The Shoebill Do Your Kids Know This? Tanya Turner,2016-12-27 The Shoebill is a species of bird. It looks a bit like a stork, that's why it's also called a Shoe-billed Stork - but it's not really a stork. Actually, the internal structure of the Shoebill is closer to that of the Pelicans, but it is not a species of Pelican, either. Its biochemical structure, on the other hand, can be compared to that of Herons. Even still, it's not a type of Heron. Needless to say, the Shoebill is its own species - but it's a very special kind of bird - because it has the qualities of many other types of birds. As its name suggests, it is indeed shoe-billed. Simply put, it has a bill or a beak that's shaped like a shoe. This is true whether you look at its beak in the front view or side view. Now you know why it's called a Shoebill, but there's more to know about this amazing bird - as you are about to see in this book.

Storks, Ibises and Spoonbills of the World James Hancock,James A. Kushlan,M. Philip Kahl,2010-09-30 Some of the world's largest and most spectacular birds are to be found among this group of wading birds. Tragically, they also include many of the world's most endangered species, as changes in land use erode their wetland habitats. Some like the White Stork have lived alongside humans for hundreds of years and are well known from numerous studies. Others, like the Storm's stork and ibises of West Africa, South-East Asia and South America live so secluded a life in the remote corners of the globe that they will probably be extinct before even the most basic details of their biology are known. In this monograph, three authors and two artists have combined their skills to capture what is known of this group of wading birds. The text opens with general chapters on taxonomy and feeding, breeding and behavior, followed by detailed coverage of each species. Feeding behaviour species list: American wood stork - mycteria americana: milky stork - mycteria cinerea: yellowbilled stork - mycteria ibis: painted stork - mycteria leucocephala: African openbill stork - anastomus oscitans: Asian openbill stork - anastomus lamelligerus: black stork - ciconia nigra: adbim's stork - ciconia abdimii: woolynecked stork - ciconia episcopus: storm's stork - ciconia stormi: maguari stork - ciconia maguari: white stork - ciconia ciconia: oriental white stork - ciconia boyciana: blacknecked stork - ephippiorhynchus asiaticus: saddlebill stork - ephipporhynchus sengalensis: jabiru stork - jabiru myceteria: lesser adjutant stork - leptopilos javanicus: greater adjutant stork - leptoptilos dubius: marabou stork: leptoptilos crumeniferus: shoebill - balaeniceps rex: American white ibis - eudocimus ruber: barefaced ibis - phimosus infuscatus: glossy ibis - plegadis falcinellus: whitefaced ibis - plegadis chihi: puna ibis - plegadis ridgwayi: sharptailed ibis - cercibis oxycerca: plumbeous ibis - harpiiprion caerulscens: buffnecked ibis - theristicus caudatus: green ibis - mesembrinibis cayennensis: hadada ibis - bostrychia hagedash: wattled ibis - bostrychia carunculata: oliv ibis - bostrychia olivacea: spotbreasted ibis - bostrychia reae madagascar crested this - loghotihis cristata: sacred this - threskiornis aethiopicus: oriental white ibis - threskionis melanoaphaius: Australian white ibis - threskiornis molucca: strawnecked ibis - threskiornis spinicollis: waldrapp ibis - eronticus eremita: bald ibis - geronticus calvus: black ibis - pseudibis papillosa: giant ibis - thaumatibis gigantea: oriental crested ibis - nipponia

Rwanda Philip Briggs,2023-12-06 Now into its eighth edition and written by Philip Briggs, the world's leading author of African guidebooks, Bradt's Rwanda has been the go-to guide for visitors to the 'Land of a Thousand Hills' for more than 20 years. Still the only standalone guide in English to this increasingly popular destination, it remains in a class of its own for in-depth information. With fresh research into developments across the country, Bradt's Rwanda includes expanded coverage of Gishwati-Mukura National Park, which opened to tourism in 2021, and up-to-date details of rapidly modernising Kigali, considered Africa's cleanest city. Rwanda continues to change and develop at an unprecedented pace - no country has a higher proportion of female parliamentarians - and there's hardly a more accessible part of Africa. It's no less intriguing for the convenience, however, and Rwanda's superlative natural attractions constantly improve, with growing animal populations, as in Akagera National Park, where Africa's Big Five (rhino, lion, leopard, elephant and buffalo) can be seen. This new edition also includes extensive maps and natural history information, while details of kayak and canoe excursions on Lake Kivu and the Mukungwa River complement advice about staying on tea plantations at Sorwathe or Gisovu. It contains everything you need to know about tracking mountain gorillas in Volcanoes National Park (workplace of primatologist Dian Fossey of Gorillas in the Mist fame) and chimpanzees in Nyungwe National Park (East Africa's largest surviving montane forest, harbouring numerous endemic birds and primates) and Gishwati-Mukura (which is also the only location for the rare golden monkey outside the Virunga mountains). Also covered are Nyanza, with its hilltop Rukari King's Palace Museum, and the Ethnographic Museum of Rwanda, the top cultural site in Butare (Huye). A chapter on nearby cities and national parks provides key necessary information to take an excursion into neighbouring DRC, including how to see lowland gorillas. As not only the most in-depth guide available in English, but also the guide with the longest history in the country itself, Bradt's Rwanda is the indispensable companion for visitors, including wildlife enthusiasts and Africa aficionados.

The Origin and Evolution of Birds Alan Feduccia,Professor Alan Feduccia,1999-01-01 An exploration of all that is known about the origin of birds and of avian flight. It draws on fossil evidence

and studies of the structure and biochemistry of living birds to present knowledge and data on avian evolution and to propose a new model of this evolutionary process.

Zambia Safari Guide Chris McIntyre,Susan McIntyre,2023-08-11 For over 25 years Bradt’s Zambia Safari Guide has been widely acknowledged as the best guidebook to this African country, and it is now the only dedicated guide to Zambia’s world-renowned safari destinations. Combining in-depth reviews of lodges, camps and other accommodation (from a stately home to a contemporary woven treehouse), detailed descriptions of safari locations and operators, extensive practical details, local insights, a brand new 48-page colour wildlife guide and curated coverage of the main access points of Lusaka and Livingstone, this is the ‘must-have’ guidebook to travel planning and exploring the country’s wildlife-rich safari regions. Lying in the heart of the continent, Zambia is deepest, darkest Africa at its most appealing. Many visitors are drawn initially to the majestic Victoria Falls. Others come for the glory of Zambia’s stellar national parks: the South Luangwa, the Lower Zambezi and Kafue. For seasoned safari goers, Zambia is the home of the walking safari; for adventurous travellers, it is about canoeing past hippos on the Lower Zambezi – or diving into a whole new world of freshwater fish in Lake Tanganyika. Experienced travel writers Chris and Susie McIntyre – both Africa experts, with Susie having grown up in Zambia – use their decades of safari experience and in-depth knowledge of the Zambian safari scene to provide accurate, honest and upbeat descriptions, anecdotes and advice. To help readers make informed choices, the authors explain where to find top-quality guiding and detail Zambia’s top spots for wildlife and wilderness (including GPS co-ordinates for those who prefer self-drive holidays). They advise on the best walking safaris plus the ‘silent safaris’ available in electric vehicles and boats, and suggest how best to combine different safari experiences into a fulfilling itinerary in a country where nearly one-third of the land area is reserved for wildlife. Whether you are a wildlife enthusiast or Africa addict, an escapist seeking wilderness or a family craving adventure; and whether you prefer a local operator to make your arrangements or independent travel, Bradt’s Zambia Safari Guide is the perfect travel companion.

Peacocks & Picathartes Rupert Watson,2020-04-01 Peacocks & Picathartes is a celebration of the diversity of African birds, focusing on families that occur only in Africa as well as iconic families and species that, despite having close relatives in other parts of the world, seem to embody something of Africa. Watson’s anecdotal style captures vividly his encounters with prized species, such the secretive White-necked Picathartes and the elusive Congo Peacock. He conveys the sheer delight mousebirds take in ‘being what they are’, and reveals the surprise discovery in 1991 of a new partridge in Tanzania’s Udzungwa Mountains. Drawing on precolonial and current-day avian accounts, he offers his own insights based on a lifetime of personal observations in the wilds of Africa – recounting unforgettable expeditions, quirky bird behaviour, jittery taxonomy, moments of rare good luck – and much more. Both informative and entertaining, this book captures the essence of African birdlife, and will appeal to bird enthusiasts across the spectrum. Sales points: Delightful accounts of more than 40 bird families and species, filled with anecdotes and fascinating stories. Brilliant illustrations by a celebrated natural history artist; both informative and entertaining; excellent all-seasons gift for bird and nature enthusiasts.

Bird Illustrations Dover Publications Inc,2005-02-01 With more than 400 accurate black-and-white renderings of 310 species from around the world, this collection will appeal to designers and craftspeople as well as to nature enthusiasts. Includes the Anhinga, Bateleur, Chickadee, American Black Duck, Bald Eagle, Purple Finch, Gadwall, Killdeer, Lammergeier, Mallard, Oldsquaw, Pigeon, Robin, Shoebill, Towhee, and many more.

The Biggest Twitch Alan Davies,Ruth Miller,2010-08-04 This is the story of a birding odyssey, following the authors' quest to smash the world record for the number of species seen in one calendar year.

WTF, Evolution?! Mara Grunbaum,2014-10-07 We all have our off days. Why should Evolution be any different? Maybe Evolution got carried away with an idea that was just a little too crazy—like having the Regal Horned Lizard defend itself by shooting three-foot streams of blood from its eyes. Or maybe Evolution ran out of steam (Memo to Evolution: The Irrawaddy Dolphin looks like a prototype that should have been left on the drawing board). Or maybe Evolution was feeling cheeky—a fish with hands? Joke’s on you, Red Handfish! Or maybe Evolution simply goofed up: How else to explain the overgrown teeth of the babirusas that curl backward over their face? Oops. Mara Grunbaum is a very smart, very funny science writer who celebrates the best—or, really, the worst—of Evolution’s blunders. Here are more than 100 outlandish mammals, reptiles, insects, fish, birds, and other creatures whose very existence leaves us shaking our heads and muttering WTF?! Ms. Grunbaum’s especially brilliant stroke is to personify Evolution as a well-meaning but somewhat oblivious experimenter whose conversations with a skeptical narrator are hilarious. For almost 4 billion years, Evolution has produced a nonstop parade of inflatable noses, bizarre genitalia, and seriously awkward necks. What a comedian!
