Business Ethics K. Praveen Parboteeah, John B. Cullen, 2013-04-12 Business Ethics provides a thorough review and analysis of business ethics issues using several learning tools: Strategic Stakeholder Management as the Theme: All chapters use a strategic stakeholder approach as a unifying theme. The text is thus the first text that adopts this approach. Most business ethics scholars and practitioners agree that successful ethical companies are the ones that can strategically balance the needs of their various stakeholders. By adopting this approach, students will be able to see how the various aspects of business ethics are connected. Theory-based and Application-based: All chapters have important applicable theories integrated with discussion of how such theories apply in practice. Unlike other texts that are either too theoretical or too practical, this text provides the appropriate blend of theory and practice to provide deeper insights into the concepts covered in the chapter. Global Perspective: Unless most other texts, this text provides a global perspective on business ethics. Most chapters include material pertaining to ethics in global contexts. Included are cases about companies in a wide range of countries including Japan, U.K., China and India among many others. Cases: The text contains over 30 real world global cases. Each chapter ends with a short two page case as well as a longer case that varies in length. Each has discussions questions at the end. Finally each of the four parts ends with a Comprehensive Case; proven teaching cases from The Ivey School and other sources.

The Routledge Companion to Urban Regeneration Michael E. Leary, John McCarthy, 2013-10-30 In the past decade, urban regeneration policy makers and practitioners have faced a number of difficult challenges, such as sustainability, budgetary constraints, demands for community involvement and rapid urbanization in the Global South. Urban regeneration remains a high profile and important field of government-led intervention, and policy and practice continue to adapt to the fresh challenges and opportunities of the 21st century, as well as confronting long standing intractable urban problems and dilemmas. This Companion provides cutting edge critical review and synthesis of recent conceptual, policy and practical developments within the field. With contributions from 70 international experts within the field, it explores the meaning of 'urban regeneration' in differing national contexts, asking questions and providing informed discussion and analyses to illuminate how an apparently disparate field of research, policy and practice can be rendered coherent, drawing out common themes and significant differences. The Companion is divided into six sections, exploring: globalization and neo-liberal perspectives on urban regeneration; emerging reconceptualizations of regeneration; public infrastructure and public space; housing and cosmopolitan communities; community centred regeneration; and culture-led regeneration. The concluding chapter considers the future of urban regeneration and proposes a nine-point research agenda. This Companion assembles a diversity of approaches and insights in one comprehensive volume to provide a state of the art review of the field. It is a valuable resource for both advanced undergraduate and postgraduate students in Urban Planning, Built Environment, Urban Studies and Urban Regeneration, as well as academics, practitioners and politicians.

The Last Japanese Soldier Sankei Shimbun Fuji Terebi Tokubetsu Shuzaihan,1972

Ozawa Ichirō and Japanese Politics Aurelia George Mulgan,2014-11-27 Ozawa Ichirō was the axis on which Japanese politics turned for more than two decades. He helped to reshape the electoral system, political funding rules, the evolution of the party system, the nature of executive government, the roles and powers of bureaucrats, and the conduct of parliamentary and policymaking processes. Admired and reviled in almost equal measure, Ozawa has been the most debated and yet least understood politician in Japan, with little agreement to be found amongst the many who have debated his patent political assets and palpable political flaws. This book examines the political goals, behaviour, methods and practices of Ozawa Ichirō, and in doing so, provides fascinating insights into the inner workings of Japanese politics. It explores Ozawa's paradoxical and conflicting contributions in terms of two contrasting models of 'old' and 'new' politics. Indeed, therein lies the problem of understanding the 'real' Ozawa: he remained a practitioner of old politics despite his rhetorical agenda of change to bring about new politics. In seeking to unravel the Ozawa enigma, Aurelia George Mulgan reveals his primary motivations, to establish whether he sought power primarily to enact reforms, or, whether his reform goals simply disguised power-seeking objectives. This volume seeks to illuminate Ozawa's true character as a politician, and untangle the complex elements of old and new politics that he represents. Through an in-depth study of Ozawa and his political activities, this book shows how the Japanese political system works at the micro level of individual politicians, political relationships and systems. As such it will be of huge interest to students and scholars of Japanese politics, Asian politics and political systems.

Japan Viewed from Interdisciplinary Perspectives Yoneyuki Sugita,2015-10-29 Situating itself within contemporary Japan, this edited collection raises questions about globalization, Japan's relationships with other Asian countries, and the continued importance of U.S.–Japan relations. The contributors analyze the historical development of the region and its current situation from a range of interdisciplinary perspectives to answer these questions.

The Encyclopedia of Contemporary Japanese Culture Sandra Buckley,2009 This encyclopedia covers culture from the end of the Imperialist period in 1945 right up to date to reflect the vibrant nature of contemporary Japanese society and culture.

Sovereignty and the Limits of International Law Todd Berry,2023-11-29 The inspiration for this book comes from negotiations that are taking place under the auspices of the United Nations by an intergovernmental conference for a new International Legally Binding Instrument (ILBI) under the United Nations Convention on the Law of the Sea (UNCLOS) on the conservation and sustainable use of marine biological diversity of Areas Beyond National Jurisdiction (ABNJ). The proposed ILBI is attempting to fill existing gaps under international law over marine biodiversity and Marine Genetic Resources (MGR) in ABNJ. One way it is attempting to do this is by having an Access and Benefit-Sharing (ABS) schema over these resources in ABNJ that the United Nations Convention on Biological Diversity (CBD) and its Nagoya Protocol (NP) do not currently cover. These existing frameworks that

regulate genetic resources are grounded in the notion of sovereignty. Effectively, States have sovereign rights over their biological resources. The ILBI, however, is attempting to regulate marine biodiversity and MGR in ABNJ. Thus, the notion that negotiators representing nation States under the auspices of the United Nations can regulate ABNJ is paradoxical – are these areas beyond nation States’ jurisdiction or not? Implicitly, the negotiators are acting as though they have sovereignty over resources located in what has been historically a sovereign-free space. Thus, the purpose of this book is to investigate this paradox. Essentially, this book critiques the notion that ABNJ can actually be regulated under the auspices of the United Nations by nation-State negotiators.

Asia’s Alliance Triangle Gilbert Rozman, 2015-10-07 Drawing together articles from the new online journal The Asan Forum, commissioned from leading experts in the USA, Japan, and South Korea, this book reconsiders what we thought we knew about the three legs of this alliance triangle.

Hate Speech in Japan Yuji Nasu, 2021-01-28 A comprehensive analysis into the background of legal responses to, and wider implications of, hate speech in Japan.

Tourism and Religion Richard Butler, Wantanee Suntikul, 2018-01-30 This book examines both specific issues and more general problems stemming from the interaction of religion, travel and tourism with hospitality and culture, as well as the implications for site management and interpretation. It explores the oldest form of religious tourism – pilgrimage – from its original form to the multiple spiritual and secular variations practised today, along with issues and conflicts arising from the collision of religion, politics and tourism. The volume considers the impact of tourism and tourist numbers on religious features, communities and phenomena, including the deliberate involvement of some religious agencies in tourism. It also addresses the ways in which religious beliefs and philosophies affect the behaviour and perceptions of tourists as well as hosts. The book illustrates how different faiths interact with tourism and the issues of catering for religious tourists of the major faiths, as well as managing the interaction between increasing numbers of secular tourists and pilgrims at religious sites.

Identity, Trust, and Reconciliation in East Asia Kevin P Clements, 2017-10-10 This edited collection explores how East Asia’s painful history continues to haunt the relationships between its countries and peoples. Through a largely social-psychological and constructivist lens, the authors examine the ways in which historical memory and unmet identity needs generates mutual suspicion, xenophobic nationalism and tensions in the bilateral and trilateral relationships within the region. This text not only addresses some of the domestic drivers of Japanese, Chinese and South Korean foreign policy - and the implications of increasingly autocratic rule in all three countries – but also analyses the way in which new security mechanisms and processes advancing trust, confidence and reconciliation can replace those generating mistrust, antagonism and insecurity.

The Japanese LGBTQ+ Community in the World Masami Tamagawa, 2022-12-30 This study of the Japanese LGBTQ+ community sheds light on the intersectionality of lived experiences, including gender, sexuality, family, (mental) health, race and ethnicity, migration, and nationality, offering a picture of a community whose experience is

deeply embedded in the dynamic society around. The Japanese LGBTQ+ Community in the World takes an innovative approach, viewing the community as an integral part of the world in flux, rather than an isolated monoracial and monolingual tight-knit entity. Like the US and many other countries in the world, when the pandemic struck Japan, its citizens were not all equally equipped to withstand it. Due particularly to lingering systemic injustices, including stigma, ostracism from family and society, as well as lack of legal protection of their basic human rights, the pandemic has disproportionately affected the lives of LGBTQ+ individuals and couples in Japan. They face unique challenges within various facets of their lives. Their experiences are an integral part of understanding how this pandemic is affecting a societal response to an already marginalized group of individuals. This important study looks at the issues from a range of perspectives including public health care services, the media and cross-cultural experience. This book is ideal for students and scholars of gender studies, LGBTQ studies, sociology, health, and Asian studies.

Embedded Racism Debito Arudou, 2021-11-26 Revised and updated for this Second Edition, *Embedded Racism* is the product of three decades of work by a scholar living in Japan as a naturalized Japanese citizen. It offers a perspective into how Japan's overlooked racial discrimination not only undermines Japan's economic future but also emboldens white supremacists worldwide.

Discovery Science Klaus P. Jantke, Ayumi Shinohara, 2003-06-30 These are the conference proceedings of the 4th International Conference on Discovery Science (DS 2001). Although discovery is naturally ubiquitous in science, and scientific discovery itself has been subject to scientific investigation for centuries, the term Discovery Science is comparably new. It came up in connection with the Japanese Discovery Science project (cf. Arikawa's invited lecture on The Discovery Science Project in Japan in the present volume) some time during the last few years. Setsuo Arikawa is the father in spirit of the Discovery Science conference series. He led the above mentioned project, and he is currently serving as the chairman of the international steering committee for the Discovery Science conference series. The other members of this board are currently (in alphabetical order) Klaus P. Jantke, Masahiko Sato, Ayumi Shinohara, Carl H. Smith, and Thomas Zeugmann. Colleagues and friends from all over the world took the opportunity of meeting for this conference to celebrate Arikawa's 60th birthday and to pay tribute to his manifold contributions to science, in general, and to Learning Theory and Discovery Science, in particular. Algorithmic Learning Theory (ALT, for short) is another conference series initiated by Setsuo Arikawa in Japan in 1990. In 1994, it amalgamated with the conference series on Analogical and Inductive Inference (AII), when ALT was held outside of Japan for the first time.

Post-Fukushima Activism Azumi Tamura, 2018-06-08 Political disillusionment is widespread in contemporary society. In Japan, the search for the 'outside' of a stagnant reality sometimes leads marginalized young people to a disastrous image of social change. The Fukushima nuclear disaster was the realization of such an image, triggering the largest wave of activism since the 1960s. The disaster revealed the interconnected nature of contemporary society. The protesters regretted that their past indifference to politics prefigured such catastrophe and became

motivated to protest in the streets. They did not share any totalizing ideology or predetermined collective identity. Instead, the activism provided a space for each body to encounter others who forced them to feel and think, which also introduced an ethical dimension to their politics. In this book, Azumi Tamura proposes a concept of politics as a series of endless experiments based on creative responses to unexpected forces. Instead of searching for a transcendental reference for politics, she investigates an immanent force within individuals that motivates them to become involved in political action. Referencing Deleuzian philosophy, Tamura provides a different epistemological and ontological approach to the Social Movement Studies. She suggests social movements themselves generate knowledge about how one may live better in a complex society and where our lives are exposed to uncertainty. This knowledge is neither empirical knowledge, nor normative political theory of 'how we should live.' Instead, social movements bring affective knowledge into politics as they offer a space for experimenting with 'how we might live.' The encounter with such knowledge galvanizes our desire for 'how we want to live' and encourages new experiments.

Japanese-Russian Relations Under Brezhnev and Andropov Hiroshi Kimura, 2016-07-08 This study by the leading Japanese specialist in the field offers a comprehensive analysis of the deterioration of Soviet-Japanese relations in the 1970s and 1980s -- a period when the two countries clashed over issues ranging from military security to fishing rights and their competing claims to the southern Kuriles, Japan's Northern Territories, awarded to Stalin at Yalta.

Identity Change and Foreign Policy Linus Hagstrom, 2015-10-05 Identity has become an explicit focus of International Relations theory in the past two to three decades, with one case attracting and puzzling many early identity scholars: Japan. These constructivist scholars typically ascribed Japan a 'pacifist' or 'antimilitarist' identity – an identity which they believed was constructed through the adherence to 'peaceful norms' and 'antimilitarist culture'. Due to the alleged resilience of such adherences, little change in Japan's identity and its international relations was predicted. However, in recent years, Japan's foreign and security policies have begun to change, in spite of these seemingly stable norms and culture. This book seeks to address these changes through a pioneering engagement with recent developments in identity theory. In particular, most chapters theorize identity as a product of processes of differentiation. Through detailed case analysis, they argue that Japan's identity is produced and reproduced, but also transformed, through the drawing of boundaries between 'self' and 'other'. In particular, they stress the role of emotions and identity entrepreneurs as catalysts for identity change. With the current balance between resilience and change, contributors emphasize that more drastic foreign and security policy transformations might loom just beyond the horizon. This book was originally published as a special issue of *The Pacific Review*.

Strategic Thinking about the Korean Nuclear Crisis G. Rozman, 2011-01-03 China, Japan, Russia, and South Korea have struggled to navigate between the unsettling belligerence of North Korea and the often unilateral insistence of the United States on how to proceed. This book focuses on their strategic thinking and internal debates over

four stages of the crisis.

The Troubled Triangle T. Inoguchi, G. Ikenberry, 2013-05-07 The US, China, and Japan form a 'troubled triangle,' with each country negotiating its foreign policy toward the other two in response to economic and security pressures that operate as an interrelated duality. Written by international relations experts, this book examines how the three countries respond to this set of pressures and to each other.

Four Major Plays of Chikamatsu Monzaemon Chikamatsu, 1998 Chikamatsu's domestic dramas are accurate reflections of Japanese society at the time: his characters are samurai, farmers, merchants, and prostitutes who speak colloquially, and who people the shops, streets, teahouses, and brothels that constituted their daily environment.
