Ender's Game Orson Scott Card, 2017-10-17 The classic of modern science fiction--Front cover.

Dawn Exodus Kevin Partner, If Foundation and Star Wars had a love child. This is classic science fiction, a galactic empire space opera! For centuries they served. In gratitude we freed them. With vengeance they betrayed us. When she's kidnapped by the Blessed Engineers, Arla discovers that she's been living a lie. She wasn't a farmer's daughter, but merely cargo transported in the carved out heart of an asteroid: the Arkship Dawn on a thousand year voyage to a new home. And someone got there first. One act of rebellion leads to the fate of her people resting on her young shoulders. And, perhaps the future of humanity itself. Because Dawn harbors a secret. It is the key. Destiny awaits. *Dawn Exodus* is the first book in a now complete six book series of space opera in the classic vein of Asimov, Bradbury and Bear. If you like clean, fast paced, intelligent sci-fi that's full of ideas, memorable characters and examines what it truly is to be human, then the Robot Empire series is for you. Anarchy's Edge Dave Walsh, 2021-03-30 Deep in the heart of the galaxy, an ancient, banished force lays in wait. Life has transformed for Trella. No longer bound to the old ways of her people, she seeks her place in the galaxy, only to find as her father seizes power in Andlios he may be a puppet for figures from his own past. With the help of her old friends, she must venture out further into the galaxy than she ever has before, hoping to stop the Banished before it's too late. There's just one problem: the Khonsu revolution finds itself besieged by the Earth Ministry. After Khonsu Station and the gate went dark, Katrijn and Jace ventured through once more, in search of Loren and their

friends. What they weren't expecting was their fragile intra-galaxy alliance hanging on by a thread as the Earth Ministry cut off Khonsu Station, looking to reclaim the station and quash the uprising before it could spread through the rest of the galaxy. Every revolution faces its past, but is that past too powerful to stop? *** KEYWORDS: science fiction, scifi book, scifi books, space opera book, space opera scifi, space opera adventure battles, science fiction female lead, strong female characters in books, anarchist scifi, cyborg fiction, space opera exploration, space viking book, anticapitalist scifi, existential scifi, scifi box set, epic space opera, scifi fantasy, space viking battles, lgbtq scifi, progressive scifi, hema battles scifi, space opera, science fiction cthulhu, lovecraftian, lovecraftian scifi For fans of: Frank Herbert, Dan Simmons, China Mieville, Isaac Asimov, Ursula K.
