Santa Maria Valley Carina Monica Montoya,2011 Located in the heart of California's central coast, the Santa Maria Valley covers an area of mountains and hills that reaches the Pacific Ocean in Santa Barbara County. The valley's early history dates back to the Portola Expedition, which passed through Santa Maria on the California Mission Trail--called El Camino Real--and ended near Monterey Bay. When early settlers arrived, the valley was dry and desolate. Nearby water sources, however, helped transform the land into one of the most fertile and beautiful valleys in California. The valley became a leader in innovative agriculture transport, a depot on the busiest short-line railroad system in the country, and a training ground for many World War II pilots at its renowned aeronautic college. Today, its landscape of richly colored agricultural fields is framed by rolling hills and scenic miles of grapevines that produce some of the world's most coveted wines. The valley is also famous for its Santa Maria-style barbecue.

Who Gave Pinta to the Santa Maria?: Torrid Diseases in a Temperate World Robert S. Desowitz,1980-01-01 We live in a medical fool's paradise, comforted, believing our sanitized Western world is safe from the microbes and parasites of the tropics. Not so, nor was it ever so. Past--and present--tell us that tropical diseases are as American as the heart attack; yellow fever lived happily for centuries in Philadelphia. Malaria liked it fine in Washington, not to mention in the Carolinas where it took right over. The Ebola virus stopped off in Baltimore, and the Mexican pig tapeworm has settled comfortably among orthodox Jews in Brooklyn. This book starts with the little creatures the first American immigrants brought with them on the long walk from Siberia 50,000 years ago. It moves on to all that unwanted baggage that sailed over with the Spanish, French, and the English and killed native Americans in huge numbers in the sixteenth and seventeenth centuries. (The native Americans, it appears, got some revenge by passing syphilis--including Pinta, a feisty strain of syphilis--back to Europe with Columbus's returning sailors.) Nor have the effects of these diseases on people and economics been fully appreciated. Did slavery last so long because Africans were semi-immune to malaria and yellow fever, while Southern whites of all ranks fell in thousands to those diseases? In the final chapters, Robert S. Desowitz takes us through the Good Works of the twentieth century, Kid Rockefeller and the Battling Hookworm, and the rearrival of malaria; and he offers a glimpse into the future with a host of Doomsday bugs and jet-setting viruses that make life, quite literally, a jungle out there.

Cathedral and Civic Ritual in Late Medieval and Renaissance Florence Marica Tacconi, 2005-12-08 The service books of the Florentine Duomo of Santa Maria del Fiore were, like the church itself, a cultural reflection of the city's position of power and prestige. Largely unexplored by modern scholars, these manuscripts provided the texts and, sometimes, the music necessary for the celebration of the liturgical services. Marica S. Tacconi offers the first comprehensive investigation of the sixty-five extant liturgical manuscripts produced between 1150 and 1526 for both Santa Maria del Fiore and its predecessor, the early cathedral of Santa Reparata. She employs a multidisciplinary approach that recognizes the books as codicological, liturgical, musical, and artistic products. Their cultural contexts, and their civic and propagandistic uses, are uncovered through the analysis of extensive archival material, much of which is presented here for the first time. This important and fascinating study provides new insights into late medieval and Renaissance Florentine ritual and culture.

Santa Maria Romeu Beltrão, 2019-07-24 Relatos do passado de Santa Maria. O pesquisador do passado é qual o coveiro encarregado das exumações vencido o prazo de sepultamento. Alguns restos são atirados à vala comum do esquecimento, em que se misturam as ilusões sempre desiludidas da humanidade em luta com a sobrevivência. Outros merecem a contemplação de um glossário passageiro, que acabará esquecido num sótão, quando não se transformar em carga inútil embaraçante. Uns poucos, pouquíssimos, recebem a consagração de um mausoléu, erguido muitas vezes pela vaidade do dinheiro. Deste quase não cura o historiador, porque na lápide custosa carregam pelo presente, muitas vezes, a mentira condescendente de epitáfios pagos por letra. Seu íntimo prazer reside em ressuscitar os mortos quase esquecidos, aqueles que, pelas suas ações merecem um mausoléu imperecível nas páginas da história, porque foram pioneiros de uma ideia ou de um empreendimento, cujas sementes, por ele espalhadas despretensiosamente, resultaram em frutos preciosos para o presente. Seus restos mortais foram de há muito incorporados ao solo abençoado desta terra, em que as gerações se sucedem em berços embalados

sobre túmulos enquanto suas memórias se reavivam sempre nas próprias renovações da cidade a crescer indiferente aos íntimos anseios dos corações. Sobre o Acampamento do Rincão de Santa Maria ergue-se uma cidade febricitante de progresso e pelas picadas, a custo vencidas pelos demarcadores, deslizam rápidos os veículos automotores. É a civilização em sua marcha inexorável. Romeu Beltrão, 10 de novembro de 1950

Santa Maria Antiqua Eileen Rubery, Giulia Bordi, John Osborne, 2021 The Santa Maria Antiqua Complex in the Forum in Rome was probably established at the foot of the Palatine Hill in the 6th century. Over the following 600 years it was decorated with a unique series of frescoes bearing evidence of imperial, papal and monastic influences. Abandoned in the 9th century, limited use probably continued up to the 11th century. By the 17th century the complex was completely buried under the rising floor of the Forum. Excavations in 1900 exposed a largely intact complex containing hundreds of 6th-11th century frescoes, in some places over four layers deep and a unique Chapel of Medical Saints which suggests this was also an incubation site. The English Press hailed the site as the 'Sistine Chapel of the Ninth century'. Lavish illustrations of these frescoes, following recent restoration, make this book an indispensable resource, not only for those working on the church but also for those interested in contemporaneous material in medieval sites especially in Rome, Europe and Byzantium. This monograph contains the proceedings of an International Conference held at the British School at Rome on 4-6 December, 2013. It reports results of the major project of preservation and research led by the Soprintendenza and carried out over the last 12 years on the fabric of the church, its frescoes, floor, wall and ceiling mosaics, its drainage and infrastructure. Much of the restoration was funded by the World Monuments Fund. The conference also marked the 75th anniversary of the death of Gordon Rushforth, the first Director of the British School at Rome and the author of one of the earliest key papers on the S. Maria Antiqua site.

Daily Life Depicted in the Cantigas de Santa Maria J. E. Keller, A. G. Cash, 1998 The hundreds of illuminated miniatures found in the Cantigas de Santa Maria, sponsored by King Alfonso X (1252--84), reveal many vistas of daily life in thirteenth century Spain. No other source provides such an encyclopedic view of all classes of medieval European society, from kings and popes to the lowest peasants. Men and women are seen farming, hunting, on

pilgrimage, watching bullfights, in gambling dens, making love, tending silkworms, eating, cooking, and writing poetry, to name only a few of the human activities represented here. Combining keen observation of detail with years of exper.

The Skeptics' Guide to the Universe Dr. Steven Novella, 2018-10-02 An all-encompassing guide to skeptical thinking from podcast host and academic neurologist at Yale University School of Medicine Steven Novella and his SGU co-hosts, which Richard Wiseman calls the perfect primer for anyone who wants to separate fact from fiction. It is intimidating to realize that we live in a world overflowing with misinformation, bias, myths, deception, and flawed knowledge. There really are no ultimate authority figures-no one has the secret, and there is no place to look up the definitive answers to our questions (not even Google). Luckily, The Skeptic's Guide to the Universe is your map through this maze of modern life. Here Dr. Steven Novella-along with Bob Novella, Cara Santa Maria, Jay Novella, and Evan Bernstein-will explain the tenets of skeptical thinking and debunk some of the biggest scientific myths, fallacies, and conspiracy theories-from anti-vaccines to homeopathy, UFO sightings to N- rays. You'll learn the difference between science and pseudoscience, essential critical thinking skills, ways to discuss conspiracy theories with that crazy co- worker of yours, and how to combat sloppy reasoning, bad arguments, and superstitious thinking. So are you ready to join them on an epic scientific quest, one that has taken us from huddling in dark caves to setting foot on the moon? (Yes, we really did that.) DON'T PANIC! With The Skeptic's Guide to the Universe, we can do this together. Thorough, informative, and enlightening, The Skeptic's Guide to the Universe inoculates you against the frailties and shortcomings of human cognition. If this book does not become required reading for us all, we may well see modern civilization unravel before our eyes. -- Neil deGrasse Tyson In this age of real and fake information, your ability to reason, to think in scientifically skeptical fashion, is the most important skill you can have. Read The Skeptics' Guide Universe; get better at reasoning. And if this claim about the importance of reason is wrong, The Skeptics' Guide will help you figure

that out, too. -- Bill Nye

Typeset in the Future Dave Addey, 2018-12-11 A designer's deep dive into seven science fiction films, filled with "gloriously esoteric nerdery [and] observations as witty as they are keen" (Wired). In Typeset in the Future, blogger and designer Dave Addey invites sci-fi movie fans on a journey through seven genre-defining classics, discovering how they create compelling visions of the future through typography and design. The book delves deep into 2001: A Space Odyssey, Star Trek: The Motion Picture, Alien, Blade Runner, Total Recall, WALL·E, and Moon, studying the design tricks and inspirations that make each film transcend mere celluloid and become a believable reality. These studies are illustrated by film stills, concept art, type specimens, and ephemera, plus original interviews with Mike Okuda (Star Trek), Paul Verhoeven (Total Recall), and Ralph Eggleston and Craig Foster (Pixar). Typeset in the Future is an obsessively geeky study of how classic sci-fi movies draw us in to their imagined worlds.
