Budo Secrets John Stevens,2002-11-12 In budo—which can be translated as the way of brave and enlightened activity—martial arts and spirituality merge at the highest level of skill. Budo Secrets contains the essential teachings of budo's greatest masters of Kendo, Karate, Judo, Aikido, and other disciplines. Timely and instructive, these writings are not just for martial artists—they're for anyone who wants to live life more courageously, with a greater sense of personal confidence and self-control, and with a deeper understanding of others. John Stevens has gathered an eclectic and historically rich collection of teachings that include principles and practice guidelines from training manuals and transmission scrolls, excerpts of texts on budo philosophy, and instructional tales gathered from a number of sources. Since many of the martial arts masters were also fine painters and calligraphers and used brush and ink as a teaching medium, Stevens has included their artwork throughout with explanation and commentary.

Samurai Mind ,2011-06-28 The Samurai Mind is a collection of five seminal Japanese texts that convey the essence of traditional samurai philosophy and ethics from very different, but complementary points of view. These texts range from the ferocious to the esoteric—with their common thread being the importance of mastering one's own mind as the key to overcoming opponents. They were written from the mid-18th to early 19th century, The authors were acknowledged master samurai warriors keen to address a broader audience beyond their circle of students and acolytes. Their aim was to explain their craft to the outside world, and they do so with great insight. The classic Japanese texts are: The Mysterious Skills of the Old Cat Sword Theory A Treatise on the Sword Joseishi's Discussions on the Sword Ignorance in Swordsmanship Four of the five texts presented here are translated into English for the first time making The Samurai Mind an important addition to the literature on Japanese martial arts and a valuable resource for all martial artists. This samurai philosophy book is an informative look at the samurai of Japan with particular emphasis on the warrior's relationship with his samurai sword—the most fabled weapon in history—and on his need to cultivate mental discipline to achieve his goals.

Violencia, discurso y público infantil Luis Sánchez Corral,2005 El propósito de este libro es analizar de qué manera la 'violencia como acción' se convierte, mediante instancias semióticas y narrativas, en 'violencia como discurso'. Desde esta perspectiva es posible determinar el concepto de 'violencia simbólica' y, en consecuencia, estudiar sus efectos de sentido y los correspondientes procesos cognitivos así generados. La finalidad no es otra que obtener estrategias para explicar por qué determinados segmentos de población, especialmente los niños y los jóvenes, se sienten fascinados por el lenguaje de la violencia.Se indaga, por una parte, sobre la 'dimensión pragmática' de este discurso como la transformación que experimenta el agresor desde la carencia (o frustración inicial) hasta la 'satisfacción de la carencia' (o estado de placer conseguido mediante la ejecución de la gresividad); por otra parte, se investiga asimismo la 'dimensión cognitiva' de los enunciados, para ver de qué manera el hacer persuasivo (o seductor) del enunciador dirige y gobierna el hacer interpretativo (o seducido) de los destinatarios

Art in the Encounter of Nations Bert Winther-Tamaki,2001-01-01 Art in the Encounter of Nations is the first book-length study of interactions between the Japanese and American art worlds in the early postwar years. It brings to light a rich exchange of opinions and debates regarding the relationship between the art of the two nations. The author begins with an examination of the Japanese margins of American Abstract Expressionism. Taking a contrapuntal approach, he investigates four abstract painters: two Japanese artists who moved to the United States (Okada Kenzo and Hasegawa Saburo) and two European Americans whose work is often associated with Japanese calligraphy (Mark Tobey and Franz Kline). He then looks at the work of two young scions of the calligraphy and pottery worlds of Japan -- Morita Shiryu and Yagi Kazuo -- and argues that their radical innovations in these ancient arts were, in part, provoked by their sense of a threat posed by Euro-American modernity. The final chapter is devoted to the career of Japanese American sculptor and designer Isamu Noguchi, whose feeling of affiliation was directed to both the U.S. and Japan in shifting ratios through a series of public and private places, each posing unique opportunities for exploring national distinctions.
