The Science of Avatar Stephen Baxter,2012-05-29 Audiences around the world have been enchanted by James Cameron's visionary Avatar, with its glimpse of the Na'vi on the marvelous world of Pandora. But the movie is not entirely a fantasy; there is a scientific rationale for much of what we saw on the screen, from the possibility of travel to other worlds, to the life forms seen on screen and the ecological and cybernetic concepts that underpin the 'neural networks' in which the Na'vi and their sacred trees are joined, as well as to the mind-linking to the avatars themselves. From popular science journalist and acclaimed science fiction author Stephen Baxter, *The Science of Avatar* is a guide to the rigorous fact behind the fiction. It will enhance the readers' enjoyment of the movie experience by drawing them further into its imagined world.

Cormac signs up with Earth Central Security and is sent out to help restore and maintain order on worlds devastated by the war. There he discovers that though the Prador remain as murderous as ever, they are not anywhere near as treacherous or dangerous as some of his fellow humans, some closer to him than he would like. Scorpion Strike John J. Nance, 2016-01-19 Two air force pilots race to stop an Iraqi bioweapon in this thriller filled with "white-knuckle flight scenes" from a New York Times--bestselling author (Kirkus Reviews). A scientist charged by Saddam Hussein with pioneering a horrific breakthrough in biological warfare, Shakir Abbas defects at the American embassy to warn the world of the new weapon. America's worst nightmare has come true--and now US forces must scramble to put together a plan to destroy the weapon of mass destruction. When the operation goes awry in Saudi Arabia, Col. Will Westerman commandeers a C-141 transport to get the Special Forces team into Iraq. With the help of air force buddy Col. Doug Harris, Westerman reaches his target only to discover that the unthinkable has happened. Now they must use all their ingenuity, daring, and adrenaline to stop a worldwide catastrophe--and survive what looks increasingly like a suicide mission. From the bestselling author of Pandora's Clock and the Kat Bronsky series--a pilot and Operation Desert Storm veteran himself--this is a "gripping" aviation thriller (Seattle Post-Intelligencer) featuring "thoroughly realistic background detail and an entirely too plausible plot" (Kirkus Reviews).

The Prince and the Scorpion Dick Nelson, 2014-10-31 In the highly anticipated sequel to *The Trojan Horse Conspiracy*, Brad Tilsdale--former Navy SEAL, FBI agent, CIA operative, and now National Security Advisor to the President--expands his influence over the U.S. government's clandestine operations, while a weak President looks the other way. As Tilsdale weaves his way through the Washington bureaucracy to head off a massive Al-Qaeda attack, his sharply etched character begins to evolve in sinister ways, revealing a dark and ruthless side of his personality. Tilsdale plots and schemes to protect the United States, often from itself. His unorthodox alliance with the two most influential women in Washington--a romantic triangle with treacherous implications--becomes a struggle for control of the nation's Special Operations and clandestine services, exposing layer upon layer of personal agendas and an insatiable pursuit of power. In a final cataclysm of violence and duplicity, Tilsdale's character emerges as a flawed hero who will kill without remorse in order to achieve his secretive goals, aided by a beautiful, powerful woman who is irresistibly drawn to his strength. *The Prince and the Scorpion* is a gripping, action-packed tale of political intrigue, assassination, and heroism--a tale that will leave the reader with an entirely new view of their government in Washington...and the people who manipulate it.

Pop Smoke, Birds Inbound Rick R. Garcia, 2016-02-10 The Vietnam War put a once-proud nation in turmoil. During the height of the conflict, the antiwar movement caused civil unrest in America. Young men evaded the draft by fleeing to Canada, claiming conscientious objector status, homosexuality, or marriage with child. But author Rick R. Garcia, the only son born to Hispanic parents, got caught up in the 1969 lottery draft. *Pop Smoke, Birds Inbound*

chronicles Garcias story as he was shipped far away to the land of Hush-a-bye to fight in the most controversial war in which the United States ever participated. He was inducted into the US Army on August 20, 1970, and after the completion of eight weeks of intense advance infantry training, he was issued orders to report to Oakland Army Base, gateway to Southeast Asia. Eventually, Garcia was assigned to Blackfoot Platoon, Company Bravo, Second Battalion, Eighth Regiment, First Cavalry Division. *Pop Smoke, Birds Inbound* narrates a factual account of one soldier's triumphs and failures between firefights a story of survival, from living to loving. It presents a unique glimpse into the life of a grunt, from combat to drugs to sexual exploits, along with incisive portraits of those individuals who fought in a war the United States would never win.

Red Scorpion Peter Sasgen, 2012-04-15 The USS *Rasher* had an extraordinary record in World War II: she sank 18 enemy ships and destroyed 99,901 tons--the second highest tonnage of the war. Her fifth war patrol is the stuff of legends. In August 1944 during a single night surface attack on a Japanese convoy off the Philippines, she sank the escort carrier *Taiyo* and three marus, and later during that same patrol she sank another ship. Reading more like a novel than an operational history, this book covers all aspects of the *Rasher's* combat history in a way that both the general reader and veteran submariner will appreciate. Author Peter Sasgen is the son of a *Rasher* crew member, and from his father's perspective he follows the sub from the builder's way through eight action-packed patrols to war's end. His richly detailed descriptions of submarine operations include lively commentary by former shipmates and excerpts from patrol reports along with a close examination of patrol procedures, communications, life guarding, and other topics rarely covered in such detail. Sasgen also explores the essence of submarine combat--aggressive leadership--and its role in the *Rasher's* success.

Shadowrun: Scorpion's Bane Mel Odom, 2023-02-01 *STRIKE FROM THE SHADOWS...* On the trail of her missing brother, shaman Rashida bint Tariq bin Feroze al-Nazari travels to South Africa to interrogate a corp executive who may have actually seen Qasim. But the meeting turns into a trap she barely escapes, and Rashida realizes she and her shadowrunning team have stumbled onto something much deeper than a rash of missing children. Their search for answers will take them from the glittering neon towers of Dubai to the harsh desert wilderness of the Arabian Caliphate. Rashida and her team scour every clue they find, whether it is in the deep African jungle, the artificial world of the Matrix, or the infinite astral plane, to uncover who's masterminding this plot...and stop them before it can be put into action. And all the while, Rashida must contend with Scorpion, the insect spirit who came to her when she cried out for revenge against those who had killed her father and stolen her brother, and now lives within her in an uneasy alliance. Vicious, cunning, and deadly, Scorpion's power always comes with a price...and if Rashida isn't careful, she may end up paying it before she has the chance to save her brother...and punish the ones who took him.

Gunship Ace Al J. Venter, 2012-01-19 "Spotlights the career of a fascinating modern warrior, while also shedding light on some of the conflicts that have raged throughout the world" (Tucson Citizen). A former South African Air Force pilot who saw action throughout the region from the 1970s on, Neall Ellis is the best-known mercenary combat aviator alive. Apart from flying

Alouette helicopter gunships in Angola, he fought in the Balkan war for the Islamic forces, tried to resuscitate Mobutu's ailing air force during his final days ruling the Congo, flew Mi-8s for Executive Outcomes, and piloted an Mi-8 fondly dubbed "Bokkie" for Colonel Tim Spicer in Sierra Leone. Finally, with a pair of aging Mi-24 Hinds, Ellis ran the Air Wing out of Aberdeen Barracks in the war against Sankoh's vicious RUF rebels. As a "civilian contractor," Ellis has also flown helicopter support missions in Afghanistan, where, he reckons, he had more close shaves than in his entire previous four decades. From single-handedly turning the enemy back from the gates of Freetown to helping rescue eleven British soldiers who'd been taken hostage, Ellis's many missions earned him a price on his head, with reports of a million-dollar dead-or-alive reward. This book describes the full career of this storied aerial warrior, from the bush and jungles of Africa to the forests of the Balkans and the merciless mountains of Afghanistan. Along the way the reader encounters a multiethnic array of enemies ranging from ideological to cold-blooded to pure evil, as well as examples of incredible heroism for hire.
