Women's Networks of Spiritual Promotion in the Peninsular Kingdoms (13th-16th Centuries) AA. VV.,2013-09-11T00:00:00+02:00 The starting point for this research is the ascertainment of a major change in the spirituality paradigm of the last centuries of the European Middle Ages, which, since the 13th century, results in a new and final interpretation, focused on pauperistic, evangelical and apostolic ideals, of the religious phenomenon. This symbolic revolution, which completely changed parameters and involved both men and women, entailed an intense urbanisation and feminisation of spirituality. Within that general framework, the pages of this book attempt at investigating the

penetration, evolution and changes of the new forms of female monastic and religious life in a delimited space and time: the kingdoms of the Iberian Peninsula during the period from the 13th to the 16th century, trying to establish the connection between those new spaces of female spirituality and the strategies, wishes and potentialities of the women who promoted their creation, strengthening or reform.

Saints as Intercessors between the Wealthy and the Divine Emily Kelley,Cynthia Turner Camp,2019-04-25 Offering snapshots of mercantile devotion to saints in different regions, this volume is the first to ask explicitly how merchants invoked saints, and why. Despite medieval and modern stereotypes of merchants as godless and avaricious, medieval traders were highly devout – and rightly so. Overseas trade was dangerous, and merchants’ commercial activities were seen as jeopardizing their souls. Merchants turned to saints for protection and succor, identifying those most likely to preserve their goods, families, reputations, and souls. The essays in this collection, written from diverse angles, range across later medieval western Europe, from Spain to Italy to England and the Hanseatic League. They offer a multi-disciplinary examination of the ways that medieval merchants, from petty traders to influential overseas wholesalers, deployed the cults of saints. Three primary themes are addressed: danger, community, and the unity of spiritual and cultural capital. Each of these themes allows the international panel of contributors to demonstrate the significant role of saints in mercantile life. This book is unique in its exploration of saints and commerce, shedding light on the everyday role religion played in medieval life. As such, it will be of keen interest to scholars of religious history, medieval history, art history, and literature.

Del manuscrit a la paraula digital / From Manuscript to Digital Word Manuel Pérez Saldanya, Rafael Roca Ricart, 2018-09-06 This collection, which transports readers from the age of manuscripts to the digital word, is a good demonstration not only of the current vitality of studies of Catalan language and literature, but also of the variety of interests and theoretical approaches and the diversity of origin of Catalan researchers. The studies are focused primarily on three thematic areas: a) culture and language between the fifteenth and eighteenth centuries; b) one hundred years of Catalan literature: 1859-1959; and c) multilingualism and interculturality. The collected studies will prove to make a solid contribution to the unstoppable progress that Catalan philology has been making for decades.
