Bosnia & Herzegovina 5 Tim Clancy,2017-05-26 From an expert author who has lived and worked in the region for over two decades, Bradt's Bosnia and Herzegovina is the most comprehensive English-language guidebook available to the mountainous heart of the Western Balkans. It covers the country's diverse Mediterranean landscapes, from the southern Herzegovina cities of Mostar and Trebinje to the lush and green Alpine regions of Sarajevo and Banja Luka, plus second-to-none coverage of the capital city Sarajevo. Now in its fifth edition, not only does the guide feature smaller towns and villages off the beaten track, but it also goes into greater depth than its competitors, with more detail on the history, culture and sights, and more opinionated and entertaining reviews of hotels and restaurants. For this new updated edition, the Sarajevo chapter has been fully overhauled with brand new mapping, and a complete run-down of all of the Herzegovina wineries has been included. There is also new coverage on the Via Dinarica regional mega trail that carves its way through the heart of Bosnia and Herzegovina's Dinaric Alps and is chock full of activities and adventure for families and pros alike. New maps for the country's national parks Sutjeska and Una national parks are included, plus walking routes that you'll find in no other book new town plans of Visegrad and Trebinje. All the regional maps have been completely overhauled. Also included are details of rural accommodation and farm stays within reach of some of the major hubs, plus an expanded chapter on Mostar and Trebinje. Two decades after the conflict that ravaged the region, Bosnia and Herzegovina has emerged as a unique, dynamic tourism destination. Whether you go in search of bears in the primeval Sutjeska National Park, wander the winding streets of Sarajevo's Turkish quarter or put your feet up in Mostar with a glass of chilled ilavka, you are guaranteed to be charmed by the country's rich natural and cultural heritage.

Can you love someone without the need for labels and commitment? Is it possible to truly leave your baggage behind?

The Cellist of Sarajevo Steven Galloway, 2009-02-24 This brilliant novel with universal resonance tells the story of three people trying to survive in a city rife with the extreme fear of desperate times, and of the sorrowing cellist who plays undaunted in their midst. One day a shell lands in a bread line and kills twenty-two people as the cellist watches from a window in his flat. He vows to sit in the hollow where the mortar fell and play Albinoni's Adagio once a day for each of the twenty-two victims. The Adagio had been re-created from a fragment after the only extant score was firebombed in the Dresden Music Library, but the fact that it had been rebuilt by a different composer into something new and worthwhile gives the cellist hope. Meanwhile, Kenan steels himself for his weekly walk through the dangerous streets to collect water for his family on the other side of town, and Dragan, a man Kenan doesn't know, tries to make his way towards the source of the free meal

he knows is waiting. Both men are almost paralyzed with fear, uncertain when the next shot will land on the bridges or streets they must cross, unwilling to talk to their old friends of what life was once like before divisions were unleashed on their city. Then there is "Arrow," the pseudonymous name of a gifted female sniper, who is asked to protect the cellist from a hidden shooter who is out to kill him as he plays his memorial to the victims. In this beautiful and unforgettable novel, Steven Galloway has taken an extraordinary, imaginative leap to create a story that speaks powerfully to the dignity and generosity of the human spirit under extraordinary duress.

Foresight and Design Mark C. Childs, 2022-11-14 Every plan, pro-forma, design, building contract, and construction schedule is a proposal about future places. To help improve such proposals, *Foresight and Design: Composing Future Places* presents conceptual tools to inform design and outline the need for designers to rigorously think about potential futures. Our built compositions are constantly transforming due to continuing urbanization, demographic shifts, climate change, the evolution of virtual worlds, economic and health disparities, and other unforeseen trends. If we envision and plan for alternative futures, we are better able to purposefully respond. This book presents emerging practices of foresight, including signals of change, thick descriptions, pace layers, (re)framing, prototyping, scenarios, maps of change, storytelling, and world-building, to indicate how robust contemplation of multiple potential futures can help us compose places that are durable, resilient, and adaptable. Five brief case studies interspersed between the chapters serve as examples of practitioners exercising foresight through these practices. Contributions include a description of a regional design process in Afghanistan by Anthony Fettes of Sasaki Architects, and an exploration into the Indigenous Futurism model-making competition by Anjelica Gallegos. Written for architects, designers, planners, developers, city councilmembers, and engineers, this book encourages all composers of the built environment to envision alternative futures and purposefully respond.

"Invisible Cities" and the Urban Imagination Benjamin Linder, 2022-11-08 In 1972, Italo Calvino published *Invisible Cities*, a literary book that masterfully combines philosophy and poetry, rigid structure and free play, theoretical insight and glittering prose. The text is an extended meditation on urban life, and it continues to resonate not only among literary scholars, but among social scientists, architects, and urban planners as well. To commemorate the 50th anniversary of *Invisible Cities*, this collection of essays serves as both an appreciation and a critical engagement. Drawing from a wide array of disciplinary perspectives and geographical contexts, this volume grapples with the theoretical, pedagogical, and political legacies of Calvino's work. Each chapter approaches *Invisible Cities* not only as a novel but as a work of evocative ethnography, place-writing, and urban theory. Fifty years on, what can Calvino's dreamlike text offer to scholars and practitioners interested in actually existing urban life?

The Urban Ecologies of Divided Cities Amira Osman, John Nagle, Sabyasachi Tripathi, 2023-06-12 The book discusses how division affect the fabric of cities, and people’s sense of identity and agency, and are reflected in physical features, architecture, and urban planning. The question of divided cities represents a complex and multistranded urban Ecology—at once both social and spatial; it cannot be limited to a single science or discipline, such as social or spatial fields. This suggests integrated and cross-disciplinary understandings, as well as integrated or parallel approaches and solutions. Urban ecologies of division manifest in multiple forms. One of their most palpable expressions is conflict, with parallels around the world, and often with correlations in the spatial fabric. Violence in such contexts is often a surface expression of deeper socio-economic or ideological differences. Whether as a result of intervention by authority or by dissent between groups, a divided city inevitably becomes a place of conflict in various forms and intensity, eroding the joy of living and sense of collective belonging to the detriment of all. In effect, it erodes the collective advantage of being part of a more unified society. A city exists in collections of social structures which mutually form a society. A divided city implies divided social structures and, in consequence, a divided society. The papers compiled in this book present many case studies of divided cities, discussing the different causes of divisions and their effects on societies. Some of the causes can be linked to conflicts, wars, colonialism, or legislative political systems. In response to the serious challenges resulting from these divisions, the book aims to provide opportunities for new approaches and possibilities for new interventions and solutions, making it significant to urban planners, architects, and policymakers.

Travel Writing for Tourism and City Branding Charlie Mansfield, Jasna Potočnik Topler, 2022-12-30 Travel Writing for Tourism and City Branding is an insightful, expert-led book which provides tourism students with a practice-based approach to producing researched literary travel writing on an urban destination, using the writing process as a research tool in itself. The book

is scientifically supported with full academic references for researchers. On a global basis, city councils and destination managers are seeking new ways to commission and sponsor professional content authors as part of place-branding projects for tourism development. Given the increasing prevalence of such content within the tourism industry, this book provides a cohesive overview of literary travel writing, presenting it as an enquiry process that can be applied by writer-researchers to spaces that have value to them. Travel writing is presented as a methodological practice that researchers can learn and apply to their own projects, both in academic settings and in commercial city branding. Examples of literary travel writing are carefully examined throughout and their affects refracted through further work. Enriched with a wealth of case studies, chapters are presented in such a way that readers can take the work as a model for their own projects. This informative and practical volume will be of great interest to students of tourism marketing, destination marketing, place branding and travel writing, as well as current creators of commercial tourism marketing content.

Bosnia, l'Europa di mezzo Marco Travaglini, 2015-10-05 Due decenni fa finiva la guerra in Bosnia, lasciando cumuli di macerie e tanti, troppi morti. Questo reportage racconta la pace che ha fatto seguito a quella tragedia. Una pace imperfetta, fatta di prevaricazione e di giustizia negata, di dolore e di speranze strappate via dal disastro di una quotidianità spesso fatta di umiliazioni e privazioni. Ma narra anche la vicenda di tante persone e la storia di un innamoramento, quello dell'autore per la Bosnia, e di un profondo desiderio di capire non solo le ragioni del conflitto, ma anche la forza enorme che permette al popolo bosniaco di non scomparire sotto i colpi del destino. "Marco Travaglini ha scritto un taccuino di viaggio pieno di partecipazione emotiva, attento a cogliere i luoghi, i personaggi, le storie individuali e collettive; ma ha anche scritto un libro pieno di spunti per riflettere sul presente, per comprendere che ogni crisi ha le sue specificità e, insieme, i suoi denominatori comuni. Un bel modo per fare 'storia del passato' facendo contemporaneamente 'educazione al presente'". (Gianni Oliva) Questo libro costituisce "una narrazione unitaria in grado di raccordare il tempo di guerra con il presente, gettando semi di speranza e rinsaldando frammenti di memoria". (Donatella Sasso)
