Yuan Shikai Patrick Fuliang Shan,2018-11-14 Yuan Shikai (1859–1916) has been both hailed as China's George Washington for his role in the country's transition from empire to republic and condemned as a counter-revolutionary. *Yuan Shikai: A Reappraisal* sheds new light on the controversial history of this talented administrator and modernizer who endeavoured to establish a new dynasty while serving as the first president of the republic, eventually declaring himself emperor. Drawing on untapped primary sources and recent scholarship, Patrick Fuliang Shan offers a lucid, comprehensive, and critical new interpretation of Yuan's part in shaping modern China.

The Making of the Modern Chinese State Humphrey Ko,2016-12-08 This text addresses the corporate causes of the collapse of the Qing Dynasty and the emergence of modern Republican China. Weaving together political, legal and business histories, it focuses on the key relationship between China, cement and corporations, and demonstrates how the particular circumstances of cement manufacturing in nineteenth- and early twentieth-century China serve to illuminate key aspects of Chinese political economy and illustrate the importance of legal frameworks in the emergence of industrial enterprises. Examining the centrality of legal personality in China's historical story, seen from the angle of cement manufacturing corporations, it offers an alternative historical perspective on the making of the modern Chinese States and delves into the involvement of larger-than-life historical figures of modern China such as Yuan Shikai, Chiang Kai-shek and the revolutionary and the father of modern China, Sun Yat-sen, in the unfolding of these events.

Mao Alexander V. Pantsov,Steven I. Levine,2012-10-02 This major new biography of Mao uses extensive Russian documents previously unavailable to biographers to reveal surprising details about Mao's rise to power and leadership in China. This major new biography of Mao uses extensive Russian documents previously unavailable to biographers to reveal surprising details about Mao's rise to power and his leadership in China. Mao Zedong was one of the most important figures of the twentieth century, the most important in the history of modern China. A complex figure, he was champion of the poor and brutal tyrant, poet and despot. Pantsov and Levine show Mao's relentless drive to succeed, vividly describing his growing role in the nascent

Communist Party of China. They disclose startling facts about his personal life, particularly regarding his health and his lifelong serial affairs with young women. They portray him as the loyal Stalinist that he was, who never broke with the Soviet Union until after Stalin's death. Mao brought his country from poverty and economic backwardness into the modern age and onto the world stage. But he was also responsible for an unprecedented loss of life. The disastrous Great Leap Forward with its accompanying famine and the bloody Cultural Revolution were Mao's creations. Internationally Mao began to distance China from the USSR under Khrushchev and shrewdly renewed relations with the U.S. as a counter to the Soviets. He lived and behaved as China's last emperor.

An Introductory Study on China's Cultural Transformation in Recent Times Yunzhi Geng, 2014-10-22 This book examines in detail the basic trajectory of the cultural transformation and brings to light the extrinsic conditions and intrinsic mechanisms involved. It focuses on the period from after the Opium Wars to the New Culture Movement, as the New Culture Movement can be considered a pivotal phase in the cultural transformation of modern-day China. The New Culture Movement was a revolutionary eruption triggered by the accumulation of all the new qualitative cultural factors since the Opium Wars. Superficially, the movement's goal seemed to be to overthrow the traditional culture. But in essence its true objective was to conduct an overall "screening" of that culture. The book elaborates a broad variety of points in this context, including: the ideological and cultural evolution following the Opium Wars; the pressing challenges faced by "Zhong Ti"; the initial shaping of social, public and cultural spaces and major trends in ideological and cultural transformation at the end of the Qing Dynasty; the political disarray and conflicts between the new and old ideology in the first years of the Republic; the rise of the New Culture Movement; and the role of conservatism in the transition to a modern culture.
