Sea Harrier Over the Falklands Commander 'Sharkey' Ward, DSC, AFC, RN, 1993-08-05 Sharkey Ward commanded 801 Naval Air Squadron, HMS Invincible, during the Falkland War of April to June 1982, and was senior Sea Harrier adviser to the command on the tactics, direction and progress of the air war. He flew over 60 war missions, achieved three air-to-air kills, and took part in or witnessed a total of ten kills; he was also the leading night pilot, and was decorated with the Distinguished Service Cross for gallantry. But what, after all, could 20 Sea Harriers, operating from a flight-deck bucketing about in the South Atlantic, do against more than 200 Argentine military aircraft flown by pilots who, as the raids against the British shipping proved, displayed enormous skill and almost suicidal gallantry? The world knows the answer - now. What is puzzling, therefore, is this book's truthful depiction of the attitudes of some senior non-flying naval officers, and of the RAF, towards the men (and indeed the machine) that made possible the victory in the Falklands. This first-hand account charts, in detail, the naval pilots' journey to the South Atlantic, and how they took on and triumphantly conquered the challenges they faced. It is a dramatic story, leavened with accounts of the air-to-air fighting and of life in a squadron at sea and on a war footing. But it is also a tale of inter-Service rivalry, bureaucratic interference, and the less-than-generous attitudes of a number of senior commanders who should certainly have known better; indeed, some of them might even have lost the war through a lack of understanding of air warfare. The author attempts to put the record straight.

Sea Harrier Roger Chesneau, 2006 The famous Royal Navy 'jump-jet' that revolutionised carrier operations and shaped the course of the 1982 Falklands War.

*Sea Harrier FRS 1 vs Mirage III/Dagger* Douglas C. Dildy, Pablo Calcaterra, 2017-09-21 Following Argentina's military operation to take possession of the Falkland Islands/Islas Malvinas, British Prime Minister Margaret Thatcher's government launched a major naval operation to return them to British rule. Defending the Royal Navy task force were two small squadrons totalling 20 Sea Harriers (SHARs). Initial clashes between SHARs and Argentine Mirages and Daggers on 1 May 1982 failed to eliminate the Sea Harrier defenders. FAA fighter-bomber pilots relied on daring and courageous ultra-low level attacks, frequently escaping the Sea Harrier's limited capabilities, against Royal Navy warships and auxiliaries, causing considerable damage during Operation Corporate, the large-scale amphibious operation to repossess the islands. Publishing 35 years after the end of the conflict, this fully illustrated volume offers a balanced and objective examination of the SHAR and the Argentine Mirage and Dagger aircraft, highlighting the attributes of both and the skills and courage of the pilots flying them.

Sea Harrier Fa2 Albert Osinski, 2010-01-05 \* Includes free decals and masking foil \* Packed with color photos The British Aerospace Sea Harrier is a naval VTOL/STOVL jet fighter, reconnaissance and attack aircraft, a development of the Hawker Siddeley Harrier which first entered service with the Royal Navy in April 1980 as the Sea Harrier FRS1. Unusual in an era when most naval and land-based air superiority fighters are larger and supersonic, the subsonic Sea Harrier is tasked primarily for air defense and operating from Royal Navy aircraft carriers, shooting down 20 aircraft in the Falkland war in air combat with no losses. It was also used to launch ground attacks in the same manner as the Harriers operated by the Royal Air Force. A second, updated version for the Royal Navy was made in 1993 as the Sea

Harrier FA2, improving its air to air abilities and weapons compatibility, along with a more powerful engine. This version continued manufacture until 1998. Its usage in the Falklands War was its most high profile and important success, having protected the British Task Force as its only fixed-wing fighter available. The Sea Harrier was withdrawn early from Royal Navy service in March 2006. About the Series This is a classic series of highly illustrated books on the best machines of war, with several hundred photographs of each aircraft or vehicle. With close-up views of the key features of each machine, including its variations, markings and modifications, customizing and creating a model has never been easier. Includes extra features such as decals and masking foil.

*Sea Harrier* Jamie Hunter, 2005 In early 2006, the Fleet Air Arm's last Sea Harrier FA 2 will launch from the ski jump of an invincible class carrier and fly to RAF St. Athan, in Wales, where it will be placed in permanent storage. This event will signal the end of an era in British aviation that stretches back some 90 years, and includes such illustrious types as the Camel, Fury, Hurricane, Spitfire, Hunter and Lightning. The final all-British single-seat fighter will have been retired from frontline service. This volume serves to chronicle the fascinating career of the Sea Harrier. Built almost as an afterthought by British Aerospace to fulfill a Royal Navy requirement that was restricted by the size of its emasculated 'through deck cruiser' style Invincible class helicopter carriers, the Sea Harrier had proven its worth in combat over the Falklands within three years of entering frontline service. A Cold War warrior, and a veteran of the more recent policing actions in the Balkans, the Persian Gulf and Sierra Leone, the Sea Harrier now finds itself in the

twilight of its career due to swinging budget cuts. Yet despite its advancing years, the FA 2 variant is still the most capable fighter interceptor in Britain, thanks to the partnership forged between its highly effective Blue Vixen radar and awesome US-built AMRAAM medium-range air-to-air missiles. The retirement of the Sea Harrier will once again leave the fleet without a dedicated fixed-wing fighter for the best part of a decade. The release of this volume in 2005 will coincide with the final airshow season attendance of the Sea Harrier. The 'SHAR' is a much loved airshow performer, and there will no doubt be considerable attention focused on the jet by the British public. As well as extensive archive material and images from Sea Harrier pilots through their careers, the volume will be illustrated with recent air-to-air ground material taken by Jamie Hunter during the last two years of Sea Harrier operations.

Hostile Skies David Morgan, 2012-09-06 The gripping personal story of a Falklands Fighter Ace. David Morgan, RAF officer and poet, relives his experiences during the Falklands War in this vivid memoir. On secondment to the Royal Navy when the Argentine invasion of the Falklands began and personally credited with shooting down two Argentine Skyhawks as well as enemy helicopters, Morgan was later awarded the Distinguished Service Cross. Here he recounts his involvement in the first British air-strike against Argentine positions around Port Stanley and

describes being first on the scene when enemy jets bombed the landing ships SIR TRISTRAM and SIR GALAHAD. Including the author's heartfelt letters sent back to England to close family and friends, HOSTILE SKIES dramatically recalls what it was really like to fight, live and love during the Falklands War.

The Sea Harrier entered service with the Royal Navy in 1979, and played a large part in the 1982 Falklands conflict. Harriers are also in service with the United States Marine Corps and the Spanish and Italian forces. This is a history of the aircraft, much of it contributed by Duncan Simpson, the Harrier's Chief Test Pilot.

**The Harrier Story** Peter R March,2012-02-29 The 'Jump-jet' was the world's first vertical/short take-off and landing (VSTOL) operational jet aircraft. Developed using the revolutionary Pegasus engine, the Harrier has served the RAF and US Marine Corps well for over 30 years. Here, vividly told, is the fascinating story from tentative hovering by the Hawker P1127 in 1960 to today's frontline Harrier GR9 and AV-8B warplanes. A naval version, the Sea Harrier, entered service with the Royal Navy in 1979. Alongside the RAF Harrier it saw action in the Falklands War in 1982. More recently, Harriers have seen combat over Kosovo, Bosnia and Iraq. In the USA, a license-built version (the AV8-A/B) equips the US Marine Corps and is in service today in Iraq. Harriers also equip air forces in Spain and Thailand.
