Snapper Brian Kimberling,2013-04-23 A great, hilarious new voice in fiction: the poignant, all-too-human recollections of an affable bird researcher in the Indiana backwater as he goes through a disastrous yet heartening love affair with the place and its people. Nathan Lochmueller studies birds, earning just enough money to live on. He drives a glitter-festooned truck, the Gypsy Moth, and he is in love with Lola, a woman so free-spirited and mysterious she can break a man's heart with a sigh or a shrug. Around them swirls a remarkable cast of characters: the proprietor of Fast Eddie's Burgers & Beer, the genius behind "Thong Thursdays"; Uncle Dart, a Texan who brings his swagger to Indiana with profound and nearly devastating results; a snapping turtle with a taste for thumbs; a German shepherd who howls backup vocals; and the very charismatic state of Indiana itself. And at the center of it all is Nathan, creeping through the forest to observe the birds he loves and coming to terms with the accidental turns his life has taken. This ebook edition includes a Reading Group Guide.

She's also unmarried, living at home, working in a grocery store, and keeping the father's identity a secret. Her own father, Jimmy Sr., is shocked by the news. Her mother says very little. Her friends and neighbors all want to know whose snapper Sharon is carrying. In his sparkling second novel, Roddy Doyle observes the progression of Sharon's pregnancy and its impact on the Rabbitte family—especially on Jimmy Sr.—with wit, candor, and surprising authenticity.

Red Snapper Biology in a Changing World Stephen T. Szedlmayer,Stephen A. Bortone,2019-11-27 Red Snapper *Lutjanus campechanus*, is an important commercial and recreational fish species and there has been much interest in maintaining its status among a variety of scientific, social and economic levels. Stocks are influenced by varying environmental conditions, changing fishing effort and efficiency, anthropogenic effects, inter- and intraspecific interactions, bycatch from other fisheries, and habitat alterations. *Red Snapper Biology in a Changing World* explores these changing factors and their potential effects on Red Snapper in the Eastern Atlantic region including the Gulf of Mexico and Southeastern U.S. The book will

provide a better understanding of Red Snapper population fluctuations that will subsequently allow for better management decisions and more informed user groups in their efforts to maintain a sustainable fishery. It explores the responses Red Snapper have made, and are making, relative to their life history attributes such as early life history and adult ecology, especially attributes associated with population distribution and abundance, movement patterns, fish health issues and management success. A compendium of many papers presented at the 147th annual meeting of the American Fisheries Society in Tampa, Florida, this volume also includes additional research completed as a result of the symposium. It will be essential reading for fisheries scientists and managers, ichthyologists, resource and environmental managers, and policymakers who are involved with coastal fisheries.

Snapper Annemarie Florian,2021 Snapper is the most caught fish species in our warm coastal waters. We consider them beautiful, both to view and to eat. They're the fish we love to love. Yet how much do we really know about them and their ocean habitats? And how can we ensure they continue to flourish in the ocean of the future?

Snapper Wolfgang Cooper,2000-06-28 SNAPPER is a story that mirrors the raucous vitality of masterpieces such as Jaws and Tremors. SNAPPER mixes suspense, horror, humor and bayou country hi-jinks to conjure up a tale that just might be true, as a Giant Alligator Snapping Turtle, whose natural habitat is being destroyed by an evil oil drilling company, goes on a rampage in the small Louisiana river town of Scottsville. The 15 foot, 3 ton Snapper, eats and destroys anything in its path. After several locals have mysteriously disappeared, Herpetologists Matt Peterson and Professor Jonathan Moorehead, along with Mooreheads beautiful daughter, Jennifer, suspect that something strange is going on and set out to investigate. Caspar Lloyd, whose oil company is illegally polluting the bayou, doesn't want them snooping around and attempts to curtail their investigation by various forms of subterfuge. Sheriff Roy Hawkins, the Scottsville Constable, doesn't believe the story about the Giant Snapping Turtle and warns Matt and the Professor to leave the investigations to the police. But with the assistance of the cantankerous hermit, Sam Wade, our heroes journey out into the unexplored regions of the bayou, where no man has ever set foot. It is in this foreboding domain of the swamp that they must contend with the monstrous terrapin himself, along with Caspar Lloyd and his red-neck henchmen who are attempting to cover up the illegal oil drilling operation.

ALLIGATOR SNAPPING TURTLE Historical background (*Macrochelys Temminckii*) The Alligator Snapping Turtle is the largest fresh-water turtle found in the United States. It lives in the rivers that flow into the Gulf of Mexico, from Texas to Western Florida. Its center of abundance is in the lower Mississippi Valley, where it ranges north as far as central Illinois. It attains a weight of 250 pounds, although larger specimens have been reported, including a veritable giant of 403 pounds. This reptile is the undisputed monarch of all it surveys and is as savage as it looks. The bite of the Alligator Snapper is legendary. Folklore has it that even if the turtle is decapitated, the head will live until sundown. Backwoodsmen in the Southeast claim that the animal can bite a broomstick in two and will hold on to a victim until the sky thunders. According to Uley Bass, a veteran Florida turtle hunter, there is some truth to this claim. Late one night sixteen years ago, my son and I pulled an old 75 pound Alligator Snapper out of the swamp. Like a fool I put the Snapper right behind me in the boat. After a time we got stuck in some reeds, so I reached back for a paddle and SLAM, something hit my hand so fast I didn't know what had happened. Then all of a sudden there was blood everywhere, and my son was shouting, Dad, two of your fingers just dropped into the bottom of the boat. Alligator Snappers do not have discriminating appetites. Anything that wanders by is fair game. Dissected stomachs have contained baby alligators, raccoons, snakes, acorns, shoes, and even other turtles. It is primarily nocturnal and aptly named. One large

Snapper, after being hauled on board by some trappers, bit a sizeable chunk out of their wooden canoe, according to a 1950 account.
