The Bidens Ben Schreckinger, 2021-09-21 A deeply reported exploration of Joe Biden as told through his extended family. Coming off of the 2020 election,

THE BIDENS tells the Biden Family story in full, from the secrets lurking in the deep recesses of Joe's family tree to his son Hunter's foreign deal-making spree—and the Trump gang's ham-handed efforts to exploit it. On November 3, Americans did not just elect Joe Biden: They got a package deal. The tight-knit Biden family—siblings, children, in-laws, and beyond—is coming right along with him. They are sure to play a defining role in his presidency, just as they have in every other one of his endeavors. Inside, you'll find these and other stories and revelations about the Biden family, including: Joe's childhood, the stunning 1972 Senate upset engineered by his sister Valerie, and the car accident that took the lives of his first wife and infant daughter soon after Joe's early years in the Senate and his role in the creation of the cozy "Delaware Way" of conducting politics. The Biden brothers' business escapades, including the '70s rock club rivalry that pitted Jim Biden against Jill's first husband and ended in a banking scandal. The Delaware lawman who oversaw an FBI investigation into Joe's 2007 campaign fundraising and now has Hunter in his sights. Hunter's surprisingly close friendship with his Fox News antagonist, Tucker Carlson. What Steve Bannon really hoped to accomplish by giving the contents of "the Laptop from Hell" to the New York Post. New evidence that sheds light on the authenticity of Hunter's alleged computer files. Like the Kennedys before them, the Bidens are a tight-knit, idealistic Irish Catholic clan with good looks, dynastic ambitions, and serious personal problems. As THE BIDENS reveals, the best way to understand Joe Biden—his values, fears, and motives—is to understand his family: Their Irish (and not-so-Irish) roots, their place in the Delaware pecking order, their dodgy business deals, and their personal struggles and triumphs alike.

I Love Being a Freak! Kerrita Mayfield, 2008 This mixed methods dissertation uses survey research and the creation of a single case study to explore the ways adolescent girls create worlds of power to navigate high school and its concomitant curricula from the classroom margins. Incorporating a feminist methodology, the theoretical frameworks are Critical Education Theory in concert with Feminist Standpoint Theory to explore the interaction of the Case Study Girls with the cross-section (N=152) of their female high school peers. The Cronbach's Alpha for the survey instrument created for this study is .723. Statistical analysis via a paired samples t-test revealed significance of the means between a girls' sense of power with classroom processes and these same girls' feeling of efficacy exerting peer-based power. (Classroom Power M = 3.64, With Peers and Others M = 3.24). The qualitative analysis shows that the Case Study Girls are aware of and derive personal identity from their status as a quiet observer of the high school classroom margins. Aside from interviews with the case study girls, their primary (female) parent and their designated power teachers, additional

postmodern qualitative artifacts were created like sociograms of student and teacher interaction in the power classrooms, collages from a distinctly female point of view, and the case study girls' interpretation of current media and texts. The research site is the Inter-Rocky Mountain West.

Focus On: 100 Most Popular Fox Network Shows Wikipedia contributors, *Tools of War* Syed Ramsey, 2016-09-01 There are a wide range of ancient weapons from around the globe. Ancient weapons are often advancements on the earlier phase of weapons development, the primitive weapons man first created for hunting and warfare. However, some have no primitive predecessors, like the sword. Swords can only be crafted through a forging process that had not been invented in the earliest phase of weapon construction. Ancient weapons come in three forms, ranged weapons, melee (close combat) and siege weapons. Many of these weapons, like the sword, are almost universally known while others like the bizarre hunga-munga are little known and defy classification. The age of ancient weapons technically ended with the dawn of the medieval period, but these human powered weapons continued to dominate battlefields up until the ascendance of firearms. However, they can still be found on battlefields up to this very day. This book has been written keeping in view the requirements of undergraduate and postgraduate students and research scholars in the area of Military History & weapons and warfare.
