

Scharnhorst

Albert Vulliez, Jacques Mordal

North Cape 1943 Angus Konstam, 2020-11-26 The German battleship Scharnhorst had a reputation for being a lucky ship. Early in the war she fought off a British battlecruiser and sunk a carrier, before carrying out two successful forays into the Atlantic. In the spring of 1943, the Scharnhorst was redeployed to Norway. There, working in concert with other German warships such as the battleship Tirpitz, she posed a major threat to the Arctic convoys – the Allied sea lifeline to Russia. Her presence, alongside Tirpitz, forced the British to tie down ships in Arctic waters. When Tirpitz was put out of action, and Hitler demanded naval support for the war in Russia, the crew of the Scharnhorst under Rear-Admiral Bey, had to act. In late December 1943, she put to sea, her target an Allied convoy passing through the Barents Sea on its way to Murmansk. Unknown to Bey, the British were using the convoy as bait to draw the Scharnhorst into battle. What followed was a two-day running battle fought in rough seas and near-perpetual darkness, ending with the destruction of the Scharnhorst and all but 36 of her crew, ending any serious German naval threat to the Arctic convoy lifeline. In this illustrated study, leading naval historian Angus Konstam offers a fascinating new insight into this key engagement. He combines expert analysis with his unique knack for storytelling to offer a fascinating new perspective on the battle which sank the Scharnhorst.

Battleships of the Scharnhorst Class Gerhard Koop, Klaus-Peter Schmolke, 2014-07-22 In this WWII naval history, an expert in German warship design examines the legendary battlecruisers Scharnhorst and Gneisenau. This concise yet authoritative summary of Scharnhorst class vessels covers the design history and careers of these WWII-era warships. Much like its companion volume, Battleships of the Bismark Class, it offers a detailed description of both ships with full technical details. The author also provides an outline of their combat service, heavily illustrated with plans, battle maps, and a substantial collection of photographs. The Scharnhorst and Gneisenau were the product of a long and complicated design process. Combining speed and power, these two battleships took part in a number of major operations, including the infamous 'Channel Dash'.

The Battleship Scharnhorst Stefan Draminski, 2021-01-21 The Kriegsmarine's Scharnhorst was a German capital ship, described either as a battleship or battlecruiser, and the lead ship of her class, which included one other ship, Gneisenau. She was launched on 3 October 1936 and completed in January 1939, armed with nine 28cm C/34 guns in three triple turrets. She operated with Gneisenau for much of the early portion of World War II, including sorties into the Atlantic to raid British merchant shipping. They took part in Operation Weserübung (April–June 1940), the German invasion of Norway, during which they sank the aircraft carrier HMS Glorious and her escort destroyers Acasta and Ardent. Scharnhorst also sank HMS Rawalpindi in November 1939. In early 1943, Scharnhorst joined the Tirpitz in Norway to intercept Allied convoys to the Soviet Union. On a sortie from Norway to attack a convoy, the German force was intercepted by British ships and during the Battle of the North Cape (26 December 1943), HMS Duke of York and her escorts sank Scharnhorst. Most of her crew was lost. This is the most comprehensive examination of Scharnhorst ever published, drawing on new research and technology to tell the full story of the ship. It includes

a complete set of detailed line drawings with fully descriptive keys and full-colour 3D artwork, supported by technical details, photographs, and text on the building of the ship, as well as a record of her service history.

Scharnhorst and Gneisenau Steve Backer, 2012-08-30 A history of the service careers and advice on making models of "perhaps the most successful of the German battleships of the Second World War" (History of War). The ShipCraft series provides in-depth information about building and modifying model kits of famous warship types. Lavishly illustrated, each book takes the modeler through a brief history of the subject class, highlighting differences between sister-ships and changes in their appearance over their careers. This includes paint schemes and camouflage, featuring color profiles and highly-detailed line drawings and scale planes. The modeling section reviews the strengths and weaknesses of available kits, lists commercial accessory sets for super-detailing of the ships, and provides hints on modifying and improving the basic kit. This is followed by an extensive photographic gallery of selected high-quality models in a variety of scales, and the book concludes with a section on research reference books, monographs, large-scale plans and relevant websites. The two German ships which form the subject of this volume were among the first products of rearmament under Hitler. For political reasons they were neither as large nor as well armed as foreign equivalents, but they were very fast, which led them to be described as battlecruisers in some quarters. They enjoyed an adventurous war, both surviving heavy damage, before Scharnhorst was sunk in an epic gun battle off the North Cape, while Gneisenau succumbed to heavy air attack. "For both vessels, the book gives details of modifications carried out, while a wealth of clear and detailed photographs and line drawings illustrate the ships themselves, as well as items of equipment." –Ships Monthly

Battleship Scharnhorst Gerhard Koop, 1998

The Battle of North Cape Angus Konstam, 2009-06-25 "The hunting down and sinking of the magnificent German battle cruiser Scharnhorst was one of the epic actions of World War II . . . stirring" (Work Boat). On December 25, 1943, the German battle cruiser Scharnhorst slipped out of Altenfjord in Norway to attack Arctic convoy JW55B which was carrying vital war supplies to the Soviet Union. But British naval intelligence knew of the Scharnhorst's mission before she sailed, and the vulnerable convoy was protected by a large Royal Naval force including the battleship Duke of York. In effect the Scharnhorst was sailing into a trap. One of the most compelling naval dramas of the Second World War had begun. "Angus Konstam's gripping account tells the story of this crucial but under-studied naval battle, and explains why the hopes of the German Kriegsmarine went down with their last great ship; only 37 of the German battle cruiser's 1700 crew were saved." –The Nautical Magazine "Angus Konstam has written the definitive masterpiece of the Battle of North Cape." –Naval Historical Foundation "An excellent read and strongly recommended . . . thoughtful and totally engrossing. . . . If you are interested in the Royal Navy in the Second World War, the Arctic convoy campaign or capital ship actions, The Battle of the North Cape is well worth its cover price." –The Naval Review

Battleship Scharnhorst Albert Vulliez, Jacques Mordal, 1958 Epic of a German battleship of World War 2, reconstructed from logs, and other documents, by two French naval officers.

My School Stinks! Becky Scharnhorst, 2021-07-06 Just might convince complaining children that their school isn't so bad after all.--Kirkus reviews A hilarious back-to-school story told through journal entries about a boy who finds himself at a new school where the other students are REAL animals. Perfect for fans of Ryan T. Higgins's *We Don't Eat Our Classmates* and Elise Parsley's *If You Ever Want to Bring an Alligator to School, Don't!* Dear Diary, Today is the first day at my new school and I think there's been a mistake. My desk mate stinks, my locker buddy bites, and my teacher is unbearable! I told Mom my classmates are WILD ANIMALS but she said all little kids are wild animals. I think I'm going to be sick tomorrow. Celebrate back to school (and even calm some back-to-school nerves) with this clever and funny story about a boy who accidentally winds up at a school for animals, but soon realizes friends can come in all shapes, sizes, and species. A great read for kindergarten through second grade! Praise for *My School Stinks!*: Along with being a good choice for children anxious about their own upcoming "first day," this offers a nifty exercise in reading between the lines.--Booklist An encouraging new-kid narrative told from an entertaining perspective. --Publishers Weekly

The German Battleship Scharnhorst Siegfried Breyer, 1991-02-01 Covers the activities and design specifics of the battleship Scharnhorst.

The Battleship Scharnhorst Grzegorz Nowak, 2011-03 A new second edition of the book including excellent 3D objects as well as anglyph glasses which allow you admire this ship in 3D The notorious battleship Scharnhorst, named after the Prussian General and army reformer Gerhard von Scharnhorst, was a thorn in the Allies side, sinking numerous ships and severely threatening British seaborne supply lines. The lead in her class and weighing in at 31,100 ton the Scharnhorst terrorized Allied merchant ships in the Atlantic shipping lanes for four years, before finally being sunk by HMS Norfolk in the Battle of the North Cape in 1943. About the Series This brand-new series focuses on the construction of famous ships - battleships, carriers, cruisers, and submarines. With ground-breaking 3D imagery, each corner, angle, and dimension of the ship is viewable. Scharnhorst. [With a Portrait.] Friedrich Hossbach, Gerhard Johann David von SCHARNHORST, 1955

The Battleships Scharnhorst and Gneisenau Vol. I Mirosław Skwiot, Mariusz Motyka, 2021-04 The battleships of the Kriegsmarine are only four vessels in total, which they managed to put into operational service in 1935-1941. The first two of those, Scharnhorst and Gneisenau, did not make as spectacular combat career as the other two. So far, no extensive memories of seamen sailing them have appeared, because their career practically boiled down to staying in a port, dock or roadstead until they sank or the hostilities ended. The current publication is a form of compromise between combat operations, shortened in it to a necessary minimum, in the case of Scharnhorst, and a broader description of use of the wreck of Gneisenau after the war, and a photo album that represents life on the ship.

Holocaust At Sea: The Drama Of The Scharnhorst Fritz-Otto Busch,2015-11-06 On Christmas Day, 1943, blinded by the fury of an Arctic blizzard, encircled by enemy destroyers, the German battleship Scharnhorst fought for her life. The luck of the Scharnhorst had become a legend. In 1942 she had slipped unscathed through the Channel under the very bows of the British fleet to harry the Arctic convoy-routes. The British convoy which sailed for Murmansk on Christmas Eve, 1943, seemed a perfect target for another lightning raid. In fact it was a trap to lure the battleship into the open and then destroy her. This is the story of the Scharnhorst's dramatic sortie from her Norwegian lair. The story of a battle fought with outstanding courage against impossible odds until the most feared of all Hitler's battleships sank at last off North Cape.

The Battleship Scharnhorst Stefan Draminski,2021-01-19 A highly detailed study of the World War II German battleship that sparred with the British Royal Navy from 1939–43. The Kriegsmarine's Scharnhorst was a German capital ship, described either as a battleship or battlecruiser, and the lead ship of her class, which included one other ship, Gneisenau. She was launched on 3 October 1936 and completed in January 1939, armed with nine 28cm C/34 guns in three triple turrets. Death of the Scharnhorst John Winton,2022-02-07 An epic account of how the Royal Navy tracked down, cornered,

and sank one of the most fearsome German warships of the Second World War. Ideal for readers of Craig L. Symonds, Max Hastings and Doug Stanton. The Scharnhorst was a state of the art capital ship of Nazi Germany's navy. Launched in 1936 she had terrorized Allied shipping since the beginning of the war, famously destroying the aircraft destroyer HMS Glorious in June 1940. Since then she had made numerous sorties into the Atlantic to raid British merchant fleets and had evaded destruction in the Channel Dash of 1942 in order to interrupt convoys to the Soviet Union. The danger posed by the Scharnhorst to the Arctic convoys was monumental. Admiral Sir Bruce Fraser, commander-in-chief of the Home Fleet, devised a plan to lure their enemy from its Norwegian base and pound it with shells from the battleship HMS Duke of York and supporting cruisers and destroyers. John Winton's comprehensively researched book, drawing on British and German eyewitness accounts, uncovers how the threat of the Scharnhorst was eventually brought to an end at the Battle of the North Cape in the freezing conditions of the Barents Sea.
