*The Garland Handbook of African Music* Ruth M. Stone,2010-04-02 The Garland Handbook of African Music is comprised of essays from The Garland Encyclopedia of World Music: Volume 1, Africa, (1997). Revised and updated, the essays offer detailed, regional studies of the different musical cultures of Africa and examine the ways in which music helps to define the identity of this particular area. Part One provides an in-depth introduction to Africa. Part Two focuses on issues and processes, such as notation and oral tradition, dance in communal life, and intellectual property. Part Three focuses on the different regions, countries, and cultures of Africa with selected regional case studies. The second edition has been expanded to include exciting new scholarship that has been conducted since the first edition was published. Questions for Critical Thinking at the end of each major section guide and focus attention on what musical and cultural issues arise when one studies the music of Africa -- issues that might not occur in the study of other musics of the world. An accompanying audio compact disc offers musical examples of some of the music of Africa.

*Genji & Heike* ,1994-06-01 The Tale of Genji and The Tale of the Heike are the two major works of classical Japanese prose. The complete versions of both works are too long to be taught in one term, and this abridgement answers the need for a one-volume edition of both works suitable for use in survey courses in classical Japanese literature or world literature in translation and by the general reader daunted by the complete works. The translator has selected representative portions of the two texts with a view to shaping the abridgments into coherent, aesthetically acceptable wholes. Often called the world's earliest novel, The Tale of Genji, by Murasaki Shikibu, is a poetic evocation of aristocratic life in eleventh-century Japan, a period of brilliant cultural efflorescence. This new translation focuses on important events in the life of its main character, Genji. It traces the full length of Genji's relationship with Murasaki, the deepest and most enduring of his emotional attachments, and contains all or parts of 10 of the 41 chapters in which Genji figures, including the Broom Tree chapter, which provides a reprise of the themes of the book. In romanticized but essentially truthful fashion, The Tale of the Heike describes the late twelfth-century political intrigues and battlefield clashes that led to the eclipse of the Kyoto court and the establishment of a military government by the rival Minamotho (Genji) clan. Its underlying theme, the evanescence of worldly things, echoes some of the concerns of the Genji, but its language preserves many traces of oral composition, and its vigor and expansiveness contrast sharply with the pensive, elegant tone of the Genji. The selections of the Heike, about 40 percent of the work, are taken from the translator's complete edition, which received great acclaim: this version of the Heike is superb and indeed reveals to English-language readers for the first time the full scope, grandeur, and literary richness of the work.—Journal of Asian Studies For both the Genji and the Heike abridgments, the translator has provided introductions, headnote summaries, and other supplementary materials designed to help readers follow the sometimes confused story lines and keep the characters straight. The book also includes an appendix,

a glossary, a bibliography, and two maps.

A String of Flowers, Untied . . . Murasaki Shikibu,2001-12-01 Expressions of passion and heartbreak, written by Murasaki Shikibu 1,000 years ago, transcend time and culture in this new translation of the poetry in the first 33 chapters of The Tale of Genji. It is the relationship between the novel's characters and the poetry that creates the beauty and sustained erotic tone of Lady Murasaki's story. For the first time, these 400+ poems are presented in the increasingly popular format of tanka (5-7-5-7-7), along with extended notes that reveal the hidden details and depth of meaning in Murasaki's real and fictional worlds.

*The Poetry Contest in Six Hundred Rounds (2 vols)* Thomas E. McAuley,2019-12-02 For the monumental Poetry Competition in Six Hundred Rounds (Roppyakuban uta'awase), twelve poets each provided one hundred waka poems, fifty on seasonal topics and fifty on love, which were matched, critiqued by the participants and judged by Fujiwara no Shunzei, the premiere poet of his age. Its critical importance is heightened by the addition of a lengthy Appeal (chinjō) against Shunzei's judgements by the conservative poet and monk, Kenshō. It is one of the key texts for understanding poetic and critical practice in late twelfth century Japan, and of the conflict between conservative and innovative poets. The Competition and Appeal are presented here for the first time in complete English translation with accompanying commentary and explanatory notes by Thomas McAuley.

Heterogenia Linguistico, Vol. 4 Salt Seno,2022-12-13 Treacherous roads force Hakaba and his party to wait out the winter in the mountain village. The extra time affords Hakaba the opportunity to puzzle out the lamias' rhythmic tap language as well as decipher the meaning of the professor's recently uncovered papers. Though only a few scraps could be recovered, the professor's sense of foreboding and urgency are apparent. If humans cannot understand the Netherworld, the threat against his loved ones may become dire, instilling a fear that hits Hakaba closer to home more than ever before...

*Language, Normativity and Europeanisation* Heiko Motschenbacher, 2016-12-23 This book focuses on linguistic practices of identity construction in a popular culture media context, the Eurovision Song Contest. Subscribing to a normativity-based approach to critical discourse analysis, it studies Europeanisation as it surfaces at the discursive interface of European, national and sexual identities in Eurovision lyrics and performances. Research in critical discourse analysis that deals with Europeanisation, or the discursive work involved in European identity formation, has so far mainly studied data from EU political contexts that illustrate a top-down approach to what Europeanness means. The present book complements this earlier research in several ways, focusing on the linguistic construction of identities, and its interrelation with non-linguistic modes of signification in the Eurovision Song Contest. Discursive mechanisms that prove to be central for the normative shifts of Europeanisation in the given context are de-essentialisation, inclusion, camp, crossing and languaging.
