WADI HADRAMAWT AND THE WALLED CITY OF SHIBAM. Unesco,1986

Hadrami Arabs in Present-day Indonesia Frode F. Jacobsen,2009-01-08 This book focuses on social and cultural trends in present-day Hadrami Arab societies in Eastern and Central Indonesia, and the history of the Hadrami Arab people, which demonstrates an early form of globalization. For centuries migration has played a vital part in Hadrami adaptation. External forces, such as the expanding powers of the Portugese in the Indian Ocean and the Turkish conquering Yemen, and internal forces like poverty, droughts and political unrest as well as trading opportunities and missionary work instigated migration movements. While some Hadrami Arabs sought work in North America and Europe, other waves of Hadrami migration have followed the monsoon winds of the Indian Ocean to the Zanzibar coast, India, Malaysia and Indonesia. The story of Hadramis in Indonesia has largely been a story of success, in terms of trade, politics, education and religious activities. Despite continual debate regarding what constitutes Indonesian Hadrami identity, the author argues that they are still an Indonesia-oriented group with an Arab signature. This book will be of interest to Southeast Asian and Middle East specialists and scholars in Anthropology and Migration Studies.

The Valley of Mud Brick Architecture Salma Samar Damluji,1992

Arabia and The Isles Harold Ingrams,2013-10-28 First Published in 1998. Harold Ingrams is an officer of the Colonial Administrative Service who has had a varied career. In the war of 1914--18 he served for five years with the King's Shropshire Light Infantry and was wounded in Belgium in 1916. He entered the Colonial Service in 1919 and held appointments in Mauritius and Zanzibar, descriptions of which appear in this book. In Zanzibar Ingrams came into contact with Arabs from southern Arabia, and he learnt from Hadhrami visitors of their native land, so close to the activities of the outer world, and yet so remote from them, so prosperous and so poor, so civilized and so savage. The Hadhranlaut is indeed a country of contrasts, with its wealthy Seyyids and its impoverished peasants, its handsome towns, country houses and estates, and its turbulent tribes, banditry and blood feuds. Although part of the British Protectorate of Aden, the wide valley of the Hadhranlaut had claimed isolated by its natural barriers of mountains on the south and desert on the north.

Sufis and Scholars of the Sea Anne Bang,2004-06-01 Anne Bang focuses on the ways in which a particular Islamic brotherhood, or 'tariqa', the tariqa Alawiyya, spread, maintained and propagated their particular brand of the Islamic faith. Originating in the South-Yemeni region of Hadramawt, the Alawi tariqa mainly spread along the coast of the Indian Ocean. The Alawis are here portrayed as one of many cultural mediators in the multi-ethnic, multi-religious Indian Ocean world in the era of European colonialism.

1,000 Places to See Before You Die Patricia Schultz,2015-07-01 The world's bestselling travel book is back in a more informative, more experiential, more budget-friendly full-color edition. A #1 New York Times bestseller, 1,000 Places reinvented the idea of travel book as both wish list and practical guide. As Newsweek wrote, it "tells you what's beautiful, what's fun, and what's just unforgettable— everywhere on earth." And now the best is better. There are 600 full-color photographs. Over 200 entirely new entries, including visits to 28 countries like Lebanon, Croatia, Estonia, and Nicaragua, that were not in the original edition. There is an emphasis on experiences: an entry covers not just Positano or Ravello, but the full 30-mile stretch along the Amalfi Coast. Every entry from the original edition has been readdressed, rewritten, and made fuller, with more suggestions for

places to stay, restaurants to visit, festivals to check out. And throughout, the book is more budget-conscious, starred restaurants and historic hotels such as the Ritz, but also moderately priced gems that don't compromise on atmosphere or charm. The world is calling. Time to answer.

Shanti Sabir Mirza, 2006-12-14 The stories are based primarily on real events, which took place in different regions. It exhilarates the knowledge of the customs, traditions, social, cultural and moral values of the different nationalities. Some of the stories cast light, on certain fundamental human weakness. Two hard working persons, Augus and Zain, struggled strenuously to change their fates, but failed. A brave man, Rahim did not care to risk his life to help his neighbors. A charming and beautiful girl, Billo married a man whom she loved, but he already had a wife and children. A curse, befallen on an Indian family taught to love and care for the birds and creatures. Hammar, an old neglected donkey of Shibam, pathetically tells the atrocities of the best creation of God on the animals. A pretty Thai girl Helen, who could not marry her best boy friend, describes her bitter experiences. A poor Javanese girl, Shanti, laments her unfortunate ventures of an arranged marriage to an old person to repay his financial favors to her parents. After the death of her old husband, she married a young person of her choice, and her married life turned into a heaven. Later, Shanti got real satisfaction by helping the poor and needy girls.

Atlas Obscura Joshua Foer, Dylan Thuras, Ella Morton, 2016-09-20 It's time to get off the beaten path. Inspiring equal parts wonder and wanderlust, Atlas Obscura celebrates over 700 of the strangest and most curious places in the world. Talk about a bucket list: here are natural wonders—the dazzling glowworm caves in New Zealand, or a baobab tree in South Africa that's so large it has a pub inside where 15 people can drink comfortably. Architectural marvels, including the M.C. Escher-like stepwells in India. Mind-boggling events, like the Baby Jumping Festival in Spain, where men dressed as devils literally vault over rows of squirming infants. Not to mention the Great Stalacpipe Organ in Virginia, Turkmenistan's 40-year hole of fire called the Gates of Hell, a graveyard for decommissioned ships on the coast of Bangladesh, eccentric bone museums in Italy, or a weather-forecasting invention that was powered by leeches, still on display in Devon, England. Created by Joshua Foer, Dylan Thuras and Ella Morton, ATLAS OBSCURA revels in the weird, the unexpected, the overlooked, the hidden and the mysterious. Every page expands our sense of how strange and marvelous the world really is. And with its compelling descriptions, hundreds of photographs, surprising charts, maps for every region of the world, it is a book to enter anywhere, and will be as appealing to the armchair traveler as the die-hard adventurer. Anyone can be a tourist. ATLAS OBSCURA is for the explorer.

My Shadow on the Clouds Mike Kelley, 2015-05-07 This is an amazing account

of the author's life as a British expatriate, when he spent more than twenty-seven years within some of the most radical countries on earth; including, Libya, Yemen and Sudan. A fascinating story relating how he got caught up in the First Gulf War, and the civil wars in both Yemen and Sudan. He was at a gas plant when it exploded, held captive by Al Qaeda in Yemen, and evacuated by the French Foreign Legion. He saw beauty and horror, met with radical Islamists as well as an Imam preacher of peace. Here you will find tears and laughter along with a first-hand account of world events

Atlas Obscura, 2nd Edition Joshua Foer, Ella Morton, Dylan Thuras, 2019-10-15 Discover wonder. "A wanderlust-whetting cabinet of curiosities on paper."—New York Times Inspiring equal parts wonder and wanderlust, *Atlas Obscura* is a phenomenon of a travel book that shot to the top of bestseller lists when it was first published and changed the way we think about the world, expanding our sense of how strange and marvelous it really is. This second edition takes readers to even more curious and unusual destinations, with more than 100 new places, dozens and dozens of new photographs, and two very special features: twelve city guides, covering Berlin, Budapest, Buenos Aires, Cairo, London, Los Angeles, Mexico City, Moscow, New York City, Paris, Shanghai, and Tokyo. Plus a foldout map with a dream itinerary for the ultimate around-the-world road trip. More a cabinet of curiosities than traditional guidebook, *Atlas Obscura* revels in the unexpected, the overlooked, the bizarre, and the mysterious. Here are natural wonders, like the dazzling glowworm caves in New Zealand, or a baobab tree in South Africa so large it has a pub inside where 15 people can sit and drink comfortably. Architectural marvels, including the M. C. Escher-like stepwells in India. Mind-boggling events, like the Baby-Jumping Festival in Spain—and no, it's not the babies doing the jumping, but masked men dressed as devils who vault over rows of squirming infants. Every page gets to the very core of why humans want to travel in the first place: to be delighted and disoriented, uprooted from the familiar and amazed by the new. With its compelling descriptions, hundreds of photographs, surprising charts, maps for every region of the world, and new city guides, it is a book you can open anywhere and be transported. But proceed with caution: It's almost impossible not to turn to the next entry, and the next, and the next.

Spaceship in the Desert Gökçe Günel, 2019-02-14 In 2006 Abu Dhabi launched an ambitious project to construct the world's first zero-carbon city: Masdar City. In *Spaceship in the Desert* Gökçe Günel examines the development and construction of Masdar City's renewable energy and clean technology infrastructures, providing an illuminating portrait of an international group of engineers, designers, and students who attempted to build a post-oil future in Abu Dhabi. While many of Masdar's initiatives—such as developing a new energy currency and a driverless rapid transit network—have stalled or not met expectations, Günel analyzes how these initiatives contributed to rendering the future a thinly disguised version of the fossil-fueled present. *Spaceship in the Desert* tells the story of Masdar, at once a "utopia" sponsored by the Emirati government, and a well-resourced company involving different actors who participated in the project, each with their own agendas and desires.

Yemen Endures Ginny Hill, 2017-08-01 Why is Saudi Arabia, the world's largest oil exporter, involved in a costly and merciless war against its mountainous southern neighbor Yemen, the poorest country in the Middle East? When the Saudis attacked the hitherto obscure Houthi militia, which they believed had Iranian backing, to oust Yemen's government in 2015, they expected an easy victory. They appealed for Western help and bought weapons worth billions of dollars from Britain and America; yet two years later the Houthis, a unique Shia sect, have the upper hand. In her revealing portrait of modern Yemen, Ginny Hill delves into its recent history, dominated by the enduring and pernicious influence of career dictator Ali Abdullah Saleh, who ruled for three decades before being forced out by street protests in 2011.

Saleh masterminded patronage networks that kept the state weak, allowing conflict, social inequality and terrorism to flourish. In the chaos that follows his departure, civil war and regional interference plague the country while separatist groups, Al-Qaeda and ISIS compete to exploit the broken state. And yet, Yemen endures.

Screening of bioactive compounds from Cucurbitaceae family edible plants of Bangladesh - Cucurbita pepo Linn.: A case study Shibam Mondal, 2017-09-21 Medicinal plants are rich sources of bioactive compounds and thus serve as important raw material for drug production. It has been established that those plants synthesize and accumulate some secondary metabolites like alkaloids, glycosides, tannins, volatile oils etc. that may possess a great potential for biological activity and can be a curative agent in therapeutic purposes. Medicinal plants are also related to modern medicine. Some preparations may also contain substances other than the drug for the purpose of increasing therapeutic effect and decreasing adverse effects. Therapeutic use of plants continued with the progress of civilization and development of human knowledge. Scientists endeavored to isolate different constituents from plants and put them into the biological system and perform pharmacological tests to identify and isolate therapeutically active compounds, which have been used to prepare modern medicine. Most companies are involved in producing synthetic drugs, but the synthetic drugs' overlong use has started serious side effects to manifest themselves, so even in the developed countries the interest for natural drugs and natural foods is reviving and we may pay attention to our herbs and medicinal plants.

Doch auch hier kann der Courtney Clan seiner Vergangenheit nicht entkommen. Kinder werden Eltern gegenüber stehen, Brüder Brüdern, in einem Kampf bis aufs Blut, Courtney Blut. World Heritage and National Registers Thomas R. Gensheimer, Celeste Lovette Guichard, 2017-09-08 Historic sites celebrate defining moments in history, memorialize important events and people, and contribute to the character of the locations where they are situated. Heritage designation, both globally and nationally, is an inherently contested issue. As detailed in this volume, concerns of politics and identity, criteria for designation, impacts on communities and sites, and challenges to management planning are central to any understanding of the process by which heritage sites are created, developed, and maintained. The idea for this volume originated at a symposium hosted by the Savannah College of Art and Design. Contributors address such topics as the need to revamp criteria for designation, the effect historic site recognition has on local communities, the challenges encountered in maintaining a site, and issues linked to specific political climates or actions and group identity. The contributors constitute an international cast of leading scholars, employees, and policy-makers, all of whom have had extensive experience with World Heritage and National Register site stewardship. The work will be an invaluable reference for historians, architects, and those committed to the preservation of national monuments.
