Transnational Accounting Dieter Ordelheide,2016-02-17 Considerable effort has been made over the last ten years by such institutions as the EU, OECD, UNO and the IASC towards the harmonisation of accounting standards. It is recognised though that uniformity and true compatibility of financial instruments cannot be achieved while accounting operates in individual national economic and legal environments. A knowledge of national accounting standards and practice continues to be indispensable for the analysis of financial statements. Transnational Accounting is a unique comparative study of accounting standards of fourteen major economic powers, plus the regimes of the IASC and EU. Each chapter is standardised for easy comparison and written by a recognised expert in his or her country. The Editor, The Late Dieter Ordelheide, was Professor of Business Economics at the Johann Wolfgang Goethe-Universität, Frankfurt am Main. This groundbreaking work enables the reader to develop a thorough practical understanding of national accounting practices and be fully at home with financial statements in an international context. Each volume includes a detailed reference matrix listing approximately 100 key accounting subjects and their treatment across all regulatory and accounting regimes.

The Contest for Aboriginal Souls Regina Ganter,2018-05-29 This book covers the missionary activity in Australia conducted by non-English speaking missionaries from Catholic and Protestant mission societies from its beginnings to the end of the mission era. It looks through the eyes of the missionaries and their helpers, as well as incorporating Indigenous perspectives and offering a balanced assessment of missionary endeavour in Australia, attuned to the controversies that surround mission history. It means neither to condemn nor praise, but rather to understand the various responses of Indigenous communities, the intentions of missionaries, the agendas of the mission societies and the many tensions besetting the mission endeavour. It explores a common commitment to the supernatural and the role of intermediaries like local diplomats and evangelists from the Pacific Islands and Philippines, and emphasises the strong role played by non-English speakers in the transcultural Australian mission effort. This book is a companion to the website German Missionaries in Australia – A web-directory of intercultural encounters. The web-directory provides detailed accounts of Australian missions staffed with German speakers. The book reads laterally across the different missions and produces a completely different type of knowledge about missions. The book and its accompanying website are based on a decade of research ranging across mission archives with foreign-language sources that have not previously been accessed for a historiography of Australian missions. 'A remarkable intellectual achievement, compelling reading.' — Dr Niel Gunson 'The range of knowledge on display here is very impressive indeed.' — Professor Peter Monteath

The Penguin Book of Card Games David Parlett,2008-08-07 The Penguin Book of Card Games is the authoritative up-to-date compendium, describing an abundance of games to be played both for

fun and by serious players. Auctions, trumpless hands, cross-ruffing and lurching: card players have a language all of their own. From games of high skill (Bridge) to games of high chance (Newmarket) to trick-taking (Whist) and banking (Pontoon), David Parlett, seasoned specialist in card games, takes us masterfully through the countless games to choose from. Not content to merely show us games with the conventional fifty-two card pack, Parlett covers many games played with other types of cards - are you brave enough to play with Tarot? With a 'working description' of each game, with the rules, variations and origins of each, as well as an appendix of games invented by the author himself, The Penguin Book of Card Games will delight, entertain and inform both the novice and the seasoned player.
