

Sea Scorpion

Lin Baldock, Frances Dipper

Sea Scorpions Kate Moening,2023-01-01 Sea scorpions were the biggest arthropods to ever exist. The biggest grew over 8 feet long! In this hi/lo title, readers will discover the lives of sea scorpions as they swam through prehistoric oceans. Leveled text and colorful illustrations show off sea scorpions' body parts, favorite foods, behaviors, and extinction. Special features map the prehistoric world, show off the animals' size, call out favorite foods, and highlight an important fossil discovery. The book closes with a full-spread profile that puts important information about sea scorpions in one place!

Venor the Sea Scorpion Adam Blade,2015-01-01 Max and Lia's battle to defeat the wicked pirate, Red Eye, continues. Deep beneath the waves, Red Eye's crew of robotic monsters is joined by a new threat - a giant sea scorpion! Our heroes face a deadly battle... The third thrilling adventure in Sea Quest Series 5: The Chaos Quadrant. Look out for Sythid the Spider Crab, Brux the Tusked Terror and Monoth the Spiked Destroyer!

The Sea Scorpion George Brydges Rodney,1935

Scorpion in the Sea P. T. Deutermann,2011-04-01 On a calm night off the Florida coast, a fishing boat vanishes without a trace. Something deadly is hiding in U.S. waters, and the Navy brass would rather bury the truth than face it. It's Montgomery's war now. Brash and unconventional, Mike Montgomery is hardly regulation Navy. At his side, Diane Martinson, the Chief of Staff's wife--smart, tough...and his lover. Under his command, the USS Goldsborough--a WWII-era destroyer thundering toward a showdown of water and fire. With the arrival of P.T. Deutermann--retired Navy captain, former arms control negotiator within the Joint Chiefs of Staff, and ex-commander of at destroyer squadron--today's naval thriller just climbed to a whole new level.

Eurypterids of the Devonian Holland Quarry Shale of Ohio Erik Norman Kjellesvig-Waering,2022-08-10 In contrast to the Silurian, the North American Devonian deposits have not yielded a rich fauna of eurypterids, although the list of known species is continuously growing. The occurrence of eurypterids in the Holland Quarry shale, a lens locally underlying the Sylvania sandstone at the base of the Devonian in Lucas County, Ohio (see Carman, 1960), adds materially to our relatively meager knowledge of Devonian forms in North America.

Fish atlas of the Celtic Sea, North Sea, and Baltic Sea Henk J.L. Heessen,Niels Daan,Jim R. Ellis,2023-09-14 The atlas presents a unique set of abundance data to describe the spatial, depth, size, and temporal distribution of demersal and pelagic fish species over an extensive marine area, together with accounts of their biology. A large number of pictures, graphs and distribution maps illustrate the text. By largely avoiding - or at least explaining - scientific terms and providing extensive references, the book should be useful for both laymen and scientists. The quantitative information on some 200 fish taxa is derived from 72,000 stations fished by research vessels during the period 1977-2013. The area covers the northwest European shelf from west of Ireland to the central Baltic Sea and from Brittany to the Shetlands. Although the surveys extend beyond the shelf edge, only taxa reported at least once in waters less than 200 m are included. Typical deep-water species and typical fresh-water species are excluded. We hope this publication will contribute to gaining a better understanding of the ocean ecosystems.

Sperm Competition and the Evolution of Animal Mating systems Robert L. Smith,2012-12-02 Sperm Competition and the Evolution of Animal Mating Systems describes the role of sperm competition in selection on a range of attributes from gamete morphology to species mating systems. This book is organized into 19 chapters and begins with the conceptualization of sperm competition as a subset of sexual selection and its implications for the insects. The following chapter describes the relationship between multiple mating and female fitness, with an emphasis on determining the conditions under which selection on females is likely to counteract selection on males for avoiding sperm competition. Other chapters consider the female perspective on sperm competition; the evolutionary causation at the level of the individual male gamete; and the correlation of high paternal investment and sperm precedence in the insects. The remaining chapters are arranged phylogenetically and explore the sperm competition in diverse animal taxa, such as the *Drosophila*, *Lepidoptera*, spiders, amphibians, and reptiles. These chapters also cover the evolution of direct versus indirect sperm transfer among the arachnids or the problem for kinship theory presented by multiple mating and sperm competition in the Hymenoptera. This book further discusses the remarkable potential for sperm competition among certain temperate bat species whose females store sperm through winter hibernation and the mixed strategies and male-caused female genital trauma as possible sperm competition adaptations in poeciliid fishes. The concluding chapter examines the predictions concerning testes size and mating systems in the primates and the possible role of sperm competition in human selection. This book is of great value to reproductive biologists and researchers.

Inshore Fishes of Britain and Ireland Lin Baldock,Frances Dipper,2023-04-25 A beautifully illustrated photographic identification guide to the common marine fish found around Britain and Ireland--ideal for divers, snorkellers, and natural history enthusiasts Fish are a colourful and important part of inshore marine life, much admired by divers and snorkellers. But it can be difficult to accurately identify and record these quick-moving animals underwater. This authoritative, beautifully illustrated photographic guide offers a practical, easy-to-use approach for identifying the fish species commonly seen in the waters around Britain and Ireland, as well as a few vagrant and interesting rare species. The book's concise text explains how fish can be identified underwater, and is accompanied by numerous photographs of each species in its natural environment and diagrams illustrating key features. The book also clearly indicates the cases when underwater species identification is more difficult. Published in association with the UK's Marine Conservation Society, the book makes an invaluable addition to the series of marine photographic titles of Seasearch, a species recording project for volunteer sports divers.

Features individual descriptions of more than 150 species, with information on size, depth range, habitat and distribution in the Seasearch guide icon format Illustrates every species in its natural underwater environment Emphasises key identification features and possible confusion species Includes a “confidence guide” distinguishing between easily recognisable species and those requiring closer examination Features longer sections highlighting interesting species, behaviours and other topics Provides information on protected species, taxonomy, shifting distributions and conservation status

A Student's Guide to the Seashore J. D. Fish,S. Fish,2011-01-13 This unique, concise and beautifully-illustrated guide allows students to identify over 650 of the common, widespread animals and seaweeds of the shore. User-friendly dichotomous keys are supported by details of diagnostic features and biology of each species. Now enhanced with 32 pages of colour, this much acclaimed guide is invaluable to students of marine biology at any level. Questions such as how does the species reproduce? What is its life-cycle? How does it feed? are answered in the notes accompanying each species to give a fascinating insight into the diversity and complexity of life on the shore. The text is supported by an extensive glossary of scientific terms and a comprehensive bibliography is included to aid further study. The third edition builds on the excellent reviews of earlier editions and will continue to appeal to a wide readership, including students, teachers and naturalists.
