Heather Lynn

Skywatcher Jamie Hogan, 2021-10-05 Tamen longs to see the stars, but none are visible in the light-polluted sky above the fire escape of his urban apartment building. Even in the neighborhood park, the stars are hidden by city lights. This is a story about love and sacrifice: Tamen's mom, a nightshift nurse, finds a way to take him camping. For one magical night on the shore of a wilderness pond, the Milky Way in all its glory belongs to them.

Sky Watcher Heather Lynn, 2019-07-25 Charlotte Harper's life isn't going as she expected. She had to change her course of studies, her ex-boyfriend has hooked up with her best friend, and she misses her mother desperately since her passing. Searching for meaning and direction, she pours herself into her family history, researching her roots. When she learns of a possible ancestor named Elizabeth from the early nineteenth century, who was hung for the crime of witchcraft, she is determined to try to save her fate. Charlotte explores the strength of her Wiccan beliefs and the powers within her stones, preparing a spell to transport herself back in time nearly two centuries. She arrives at a small, sleepy town on the shore of Owasco Lake, New York. Intending to stay just long enough to save her ancestor, she creates a cover story and attempts to fit in, but after waiting for weeks with no word of Elizabeth, she immerses herself in the community. She works in the General Store to earn her keep and uses her knowledge of herbs and medicine to help

those in need. She soon forms strong bonds with those around her, finding herself drawn into the simple and fulfilling life of a bygone era, and even falls in love—more deeply than she ever thought possible. As the deadline of the execution nears, visions of the future begin to plague her and those around her. Can she truly save Elizabeth and undo what happened almost two centuries ago? With two lives on the line, she knows she must face the consequences of meddling with time, even if it costs her everything.

Science fiction, sports, paranormal, realistic life, historical fiction, and fantasy are just a few of the many genres. Books are no higher than a 1.5 reading level, with illustrations on every spread that support visual literacy and draw kids into the text. Dez and Jax are both in the sixth grade. Now they can be Sky Watchers, kids who patrol the sky path to school on their sky bikes. The Sky Watchers protect their schoolmates from spinners, little flat disks that have been programmed to steal bike packs and take them to the ground below. Nobody but the gang kids go below the tree line. It's polluted down there.
