Lina Bo Bardi José Esparza Chong Cuy,2020-03-13 From furniture and exhibition design to monumental domestic and public architectural projects, the breadth of Lina Bo Bardi's multidisciplinary work is showcased in this richly illustrated book. Lina Bo Bardi is regarded as one of the most important architects in Brazil's history. Beginning her career as a Modernist architect in Rome, Bo Bardi and her husband emigrated to Brazil following the end of WWII. Bo Bardi quickly resumed her practice in her

adopted homeland with architecture that was both modern and firmly rooted in the culture of Brazil. In 1951 she designed Casa de Vidro (Glass House), her first built work, where she and her husband would live for the rest of their lives. She also designed the Museu de Arte de São Paulo (São Paulo Art Museum), a landmark of Latin American modernist architecture which opened in 1968. It was for this museum she created the iconic glass easel display system, which remains radical to date. This book presents a comprehensive record of Bo Bardi's overarching approach to art and architecture and shows how her exhibition designs, curatorial projects, and writing informed her spatial designs. Essays on Bo Bardi's life and work accompany archival material such as design sketches and writings by the artist, giving new insight into the conceptual and material processes behind this radical thinker and creator's projects. Published with MASP, Museo Jumex, and Museum of Contemporary Art Chicago

The Art Museum in Modern Times Charles Saumarez Smith, 2021-04-13 A compelling examination of the art museum from a renowned director, this sweeping book explores how architecture, vision, and funding have transformed art museums around the world over the past eighty years. How have art museums changed in the past century? Where are they headed in the future? Charles Saumarez Smith is uniquely qualified to answer these questions, having been at the helm of three major institutions over the course of his distinguished career. For *The Art Museum in Modern Times*, Saumarez Smith has undertaken an odyssey, visiting art museums across the globe and examining how the experience of art is shaped by the buildings that house it. His story starts with the Museum of Modern Art in New York, one of the first museums to focus squarely on the art of the present rather than the past. When it opened in 1939, MoMA's boldly modernist building represented a stark riposte to the neoclassicism of most earlier art museums. From there, Saumarez Smith investigates dozens of other museums, including the Tate

Modern in London, the Getty Center in Los Angeles, the West Bund Museum in Shanghai, and the Centre Pompidou in Paris. He explores our shifting reasons for visiting museums, changes to the way exhibits are organized and displayed, and the spectacular new architectural landmarks that have become destinations in their own right. Global in scope yet full of personal insight, this fully illustrated celebration of the modern art museum will appeal to art lovers, museum professionals, and museum goers alike.

Tarsila Do Amaral Stephanie D'Alessandro, Luis Pérez Oramas, 2017-01-01 An exploration of the innovative, quintessentially Brazilian painter who merged modernism with the brilliant energy and culture of her homeland Tarsila do Amaral (1886-1973) was a central figure at the genesis of modern art in her native Brazil, and her influence reverberates throughout 20th- and 21st-century art. Although relatively little-known outside Latin America, her work deserves to be understood and admired by a wide contemporary audience. This publication establishes her rich background in European modernism, which included associations in Paris with artists Fernand Léger and Constantin Brancusi, dealer Ambroise Vollard, and poet Blaise Cendrars. Tarsila (as she is known affectionately in Brazil) synthesized avant-garde aesthetics with Brazilian subjects, creating stylized, exaggerated figures and landscapes inspired by her native country that were powerful emblems of the Brazilian modernist project known as Antropofagia. Featuring a selection of Tarsila's major paintings, this important volume conveys her vital role in the emerging modern-art scene of Brazil, the community of artists and writers (including poets Oswald de Andrade and Mário de Andrade) with whom she explored and developed a Brazilian modernism, and how she was subsequently embraced as a national cultural icon. At the same time, an analysis of Tarsila's legacy questions traditional perceptions of the 20th-century art world and asserts the significant role that Tarsila and others in Latin America had in shaping the global

trajectory of modernism.

Afro-Atlantic Histories Adriano Pedrosa, Tomás Toledo, 2021-10 A colossal, panoramic, much-needed appraisal of the visual cultures of Afro-Atlantic territories across six centuries *Afro-Atlantic Histories* brings together a selection of more than 400 works and documents by more than 200 artists from the 16th to the 21st centuries that express and analyze the ebbs and flows between Africa, the Americas, the Caribbean and Europe. The book is motivated by the desire and need to draw parallels, frictions and dialogues around the visual cultures of Afro-Atlantic territories--their experiences, creations, worshiping and philosophy. The so-called Black Atlantic, to use the term coined by Paul Gilroy, is geography lacking precise borders, a fluid field where African experiences invade and occupy other nations, territories and cultures. The plural and polyphonic quality of *histórias* is also of note; unlike the English histories, the word in Portuguese carries a double meaning that encompasses both fiction and nonfiction, personal, political, economic and cultural, as well as mythological narratives. The book features more than 400 works from Africa, the Americas and the Caribbean, as well as Europe, from the 16th to the 21st century. These are organized in eight thematic groupings: Maps and Margins; Emancipations; Everyday Lives; Rites and Rhythms; Routes and Trances; Portraits; Afro Atlantic Modernisms; Resistances and Activism. Artists include: Nina Chanel Abney, Emma Amos, Benny Andrews, Emanuel Araújo, Maria Auxiliadora, Romare Bearden, John Biggers, Paul Cézanne, Victoria Santa Cruz, Beauford Delaney, Aaron Douglas, Melvin Edwards, Ibrahim El-Salahi, Ben Enwonwu, Ellen Gallagher, Theodore Géricault, Barkley Hendricks, William Henry Jones, Loïs Mailou Jones, Titus Kaphar, Wifredo Lam, Norman Lewis, Ibrahim Mahama, Edna Manley, Archibald Motley, Abdias Nascimento, Gilberto de la Nuez, Toyin Ojih Odutola, Dalton Paula, Rosana Paulino, Howardena Pindell, Heitor dos Prazeres, Joshua Reynolds, Faith Ringgold, Gerard

Sekoto, Alma Thomas, Hank Willis Thomas, Rubem Valentim, Kara Walker and Lynette Yiadom-Boakye.

Subtle Substances Olivia de Oliveira, 2006

br” Prêmio Instituto de Arquitetos do Brasil: melhor livro de 2006 Finalist Pevsner Prize of The Royal Institute of British Architects > Finalist Prêmio Jabuti: best art and architecture book

Lina Bo Bardi, the Rome-born architect, emigrated after World War Two to Brazil, a country where she undertook her professional career. The outcome of her personal experience and of a wish to get closer to the culture and ways of life of the people, Bo Bardi's creativity moved in the direction of an architecture that prized simplicity, spontaneity, the residual and the ephemeral; an architecture understood as 'an organism suitable for life' which incorporated everydayness and the energy of the people who use it. As a result she used the word 'substances', rather than 'materials', to explain what her architecture was made of. These substances are air, light, nature and art, to which the author, Olivia de Oliveira, adds time. The work of Lina Bo Bardi, then, is presented here via a huge array of previously unpublished drawings, images, writings and projects that enable the reader to grasp in a kaleidoscopic way the power and current importance of her architecture as a critical confrontation with established reality.

When Brains Meet Buildings Michael A. Arbib, 2021-08-11 After decades of research on minds and brains and a decade of conversations with architects, Michael Arbib presents *When Brains Meet Buildings* as an invitation to the science behind

architecture, richly illustrated with buildings both famous and domestic. As he converses with the reader, he presents action-oriented perception, memory, and imagination as well as atmosphere, aesthetics, and emotion as keys to analyzing the experience and design of architecture. He also explores what it might mean for buildings to have brains and illuminates all this with an appreciation of the biological and cultural evolution that supports the diverse modes of human living that we know today. These conversations will not only raise the level of interaction between architecture and neuroscience but, by explaining the world of each group to the other, will also engage all readers who share a fascination with both the brains within them and the buildings around them. Michael Arbib is a pioneer in the interdisciplinary study of computers and brains and has long studied brain mechanisms underlying the visual control of action. His expertise makes him a unique authority on the intersection of architecture and neuroscience.
