

Sephiroth

John Kitto

The Eleventh Sephiroth Roberto G. Malgadi, 2006-02-01 The Sephiroth are the ten angels of the Devil, according to Biblical scholars of mystical knowledge. Among these, the ninth was a female, called Lillith. Her personage has been linked to the Whore of Babylon and other nefarious apparitions over time. She is said to have mated with Adam before the creation of Eve. The offspring of Lillith and her human lover is the Eleventh Sephiroth. She was called Victory of the Ten Angels, but being conceived of divine evil and humanity, Vittoria possesses infinite power and wisdom in both realms. The story begins with an account of scholarly writings on the existence of vampirism from Biblical times to the 19th century. The saga of Vittoria, the ultimate vampire, is chronicled through several centuries of Roman rule, as a fierce and immortal warrior, to modern day New York, as a college professor. She lives through a personage in a given era, and then disappears to assume a new identity in a new place and time. Vittoria, seductive and Aristocratic in every way, has her way with her lovers. She takes the blood of life, only as necessary for vampiristic sustenance. She is not a traditional vampire, and walks in daylight, and wines and dines on the finest repasts. The story takes her to modern day New York where she faces the greatest struggle for love and life over the millennia of her existence.

A Practical Guide to Qabalistic Symbolism Gareth Knight, 2001-05-01 In this groundbreaking book, Knight shows how the Qabalah and its basic diagram, the Tree of Life, is a system of relationships among mystical symbols that can be used to gain access to the hidden reaches of the mind. He also demonstrates how the Qabalah is applicable to all mystical traditions and religious beliefs, including Christian mysticism, Greek, Egyptian and Celtic mythologies, and even Native American beliefs. It is indeed symbolic of our universal search for the Divine. Included here are two books in one. The first compares the Western Mystery Tradition with the Eastern system of yoga, analyzes the Tree of Life in full detail, and describes the practical application and theories of Qabalistic symbolism. The second gives the most comprehensive analysis ever published of the twenty-two 'Paths of Concealed Glory' that join the Spheres of the Tree of Life taking into account the Hebrew alphabet, astrological signs, and tarot trumps. A large section explores the history of tarot design and the varying systems of correspondence with the Tree of Life.

Destiny's Song Sephiroth, 2006-01-01 Feathers of white, feathers of black: all drifting in the dark by a faint howling wind. And from this wind two figures emerge, each holding a power that will decide the very fate of their dreams, where one seeks to conquer, the other, to protect. The survivor of a forgotten world, Sefira is burdened to protect a universe threatened by a man that once destroyed her home. When concerning love, is who you choose to love half as important as how you choose to love them? Chairi faces this and many other questions as she finds a fulfillment in her heart for a man she barely knows. A young girl on Myran whose abilities are beyond that of a normal human, bordering with legends of magic, brings hope to her people as she stands with Sefira and Chairi against a terrible enemy that is determined to destroy them all. Darkness is on the horizon as the armadas of man stand against an undead race of warriors in a galactic battle of force to decide who will inherit the future. And

Rickter Etrenak brings with him more than a ship to lend a hand when he sees the life of the woman he loves threatened by the deadly grasp of the galaxy's most ruthless tyrant. Where magic and technology collide, fear and love pivot the center of Sefira's ultimate decision. Will she use Tifareth to defeat her enemy: a weapon that when last she used, destroyed half the outer verse?

Kraft show how to work through the Sephiroth— the ten attributes or emanations of Qabalah—for greater understanding and illumination. Drawing on occult works, including those of Israel Regardie, Aleister Crowley, Dion Fortune, and Lon Milo DuQuette, as well as dozens of Herbrew texts and manuscripts, the practicing magician can understand the Tree of Life and other Qabalistic concepts. Three Books of Occult Philosophy Heinrich Cornelius Agrippa von Nettesheim,1993 The Three Books of Occult Philosophy's vast store of magical lore has been so influential that occultists have been drawing upon it for the past five centuries. This classic work was first published in 1531, and translated into English in 1651, but it has never since been reprinted in its entirety. Now--for the first time in 500 years--editor Donald Tyson presents these writings as Agrippa intended them to appear: wholly complete and free from the hundreds of errors made in the original translation. The Three Books of Occult Philosophy is the most complete repository of pagan and Neoplatonic magic ever compiled. This book is packed with material you will not find elsewhere, including copious extracts on magic from obscure or lost works by Pythagoras, Pliny the Elder, Cicero, Ptolemy, Plato, Aristotle, and many other authorities. Donald Tyson's detailed annotations clarify difficult references and provide origins of quotations, even expanding upon them in many cases in order to make Agrippa's work more accessible to the modern reader. As well as providing extensive insight into the foundations of the Western Esoteric tradition, the Three Books of Occult Philosophy is the ultimate 'how-to' for magical workings. It describes how to work all manner of divinations and natural and ceremonial magic in such clear and useful detail that it is still the guide for modern techniques. And the extensive supplementary material--including biographical and geographical dictionaries and appendices--provides quick reference to many previously obscure matters in classical magic. The Three Books of Occult Philosophy is an essential reference tool for all students of the history of ideas and the occult tradition.--back cover.

Incarnates of Heaven Sephiroth,2009-09 As the opposing realms of Exodus and Eneyas engage in the final battle for dominion of the stars, special operatives from both sides deploy everything in their power to ensure victory. Zen and Sefira, members of the Protectorate and guardians of the people, must protect an ancient relic that could well be the key to harnessing a power believed to have been lost forever. This relic may also be able to open the doorway to Gaia, the world from which all life and power was once created. Discovering the secrets of Gaia would unleash new energies beyond imagining, but it could also spell doom. Author Sephiroth has not only written a war drama, but a love story in Incarnates of Heaven: The Road to Gaia. Richter, a soldier working closely with Zen, finds his feelings for her are becoming stronger every day. But Zen is not human and neither is her partner, Sefira. Just how do you win the heart of a girl who doesn't have one?
