The Frying Pan of Spain Colin Millar,2019 Seville is the capital of Spain's Andalusian region and is the life and soul of the nation. Enchanted with effortlessly stylish bars and colourful buildings, this is a charismatic metropolis doused in the endless sun of southern Spain. The city is also home to two historic institutions of Spanish football - Real Betis and Sevilla - and when they go head-to-head to contest El Gran Derbi, the rest of Spain can only watch in awe. This is a pulsating and arresting experience which encapsulates the beautiful game in all its raw, spellbinding brilliance. Spanish football is more than Barcelona and Real Madrid. Much more. The city contrasts uptown Sevilla with downtown Betis. Los Rojiblancos pitted against Los Verdiblancos. Sevillistas and Beticos. Nothing can compare to this beautiful city and the crazy passion for football that it produces, either in Spain or Europe. Colin Millar - who made the city his home - charts the illustrious histories of football in the city and explores how both clubs represent a way of life for Sevillanos.

Why is there a devil shown on the crest of Manchester United? Which club's crest motto is 'To Dare Is To Do'? And whose emblem depicts a bear and a strawberry tree? From the seahorses of Newcastle United to the royal crown of Real Madrid, via the riveting hammers of West Ham United, Valencia's famous bat design and German club St Pauli's unofficial skull-and-crossbones emblem, there is a story behind every crest, a tale of identity. Covering more than 200 clubs from 20 different leagues, World Football Club Crests explores the design, meaning and symbolism of the game's most famous club crests to reveal why the badges look as they do. This carefully curated collection charts the continuing evolution of the designs and describes the changing styles, varied influences and remarkable controversies that have shaped football's most iconic crests. Regeneration through Sport Andrew McFarland, 2022-12-01 This book examines how and why sport in general, and football in particular, entered the country and developed successfully between 1890 and the 1920s, while placing that growth within the context of Spain's larger historical experience. The introduction of sport in the late 19th century permanently changed the day-to-day lives of thousands of Spaniards. Initially, the country's growing urban middle-classes embraced the new activity as they built community identities and were introduced to it through economic and educational connections to foreigners. To justify this, these proponents argued that the adoption of physical education and sport would physically regenerate the nation. In response, well-rounded sporting communities grew, developed medical arguments, and even debated the activity's appropriateness for different groups like women. As sport spread, it produced the first football clubs around the turn of the century. Subsequently, in the 1910s and early 1920s, football established the structural institutions, like stadiums, stars, regulatory bodies, and a press, that enabled its rapid expansion as a mass consumer activity in the late 1920s. *Regeneration through Sport* looks at how this process embedded the sport within the national culture and established itself as a politically neutral activity before the Spanish Second Republic, allowing it to become almost ubiquitous today. This book will appeal to researchers, students and scholars alike who are interested in the history of sport, Spain, and European history.
