Chasing Grace Sanya Richards-Ross, 2017-06-06 "For as long as I can remember, life has been measured in seconds. The fewer, the better." Most people equate success with having more, but Sanya's quest was always for less. She started running track as a little girl in Jamaica and began competing when she was only seven. At 31 she's had a career's worth of conditioning to run a 400-meter race in 50 seconds, hopefully 49, or even better, 48. When she started training with her coach, Clyde Hart, they divided her race into four phases: push, pace, position, poise, and with the inherent prayer. For years Sanya worked to hone every phase in practice so that when it came time to race, her body would respond as her mind instinctively transitioned from one phase to the next. As she got older and embraced a life that measures more than just a number on the time clock, she has realized the genius of this strategy for not just racing the 400 meters, but for living her best life. Sanya shares triumphant as well as heartbreaking stories as she reveals her journey to becoming a world-class runner. From her childhood in Jamaica to Athens, Beijing and London Olympics, readers will find themselves inspired by the unique insights she's gained through her victories and losses, including her devastating injury during the 2016 Olympic Trials forcing career retirement just weeks before Rio. Sanya demonstrates how even this devastating loss brought her closer to the ultimate goal of becoming all God created her to be. "Sometimes you think you are chasing a gold medal, but that's not what you are chasing. You're racing to become the best version of yourself."

**Run with Me** Sanya Richards-Ross, 2017-06-06 For as long as four-time Olympic gold medalist Sanya Richards-Ross can remember, life has been measured in seconds—the fewer, the better. The Jamaican-American sprinter has been a star track and field athlete since she first began racing, ranking No. 1 in the world and bringing home Olympic and World Championship accolades. A role model for runners around the world, Sanya's incredible success is matched only by her spirit both on and off the track. From her early days running in Jamaica to her final race, Sanya shares the importance of determination, courage and faith. She uses the 4 Ps—push, pace, position and poise—a model created by her coach, Clyde Hart, to approach and tackle every obstacle. In her book, Sanya reveals how these strategies have helped her and will help kids learn how to run their best race in life. *Run with Me* is Sanya's story—her wins and her losses—chronicling her unique triumphs and trials with fame, family and faith. Written purposely for the 8-12 audience, this book will inspire kids to pursue their dreams at full speed.

**Lubrication Degradation Mechanisms** Sanya Mathura,2020-12-30 In industry, owners, engineers and workers have struggled with lubricant degradation and its effects on their equipment. The purpose of *Lubrication Degradation Mechanisms: A Complete Guide* is to help personnel to understand the reasons behind the degradation of their lubricant, determine methods to identify the onset of degradation and reduce or eliminate lubricant degradation within their equipment. One of the most common forms of lubricant degradation is oxidation. However, this is not the only method by which a lubricant degrades. By understanding the differences between degradation patterns, personnel can employ specific tasks / tests to aid in their identification of the type of degradation and the factors responsible. The aim of this book is to educate facility personnel on the methods of degradation and ways in which it can be reduced or eliminated while keeping an eye on the cost of operation.

A Troubadours Thread Sanya Osha,2013-07-26 This volume powerfully conveys the pilgrimage of a singular spirit through adversity, equanimity, immanence and eventually, transcendence. It grapples with a range of emotions, topics and sensations. Christopher Okigbo achieved similar results but in an entirely different manner. Okigbo's vision is epic in its dimensions while Osha's work is infused with a sustained lyricism, mutedness or even more appropriately, quietude. Osha's poetry unveils a multi-layered journey from artistic infancy to complete aesthetic maturity. Most of this journey dwells upon the poet's inner states in which vast geographical vistas are revealed.

The Hospitality and Tourism Industry in China Jinlin Zhao,2018-06-27 Here is an insightful look into the great changes in the hospitality and tourism industry in China in recent years. The steady growth of the GDP in China, the increasing middle-income population, lifestyle changes of the Chinese people, and fast infrastructure development (speed trains, airports, highways, and seaports, linking many mega cities, mid-level cities, and townships) have all had a significant effect on the Chinese hospitality industry, which is booming in China. With much more money in their pockets, the Chinese are spending more than 60% of their disposable income on food and travel. International food and hotel chains have responded by increasing their presence in China, and in turn, new domestic restaurant and hotel chains have sprung up to compete for the business. With chapters by scholars from various universities in China and the United States, these issues and more are covered in this new volume. Readers will gain a true understanding of the current development of Chinese hospitality and tourism industry.

*Alphabets of Leadership For Young Minds* Odunayo Sanya, 2019-09-14 Why are some people and organisations more innovative, more influential, and more profitable than others? Why do some command greater loyalty than others? Why is it that only a limited number of people truly excel and realize their full potential? Even among the successful, why are so few able to sustain their success and leave a legacy? These are the most fundamental questions everyone should ask, for the essence of a leader is embodied in these questions. The future of our societies, organisations, nations, and the world depend on young people, who are the next generation of leaders. In this erudite work, *Alphabets of Leadership For Young Minds*, the author, Odunayo Sanya, sets the stage to nurture and equip the young ones early on with timeless leadership principles because in today's world that's defined by uncertainty, leadership requires skill-building around traits that are deeply and uniquely human. With deep insight into the dynamics of leadership, Odunayo positions leadership as a skill to be learned, and as a relationship that must be nurtured in young minds to reach their full potential. In her simple, yet profound style, she describes these leadership traits using the relatable letters of the alphabet punctuated with inspiring stories that resonate, and provides a template to inspire, motivate and develop future leaders. *Alphabets of Leadership For Young Minds* is an invaluable piece for young people and those committed to building leadership skills in the young ones they care about.

**Naked Light and the Blind Eye** Osha, Sanya, 2017-05-01 At the end of his tether, Solomon Wenku contemplates a life gone awry amid widespread postcolonial squalor. Tani enters his life supposedly as a contrast to his encroaching existential gloom only to speed up the pace of his total collapse. Sanya Osha's cult novel beams a searchlight on what it feels like to survive personally and collectively in unyielding tropical malaise. This web of a narrative pits the rural versus the urban, tradition against

modernity with a gallery of immortal characters and with a yearning that sings lushly of freedom.

**Selected Works 2010-2024** Sanya Kantarovsky, 2024-10-01 An arresting and visually rich monograph of the work of contemporary artist Sanya Kantarovsky. Forlorn and spiritually bankrupt, tender or abject—the subjects in the figurative paintings of Sanya Kantarovsky (b. 1982) convey an uneasy, dark humor. They seem trapped in a precarious inner monologue, or under the spell of mundane lived experience. A Solid House, developed in conjunction with Kantarovsky's exhibition A Solid House at the Aspen Art Museum, includes more than 200 full-color image plates and spans the artist's oeuvre, focusing on his most recent output following his previous monograph, No Joke (2014). The publication also includes a conversation between Kantarovsky and art historian Isabelle Graw, as well as essays by the psychoanalyst and writer Jamieson Webster and art historian George Baker.

**Hospital** Sanya Rushdi, 2023-06-05 A strong and courageous novel that deftly tackles psychosis. In Melbourne, Australia, a woman in her late thirties is diagnosed with her third episode of psychosis, amounting to schizophrenia. What follows is a frenzied journey from home to a community house to hospital and out again. Sanya, the protagonist, finds herself questioning the diagnosis of her sanity or insanity, as determined and defined by a medical model which seems less than convincing to her. Having studied psychology herself, she wonders whether, even if the diagnosis is correct to some extent, the treatment should be different. Sanya tells her story in a deceptively calm, first-person voice, using conversations as the primary narrative mode, as she ponders if and when the next psychotic episode will materialize. Based on real-life events and originally written in Bengali, Hospital is a daring first novel that unflinchingly depicts the precarity of a woman living with psychosis and her struggles with the definition of sanity in our society.
