SNAP Selling Jill Konrath,2010-05-27 Selling is tougher than ever before. Potential customers are under extreme pressure to do more with less money, less time, and fewer resources, and they're wary of anyone who tries to get them to buy or change anything. Under such extreme conditions, yesterday's sales strategies no longer work. No matter how great your offering, you face the daunting task of making yourself appear credible, relevant, and valuable. Now, internationally recognized sales strategist Jill Konrath shows how to overcome these obstacles to get more appointments, speed up decisions, and win sales with these short-fused, frazzled customers. Drawing on her years of selling experience, as well as the stories of other successful sellers, she offers four SNAP Rules: -Keep it Simple: When you make things easy and clear for your customers, they'll change from the status quo. -Be iNvaluable: You have to stand out by being the person your customers can't live without. -Always Align: To be relevant, make sure you're in synch with your customers' objectives, issues, and needs. - Raise Priorities: To maintain momentum, keep the most important decisions at the forefront of their mind. SNAP Selling is an easy-to-read, easy-to-use guide for any seller in today's increasingly frenzied environment.

Media Selling Charles Warner,William Lederer,Brian Moroz,2020-07-16 The must-have resource for media selling in today's technology-driven environment The revised and updated fifth edition of Media Selling is an essential guide to our technology-driven, programmatic, micro-targeted, mobile, multi-channel media ecosystem. Today, digital advertising has surpassed television as the number-one ad investment platform, and Google and Facebook dominate the digital advertising marketplace. The authors highlight the new sales processes and approaches that will give media salespeople a leg up on the competition in our post-Internet media era. The book explores the automated programmatic buying and selling of digital ad inventory that is disrupting both media buyers and media salespeople. In addition to information on disruptive technologies in media sales, the book explores sales ethics, communication theory and listening, emotional intelligence, creating value, the principles of persuasion, sales stage management guides, and sample in-person, phone, and email sales scripts. Media Selling offers media sellers a customer-first and problem-solving sales approach. The updated fifth edition: Contains insight from digital experts into how 82.5% of digital ad inventory is bought and sold programmatically Reveals how to conduct research on Google Analytics Identifies how media

salespeople can offer cross-platform and multi-channel solutions to prospects' advertising and marketing challenge Includes insights into selling and distribution of podcasts Includes links to downloadable case studies, presentations, and planners on the Media Selling website Includes an extensive Glossary of Digital Advertising terms Written for students in communications, radio-TV, and mass communication, Media Selling is the classic work in the field. The updated edition provides an indispensable tool for learning, training, and mastering sales techniques for digital media.

Tumbling for Amateurs James Tayloe Gwathmey, 1897

Christmas Snap-Ups Father Christmas 2 Set of Six Ta Tango Books, 1996-07

Tumbling for Amateurs Matthew Gwathmey, 2023-09-19 A reimagining of an instructional text on tumbling supports poems about the amateurishness of being human. *Tumbling for Amateurs* is a reimagining of James Tayloe Gwathmey's 1910 book of the same name, published as part of Spalding's Athletic Library. Bookended with "Propositions" on why tumbling is a skill that everyone should learn and "Extracts from Letters of Support," each verso poem in this collection pairs with a recto illustration based on drawings from the source text. In the spirit of William Blake's *Songs of Innocence and of Experience*, word and image work for each other, creating something more than just an instructional manual. Tumbling is, well, a metaphor for everything. And we all are, well, amateurs. Experimentation abounds in these poems and manipulated pictures. There are anaphoras, list sonnets, erasures, palimpsests and concrete poems, all working from tumbling's limited vocabulary and central focus of acrobatics and gymnastics. In this experimentation of form and text is a search for the lyric, for an emotional connection when one isn't always possible, in bodies, in movement, in desire. "We measure our lives by what our bodies can do." Matthew Gwathmey's poems, springboarding from a genre of fitness manual popular in the early twentieth century, tumble us into the present through tests gamily set for body and mind. As ripped as his gymnast protagonists—evoked so fetchingly in the book's illustrations—Gwathmey writes a poetry eschewing the lyrical in favour of a stripped-down, athletic language that gives shape to 'what must remain / nameless.' There're so many ways to read ourselves into *Tumbling for Amateurs*. Go toe to toe with these poems and they'll tone up your grip on what poetry is. – John Barton, author of *Lost Family* "We have no other way to touch each other. / Really no other way to touch each other. / We seek this particular exercise because / we have no other way to touch each other. Like the tumbling acts from which they spring, Gwathmey's poems are delightfully performative. They leap, loop, and reconfigure familiar forms into fresh and acrobatic new intimacies. Slyly queering his source text — an early 20th century tumbling manual for young men

salvaged from the dusty closet of family history – Gwathmey transforms instruction into seduction as he conducts a tender and playful archeology of desire. – Suzanne Buffam, author of *A Pillow Book*
Gwathmey's poems go together like a troupe, somersaulting through the vocabulary of the way a body moves. They turn the still past into this moving present. – Paul Legault, author of *The Tower*

Intellectual Property Management for Start-ups Martin A. Bader, Sevim Süzer, Ilu-Melchior, 2023-02-16 This book examines intellectual property (IP) as an important value driver for start-ups. Businesses of all sizes are inevitably confronted with intellectual property issues at some point, but start-ups and their collaborators face unique challenges and opportunities in IP management. Identifying, generating, and exploiting intellectual property can lead to sustainable competitive advantages and avoidance of risks. Many start-ups sense the complexity of IP management and therefore place their energy elsewhere. However, the clear conclusion to be drawn from this unique collection of contributions is that putting an IP management strategy in place is critical to the successful development of a business. Prof. Dr. Martin A. Bader and Prof. Dr. Sevim Süzer, Ilu-Melchior have years of experience as consultants, entrepreneurs, business owners, and researchers where they saw firsthand the need for a comprehensive yet practical resource for start-ups and their key stakeholders. This book explores different perspectives in dealing with IP from six different angles: the start-up's view, the investor's view, the corporation's view, the university's view, the global IP office's view, and the advisor's view. Each section consists of chapters written by leading experts from around the globe including Silicon Valley, Canada, Israel, Switzerland, Germany, Finland, France, Australia, Brazil, India, Japan, Singapore, and South Africa. Contributors bring practical experience from a wide range of sectors, such as information and communication technology, software, artificial intelligence, machine learning, cybersecurity, industrial automation, internet of things, life sciences, pharma, crop science, biotech, medtech, mining, sustainability, climate tech, and even quantum technologies. This timely publication serves as a guidebook for entrepreneurs and other key stakeholders in the start-up ecosystem. It empowers founders to develop their own IP management strategy to mitigate risk, create and capture value, and lay the groundwork for sustainable growth. An essential reference for start-ups to achieve business excellence. "This edited book volume offers valuable insights, bringing together perspectives of key stakeholder groups from a wide variety of innovation ecosystems – an invaluable resource." –Carsten Fink, Chief Economist, World Intellectual

Property Organization, Geneva “A timely book for those wanting a clear overview of the issues the different players encounter in the start-up ecosystem. A useful resource indeed. Congratulations to the editors and team.”—Audrey Yap, Managing Partner YUSARN AUDREY LLC, Past President LESI, Chairman Singapore Innovation & Productivity Institute, Singapore “A ‘must read’ for all innovators in the start-up world. It is truly a fantastic book and one I would recommend being bought and read (in full)!”—Laurence Freeman, Professor (Adjunct), CU Denver Business School, Jake Jabs Center for Entrepreneurship, Denver, Colorado, United States/div

Athletic Footwear and Orthoses in Sports Medicine Matthew B. Werd,E. Leslie Knight,Paul R. Langer,2017-05-27 Now in a revised and expanded second edition, including an expanded section on running footwear and additional sports-specific recommendations, this updated, practical resource provides a concise and logical approach to prescribing footwear that will maximize performance and minimize injury in athletes. From fundamentals – including athletic foot types, basic biomechanics and gait evaluation – to step-by-step guidance through assessment and prescription of shoes, socks, lacing, inserts, and orthoses, this book is both comprehensive and easily accessible. A new section has been added to cover the array of different considerations for running footwear (barefoot, minimalist, maximalist), as well as new sport-specific recommendations. As in the previous edition, referral, coding and billing are also addressed. Photographs and drawings clearly illustrate key concepts, and wherever relevant, the authors have incorporated evidence-based medicine. By presenting new and updated essential information in a user-friendly format, *Athletic Footwear and Orthoses in Sports Medicine, Second Edition* will prove to be invaluable for sports medicine physicians, podiatrists, orthopedists, physical therapists, and athletic trainers.

End-User Development Daniela Fogli,Daniel Tetteroo,Barbara Rita Barricelli,Simone Borsci,Panos Markopoulos,George A. Papadopoulos,2021-06-23 This book constitutes the proceedings of the 8th International Conference on End-User Development, IS-EUD 2021, held in July 2021. Due to COVID-19 pandemic the conference was held virtually. The paper track received 26 submissions, of which 11 full and 4 short papers were selected after a rigorous double-blind review process. The

papers focus on “Democratizing AI development”, namely on EUD for AI-based systems, where end users are called-on to become end-user developers of intelligent agents, digital twins, collaborative systems and social robots.

Research on the Communication Effects and Mass Media Credibility in China Guoming Yu,2022-10-29 This book establishes a measurement index to quantify China’s mass media public credibility, based on extensive research and the encapsulation of measurement theories and approaches related to media public credibility, as well as numerous empirical case studies from the international academic community over the past hundred years. The investigation into the current state of Chinese mass media public credibility and discussion on practical approaches to enhancing such

public credibility is highly significant in the context of research on media public credibility. The book focuses on two fundamental issues: i) investigating the basic factors the Chinese audience values as the yardstick for media credibility, and ii) formulating a media public credibility measurement scale. Relying on data from investigations, the authors analyze the importance of various assessment benchmarks for measuring media public credibility and the characteristics of public credibility assessment. Lastly, a measurement scale is created by screening and analyzing measurement indices with statistical methods such as exploratory and authenticated factor analyses and credibility and validity testing, which is of high theoretical and practical scientific value.
