Stalking the Blue-Eyed Scallop Euell Gibbons, 2020-04-01 This foraging and cooking classic was first published in 1964 and has continued to be one of America's most appreciated works on the subject of seafood. As a young man, Euell Gibbons kept his family alive during the Dust Bowl era by gathering wild foods. In later years he foraged for seafood all over the coastlines of North America and even Hawaii. He drew on his extensive experience and research to write his "Stalking" series, books which have entered the American lexicon and which remain the starting point for serious foragers. Euell Gibbons tells how to find marvelous food in every coastal area of North America. This book contains numerous drawings for identification and hundreds of recipes and cooking tips from chowders and clambakes to simple epicurean treats such as boiled periwinkles dipped in melted butter.

The Ramsay Scallop Frances Temple,1995-09-01 The year is 1299. Fourteen year-old Elenor reluctantly awaits the return of her betrothed -- a man she hardly knows -- from the Crusade. Thomas, broken and disillusioned from years of fighting, finds the very idea of marriage and lordship overwhelming. So When the village priest sends them on religious pilgrimage before the marriage, both are relieved. The journey means a postponement of the dreaded nuptials, and a last chance for adventure. As Eleanor and thomas wend their way toward the shrine of St. James, they meet mant other pilgrims -- each with their own extraordinary tales to tell and ideas to share. There is Etienne, a passionate student of philosophy; Brother Ambrose, gentle teacher of Sschoolboys; practical Marthe, eager for a decent life for her children. And graually Eleanor and Thomas come to realize the glorious possibilities of the world around them... within each other.
