Latin Sermon Collections from Later Medieval England Siegfried Wenzel, 2005-02-17 Until the Reformation, almost all sermons were written down in Latin. This is the first scholarly study systematically to describe and analyse the collections of Latin sermons from the golden age of medieval preaching in England, the fourteenth and fifteenth centuries. Basing his studies on the extant manuscripts, Siegfried Wenzel analyses these sermons and the occasions when they were given. Larger issues of preaching in the later Middle Ages such as the pastoral concern about preaching, originality in sermon making, and the attitudes of orthodox preachers to Lollardy, receive detailed attention. The surviving sermons and their collections are listed for the first time in full inventories, which supplement the critical and contextual material Wenzel presents. This book is an important contribution to the study of medieval preaching, and will be essential for scholars of late medieval literature, history and religious thought.

Speculum Sermonis Georgiana Donavin, Cary J. Nederman, Richard J. Utz, 2004 The medieval sermon provides the focus for the first volume of *Disputatio* because it often expresses the concerns of various intellectual milieux, such as the university, Church or court, and attempts to convey those concerns to other parts of medieval society. *Speculum Sermonis* is an anthology of essays about medieval sermons in the Christian East and West. It aims to reveal precisely how sermons inform different disciplines (for instance, social and Church history, literature, musicology) and how the methodologies of different disciplines inform sermons. Sermons can, for instance, provide evidence for a reconstruction of medieval liturgy; reciprocally, the field of liturgiology investigates sermons as one aspect of Church performance. The volume's title image of the mirror and the reference to medieval specula convey the idea of multiple reflections: the sermons' on culture and the disciplines'

on sermons. Because the contributors to *Speculum Sermonis* come from a variety of fields, the essays here collectively provide a rich historical and contemporary academic context for reading the medieval sermon. In addition to essays from across the fields, a number of which establish conclusions transcending disciplinary boundaries, *Speculum Sermonis* includes an introduction defending interdisciplinary study of sermons and an authoritative bibliography covering both primary and secondary resources for medieval sermons. A unique feature of the volume is the inclusion of response papers to the essays in each of the sections, in the spirit of the book series title *Disputatio*.

Orality and Literacy in the Middle Ages Dennis Howard Green, 2005 The most important part of the title of this book is the word 'and'. These words form the memorable conclusion to D.H. Green's study *Medieval Listening and Reading*; they encapsulate how, in the Middle Ages, orality and literacy are not to be considered as two separate and largely unrelated cultures or modes of textual transmission, but as elements in a mutual interplay and interpenetration. In this volume, scholars from Britain, Germany and North America follow Green's insistence on the conjunction of medieval orality and literacy, and show how this approach can open up new areas for investigation as well as help to reformulate old problems. The languages and literatures covered include English, Latin, French, Occitan and German, and the essays span the whole of the period from the early Middle Ages through to the fifteenth century.

Autobiography of Emperor Charles IV and his Legend of St Wenceslas Balázs Nagy, 2001-10-02 One of the few autobiographies to have survived from the Middle Ages, this life history of one of the most influential rulers of the fourteenth century, Charles IV of Bohemia, covers his life from birth until his election as King of Germany in 1346. Charles IV describes his childhood, spent mainly in the

court of French kings, his juvenile years, his marriage and his first steps into the international political scene during the early part of the fourteenth century. A unique addition to this volume is the first ever English translation of the Legend of Saint Wenceslas, written by Charles IV of Luxemburg. This is the first autobiography to contain both the Latin narrative sources and a complete English-language translation.

The Cult of the Saints Peter Brown, 2014-11-12 A new edition of the “brilliantly original and highly sophisticated” study of saint worship after the fall of the Roman Empire (Library Journal). In this groundbreaking work, Peter Brown explores how the worship of saints and their corporeal remains became central to religious life in Western Europe after the fall of the Roman Empire. During this period, earthly remnants served as a heavenly connection, and their veneration is a fascinating window into the cultural mood of a region in transition. Brown challenges the long-held two-tier idea of religion that separated the religious practices of the sophisticated elites from those of the superstitious masses, instead arguing that the cult of the saints crossed boundaries and played a dynamic part in both the Christian faith and the larger world of late antiquity. He shows how men and women living in harsh and sometimes barbaric times relied upon the holy dead to obtain justice, forgiveness, and power, and how a single sainted hair could inspire great thinkers and great artists. An essential text by one of the foremost scholars of European history, this expanded edition includes a new preface from Brown, which presents new ideas based on subsequent scholarship. “Informative...demonstrates once again Brown’s genius for sharing with his readers the fruits of not only his own painstaking and meticulous scholarship but also his penetrating understanding of the evolution of Western culture as a whole.”—Religious Studies

Courts and Regions in Medieval Europe Sarah Rees Jones, Richard Marks, Alastair J.

Minnis,2000 Studies draw on history, archaeology, art history and literature to examine the phenomenon of the court and its relationship with outlying and distant areas.

Treasure in the Medieval West Elizabeth M. Tyler,2000 Studies highlight the importance of treasure, real and metaphorical, in medieval culture.

Prague Metropolitan Museum of Art (New York, N.Y.),2005 This catalogue accompanies the Fall 2005 exhibition that celebrates the flowering of art in medieval Prague, when the city became not only an imperial but also an intellectual and artistic capital of Europe. Scholars trace the distinctly Bohemian art that developed during the reigns of Holy Roman Emperor Charles IV and his sons; the artistic achievements of master craftsmen; and the rebuilding of Prague Castle and of Saint Vitus' Cathedral. -- Metropolitan Museum of Art website.

Medieval Hagiography Thomas Head,2018-10-24 This collection presents-through the medium of translated sources-a comprehensive guide to the development of hagiography and the cult of the saints in western Christendom during the middle ages. It provides an unparalleled resource for the study of the ideals of sanctity and the practice of religion in the medieval west. Intended for the classroom, for the medieval scholar who wishes to explore sources in unfamiliar languages, and for the general reader fascinated by the saints, this collection provides the reader a chance to explore in depth a full range of writings about the saints (the term hagiography is derived from Greek roots: hagios=holy and graphe=writing). The thirty-six chapters contain sources either in their entirety or in selections of substantial length. The great majority of the texts have never previously appeared in English translation. Those which have appeared in earlier translation, are here presented in versions based on significant new textual and historical scholarship which makes them significant

improvements on the earlier versions. All the translations are accompanied by introductions, notes, and suggestions for further reading in order to help guide the reader. The first selections date to the fourth century, when the ideals of Christian sanctity were evolving to meet the demands of a world in which Christianity was an accepted religion and when the public veneration of relics was growing greatly in scope. The last selections date to the period immediately prior to the Reformation, a period in which the traditional concept of sanctity and acceptability of de cult of relics was being questioned. In addition to numerous works from the clerical languages of Latin and Greek, the selections include translations from Romance, Celtic, Germanic, and Slavic vernacular languages, as well as Hebrew texts concerning the martyrdom of Jews at the hands of Christians. Originating in lands from Iceland to Hungary and from the Baltic to the Mediterranean, they are taken from a full range of the many genres which constituted hagiography: lives of the saints, collections of miracle stories, accounts of the discovery or movement of relics, liturgical books, visions, canonization inquests, and even heresy trials.

Court Chapels of the High and Late Middle Ages and Their Artistic Decoration Jiří Fajt, 2003

The Book of Pontiffs (Liber Pontificalis) Raymond Davis, 2010 No complete translation of the Latin text of the Book of Pontiffs--the Liber Pontificalis of the Roman Church--exists in any language, though the work is indispensable to students of late antiquity and the early middle ages; this book provides an English version of the first ninety papal biographies, from St Peter down to AD 715. These lives were first compiled in the sixth century and then regularly brought up to date. In them the reader will find the curious mixture of fact and legend which had come by the Ostrogothic period to be accepted as history by the Church in Rome, and also the subsequent records maintained through to the early eighth century while Rome was under Byzantine sovereignty. In no sense was

the Liber Pontificalis an 'official' chronicle of these centuries, and there emerge throughout the interests and prejudices of compilers who belonged, it seems, to the lower levels of the papal administration. For this new edition the translation has been carefully emended, and in places the underlying text has been reconsidered. Vignoli section numbers have been added, as in the translator's later volumes of the Liber Pontificalis (ttH 13 and 20). The translation has been reset to distinguish more clearly the status and value of additions to the standard Liber Pontificalis text by the use of different type. There have been revisions and extensions to both the glossary and the bibliography, and material has been added to Appendix 3.
