Greyhound Scenicruiser Tom McNally, Fred Rayman, 2013-03-01 When we deem things iconic, they have naturally become part of history and have earned a permanent status of importance to us—one such object is a particular intercity coach, the Greyhound PD-4501 Scenicruiser bus, built by the GM Corporation during 1954-‘56. After nearly 60 years, its popularity, even today, is almost cult-like. Throughout the history of intercity coaches in the U.S., there have not been more toys, advertising pieces, souvenirs, or memorabilia centered on any other bus. The Scenicruiser starred in several movies, was featured on record album covers, and appeared on endless TV shows through the years. Starting with prototypes, this book covers all the various models of the Scenicruiser’s heritage, and even highlights many of the restored and still operating legends today.

Scenicruising Paul Von Fange, 2015-08-03 BUSES magazine This is truly an extraordinary history ... authoritative, painstakingly researched and highly readable... Paul von Fange tells this and much more in this masterpiece, which is one of the best-researched and written bus books ever to cross the editorial desk. You do not need to have a prior interest in American buses to enjoy it, but if you do, you will find it especially irresistible. BUS RIDER magazine Paul von Fange writes the book on Scenicruisers ... [it] is a phenomenal research effort ... [a] must read ... Bill Luke ... took honor in providing the foreword, commending von Fange for his penchant for detail in providing the most complete and accurate history on one of the most iconic vehicles the industry has ever seen. From Raymond Loewy's original design to the radically modified GX-2 until the 1954 production of the PD-4501, the Greyhound Scenicruiser has been an American icon and remains so to this day, especially in the hearts and minds of those who keep them going. This is that story.

A Confederacy of Dunces John Kennedy Toole, 2007-12-01 Winner of the Pulitzer Prize “A masterwork . . . the novel astonishes with its inventiveness . . . it is nothing less than a grand comic fugue.”—The New York Times Book Review A Confederacy of Dunces is an American comic masterpiece. John Kennedy Toole's hero, one Ignatius J. Reilly, is huge, obese, fractious, fastidious, a latter-day Gargantua, a Don Quixote of the French Quarter. His story bursts with wholly original characters, denizens of New Orleans' lower depths, incredibly true-to-life dialogue, and the zaniest series of high and low comic adventures (Henry Kisor, Chicago Sun-Times).

Mobile Mansions Douglas Keister, 2006 What do Henry Ford, Thomas Edison, Mae West, Howard Hughes, John Madden, the Partridge Family, Ken Kesey, The Who, and Barbie have in common? Each had a home on wheels—be it an old converted school bus, a massive RV cruiser, or elegant house car. These celebrity motorhomes are only the frosting on the cake in Douglas Keister's entertaining and informative new book Mobile Mansions. From the eclectic to the exquisite, the luxurious to the rare, Keister's incredible photography showcases the history and diversity of some of the most historic and lovingly restored RVs on the road today. Keister documents an amazing range of vehicles, including small camp cars from the 1920s, house cars from the 1930s, campers from the 1950s and finally modern-day motorhomes that first emerged in the 1960s. Well-known brands like Winnebago, GMC, and Travco are featured as well as one-of-a-kind vehicles like the Lamsteed Kampcar, built by Anheuser Busch, the Zeppelin House Car, and Buckminster Fuller's Dymaxion car. Step inside a wide variety of motorhomes, from diminutive camp cars to diesel-belching, lumbering leviathans complete with saunas, balconies, and gourmet kitchens. Mobile Mansions details this fascinating chapter of America's history with lively text, luscious full color photographs, rare vintage photographs and offers a concise history of the recreational vehicle.

Hounds of the Road Carlton Jackson, 1984 The bus system that came to be known as the Greyhound Bus Company was founded by Carl Eric Wickman, an enterprising Swede of Hibbing, Minnesota. The first bus was a seven-passenger Hupmobile touring car that was used to transport miners across the Mesaba Iron Range to and from work. Wickman was soon joined by another Swede, Andrew Anderson, and they began operating in earnest the route from a saloon in Hibbing to the fire-hall in Alice. From this lowly beginning grew the Greyhound Corporation, a multi-million dollar company which, through the years, has owned everything from a chain of hamburger restaurants to a soap company.

Streamliner John Wall, 2018-08-15 The true story of Raymond Loewy, whose designs are still celebrated for their unerring ability to advance American consumer taste. Born in Paris in 1893 and trained as an engineer, Raymond Loewy revolutionized twentieth-century American industrial design. Combining salesmanship and media savvy, he created bright, smooth, and colorful logos for major corporations that included Greyhound, Exxon, and Nabisco. His designs for Studebaker automobiles, Sears Coldspot refrigerators, Lucky Strike cigarette packs, and Pennsylvania Railroad locomotives are iconic. Beyond his timeless designs, Loewy carefully built an international reputation through the assiduous courting of journalists and tastemakers to become the face of both a new profession and a consumer-driven vision of the American dream. In *Streamliner*, John Wall traces the evolution of an industry through the lens of Loewy's eclectic life, distinctive work, and invented persona. How, he asks, did Loewy build a business while transforming himself into a national brand a half century before branding became relevant? Placing Loewy in context with the emerging consumer culture of the latter half of the twentieth century, Wall explores how his approach to business complemented—or differed from—that of his well-known contemporaries, including industrial designers Henry Dreyfuss, Walter Teague, and Norman Bel Geddes. Wall also reveals how Loewy tailored his lifestyle to cement the image of designer in the public imagination and why the self-promotion that drove Loewy to the top of his profession began to work against him at the end of his career. *Streamliner* is an important and engaging work on one of the longest-lived careers in industrial design.

General Motors Michael W. R. Davis, 1999 The General Motors Corporation was established in 1908 by William C. Durant, who combined the Buick, Oldsmobile, and Oakland companies and, later, Cadillac, to form GM. From the 1920s onwards, GM grew from a firm that accounted for about 10% of new car sales in the U.S. to become the largest producer of cars and trucks in the world. The peak of the company's power and market dominance came in the 1960s, which proved to be the decade of change for the U.S. auto industry. With the introduction of federal safety regulations and control tailpipe emissions, GM's position as the world's largest industrial corporation changed. Its marketing strategy was undone by competitive challenges, and the business was never to be the same again. *General Motors: A Photographic History* explores the growth of the company in a series of over 200 black-and-white images.

From the first assembly line to post-Second World War recovery, images from the world auto shows and the consequent re-organization of GM take the reader on an intriguing visual tour of a tremendously important era in the industrialization of America.

Luke compiles ten dozen fascinating photographs depicting the great variety of buses the company has used from its beginning in 1914 to present. In addition to standard models from the Big Gray Dog's fleet there are examples of experimental models, unusual types operated at the 1933 Chicago World's Fair and the 1940 New York World's Fair, and timetables and sales brochures.

Artistry of the Mentally Ill H. Prinzhorn,2013-11-11 No one is more conscious of the faults of this work than the author. Therefore some self - criticism should be woven into this foreward. There are two possible methodologically pure solutions to this book's theme: a descriptive catalog of the pictures couched in the language of natural science and accompanied by a clinical and psychopathological description of the patients, or a completely metaphysically based investigation of the process of pictorial composition. According to the latter, these unusual works, explained psychologically, and the exceptional circumstances on which they are based would be integrated as a playful variation of human expression into a total picture of the ego under the concept of an inborn creative urge, behind which we would then only have to discover a universal need for expression as an instinctive foundation. In brief, such an investigation would remain in the realm of phenomenologically observed existential forms, completely independent of psychiatry and aesthetics. The compromise between these two pure solutions must necessarily be piecemeal and must constantly defend itself against the dangers of fragmentation. We are in danger of being satisfied with pure description, the novelistic expansion of details and

questions of principle; pitfalls would be very easy to avoid if we had the use of a clearly outlined method. But the problems of a new, or at least never seriously worked, field defy the methodology of every established subject.
