**Ohio under COVID** Katherine Sorrels,Lora Arduser,Danielle Bessett,Vanessa Carbonell,Michelle McGowan,Edward Wallace,2023-04-05 In early March of 2020, Americans watched with uncertain terror

as the novel coronavirus pandemic unfolded. One week later, Ohio announced its first confirmed cases. Just one year later, the state had over a million cases and 18,000 Ohioans had died. What happened in that first pandemic year is not only a story of a public health disaster, but also a story of social disparities and moral dilemmas, of lives and livelihoods turned upside down, and of institutions and safety nets stretched to their limits. Ohio under COVID tells the human story of COVID in Ohio, America's bellwether state. Scholars and practitioners examine the pandemic response from multiple angles, and contributors from numerous walks of life offer moving first-person reflections. Two themes emerge again and again: how the pandemic revealed a deep tension between individual autonomy and the collective good, and how it exacerbated social inequalities in a state divided along social, economic, and political lines. Chapters address topics such as mask mandates, ableism, prisons, food insecurity, access to reproductive health care, and the need for more Black doctors. The book concludes with an interview with Dr. Amy Acton, the state's top public health official at the time COVID hit Ohio. Ohio under COVID captures the devastating impact of the pandemic, both in the public discord it has unearthed and in the unfair burdens it has placed on the groups least equipped to bear them.

*Helping the Hard-core Smoker* Daniel F. Seidman, Lirio S. Covey, 1999 This book constitutes a major new resource for professionals working with hard core smokers and their families. It is designed as a practical, clinically useful and up-to-date guide for all those in a position to intervene: mental health professionals, physicians, dentists, nurses, pharmacists and other health care professionals, clergy, human resource and employee assistance program corporate staff, and teachers and guidance counselors. New research suggests that difficult-to-treat smokers often have emotional problems adjusting to stopping smoking. Some also have psychiatric diagnoses or abuse other substances. These are factors which interfere

with their efforts to quit. Because these difficulties have been poorly understood, hard-core smokers have not been provided with adequate resources and skills to overcome their addiction. These smokers are in need of increasingly comprehensive assessment and treatment. Despite massive public health education about the dangers of cigarette smoking, rates of smoking among the population are no longer declining in the United States and the success rates of clinical programs for smokers remain low. Helping the Hard-Core Smoker seeks to explain why current approaches are often inadequate and how best to help today's highly nicotine-dependent smokers who are struggling with their addiction quit.

*Freedom and Responsibility in Context* Ann Whittle, 2021-10-21

Freedom and Responsibility in Context argues for a contextualist account of freedom and moral responsibility. It aims to challenge the largely unarticulated orthodoxy of invariantism, by arguing that contextualism is crucial to an understanding of both freedom and moral responsibility. The argument for contextualism regarding freedom and moral responsibility focuses upon their respective control conditions. Abilities are argued to be central to an understanding of the control required for freedom and moral responsibility. A unified, ability analysis of control is developed, which supports the thesis that attributions of freedom and moral responsibility are context dependent. The resulting contextualism offers a rapprochement of compatibilism and incompatibilism. By going beyond the false dichotomy of invariant compatibilism and invariant incompatibilism, it is argued that both positions can be given their due, since there is no 'right' answer to

the question of whether or not determinism undermines freedom and moral responsibility.
