New Research on Social Perception John A. Zebrowski,2007 The contemporary concept of social perception is considered to be an umbrella term that includes various other traditional and related phenomena such as person perception, impression and attitude formation, social cognition, attribution, stereotypes, prejudice, social categorisation, and social comparison and implicit personality theories. This book presents research on social perspectives and behavioural responses which follow. These include child perceptions, social class issues, perceived attractiveness theories, occupational prestige and related communication factors.

Inside the Eagle's Head Angelle A. Khachadorian,2010-10-14 The Southwestern Indian Polytechnic Institute (SIPI) is a selfdescribed National American Indian Community College in Albuquerque, New Mexico. SIPI is operated by the Bureau of Indian Affairs, an agency of the U.S. government that has overseen and managed the relationship between the government and American Indian tribes for almost two hundred years. Students at SIPI are registered members of federally recognized American Indian tribes from throughout the contiguous United States and Alaska. A fascinatingly hybridized institution, SIPI attempts to meld two conflicting institutional models—a tribally controlled college or university and a Bureau of Indian Affairs' Indian school—with their unique corporate cultures, rules, and philosophies. Students attempt to cope with the institution and successfully make their way through it by using (consciously or not) an array of metaphorical representations of the school. Students who used discourses of discipline and control compared SIPI to a BIA boarding school, a high school, or a prison, and focused on the school's restrictive policies drawn from the BIA model. Those who used discourses of family and haven emphasized the emotional connection built between students and other members of the SIPI community following the TCU model. Speakers who used discourses of agency and selfreliance asserted that students can define their own experiences at SIPI. Through a series of interviews, this volume examines the ways in which students attempt to accommodate this variety of conflicts and presents an innovative and enlightening look into the contemporary state of American Indian educational institutions.
