As you progress through this book, you will also gain a deeper understanding of ingredients, better techniques, and the secrets we use in the test kitchen via sidebars called “Think Like a Cook,” which offers insights that can help in your larger culinary life—from picking the perfect avocado to cooking the perfect eggs.

Truth of the Divine Lindsay Ellis, 2021-10-19 USA TODAY BESTSELLER *Truth of the Divine* is the latest alternate-history first-contact novel in the Noumena series from the instant New York Times, Wall Street Journal and Los Angeles Times bestselling author Lindsay Ellis. The human race is at a crossroads; we know that we are not alone, but details about the alien presence on Earth are still being withheld from the public. As the political climate grows more unstable, the world is forced to consider the ramifications of granting human rights to nonhuman persons. How do you define “person” in the first place? Cora Sabino not only serves as the full-time communication intermediary between the alien entity Ampersand and his government chaperones but also shares a mysterious bond with him that is both painful and intimate in ways neither of them could have anticipated. Despite this, Ampersand is still keen on keeping secrets, even from Cora, which backfires on them both when investigative journalist Kaveh Mazandarani, a close colleague of Cora’s unscrupulous estranged father, witnesses far more of Ampersand’s machinations than anyone was meant to see. Since Cora has no choice but to trust Kaveh, the two must work together to prove to a fearful world that intelligent, conscious beings should be considered persons, no matter how horrifying, powerful, or malicious they may seem. Making this case is hard enough when the public doesn’t know what it’s dealing with—and it will only become harder when a mysterious flash illuminates the sky, marking the arrival of an agent of chaos that will light an already-unstable world on fire. With a voice completely her own, Lindsay Ellis deepens her realistic exploration of the reality of a planet faced with the presence of extraterrestrial intelligence, probing the essential questions of humanity and decency, and the boundaries of the human mind. While asking the question of what constitutes a “person,” Ellis also examines what makes a monster.
