**Attack of the New B Movies** Justin Wigard, Mitch Ploskonka, 2023-04-14 Since its inception in 1992, the Sci-Fi Channel (later rebranded as SYFY) has aired more than 500 network-produced or commissioned films. Campy and prolific, the network churned out one low-budget film after another, finally finding its zenith in the 2013 release of Sharknado. With unpretentious charm and a hearty helping of commodified nostalgia, the Sharknado franchise briefly ruled the cultural consciousness and temporarily transformed SYFY's original films from cult fringe to appointment television. Naturally, the network followed up with a steady stream of sequels and spin-offs, including Lavalantula and its sequel, 2 Lava 2 Lantula! This collection of essays is the first to devote critical attention to SYFY's original film canon, both pre- and post-Sharknado. In addition to unpacking the cultural, historical and critical underpinnings of the monsters at the heart of SYFY's classic creature features, the contributors offer a variety of approaches to understanding and interrogating these films within the broader contexts of ecocriticism, monster theory, post-9/11 criticism, and neocolonialism. Providing a further entry point for future scholarship, an appendix details a thorough filmography of SYFY's original films from 1992 to 2022.

**Lessons Learned from Popular Culture** Tim Delaney, Tim Madigan, 2016-06-28 Informative and entertaining

introduction to the study of popular culture. As the “culture of the people,” popular culture provides a sense of identity that binds individuals to the greater society and unites the masses on ideals of acceptable forms of behavior. *Lessons Learned from Popular Culture* offers an informative and entertaining look at the social relevance of popular culture. Focusing on a wide range of topics, including film, television, social media, music, radio, cartoons and comics, books, fashion, celebrities, sports, and virtual reality, Tim Delaney and Tim Madigan demonstrate how popular culture, in contrast to folk or high culture, gives individuals an opportunity to impact, modify, or even change prevailing sentiments and norms of behavior. For each topic, they include six engaging and accessible stories that conclude with short life lessons. Whether you’re a fan of *The Big Bang Theory* or *Seinfeld*, the Beatles or Beyoncé, Charlie Brown or Superman, there’s something for everyone. Tim Delaney is Professor of Sociology at the State University of New York at Oswego. Tim Madigan is Associate Professor of Philosophy at St. John Fisher College. Together they have coauthored *Sports: Why People Love Them!* and *The Sociology of Sports: An Introduction*.

We dare you to take a look inside this cursed tome containing some of the most iconic and obscure monsters from the history of cinema. Pray that silhouette at the end of your bed is just a shadow and not the dreaded Babadook. Spanning nearly a century of cinematic terrors, *The Ultimate Book of Movie Monsters* showcases creatures from genres such as horror, fantasy, B-movies and even musicals. Along with legendary beasts like Frankenstein’s monster, Godzilla, the Living Dead and the (mostly) friendly creatures of *Monsters Inc.*, you’ll find film facts, creature strengths and weaknesses and over 150 full-color pictures of the monsters themselves. From the era of stop-motion beasties to the cinematic showdown of the century in *Godzilla vs. Kong*, film lovers and horror aficionados will find plenty to keep their lust for terror satiated. But beware, for the beasts that dwell within these forsaken pages may just keep you up all night. You have been warned...

**The Media Commons** Patrick D Murphy, 2017-03-29 Today's global media sustains a potent new environmental consciousness. Paradoxically, it also serves as a far-reaching platform that promotes the unsustainable consumption ravaging our planet. Patrick Murphy musters theory, fieldwork, and empirical research to map how the media communicates today's many distinct, competing, and even antagonistic environmental discourses. The media draws the cultural boundaries of our environmental imagination--and influences just who benefits. Murphy's analysis emphasizes social context, institutional alignments, and commercial media's ways of rendering discussion. He identifies and examines key terms, phrases, and metaphors as well as the ways consumers are presented with ideas like agency and the place of nature. What emerges is the link between pervasive messaging and an environment conjured by our media-saturated social imagination. As the author shows, today's complex, integrated media networks shape, frame, and deliver many of our underlying ideas about the environment. Increasingly--and ominously--individuals and communities experience these ideas not only in the developed world but in the increasingly consumption-oriented Global South.

*Word-of-Mouth in Contemporary Hollywood* Simon Hewitt, 2023-07-26 *Word-of-Mouth in Contemporary Hollywood* provides a unique insight into the potential for online communication to enable audiences to exert a greater impact on film industrial practices than ever before. In an overarching analysis of contemporary Hollywood film financing, marketing, distribution, and exhibition practices, Simon Hewitt recontextualises word-of-mouth in light of social media and examines the growing impact of audience participation. Using a ‘Bourdieuconomic’ approach, he applies qualitative research methods to better understand the contemporary Hollywood film audience, the contemporary Hollywood film industry, and the mechanisms that connect the two. The book explores new film financing mechanisms that incorporate fans into the packages used to secure production funds. It assesses the role of ‘Grassroots Intermediaries’ in contemporary film marketing campaigns. It critiques ‘democratic’ crowdsourced methods of film distribution, and finally, it considers the possible future of Hollywood film exhibition. By helping to bridge the gap between the gift economy and commodity culture, this book will appeal to students and scholars of media industry studies, media finance and economics, fan and audience studies, film studies, film history, and media marketing.
