Snowmobile Jules Older,2012-02-01 In 1922, when Joseph-Armand Bombardier was fifteen years old he built his first snow vehicle. He had always loved to tinker with motors and make things go, and he dreamed of building a vehicle that could go over snow. His first attempt, using a Model T Ford engine and a wooden propeller, worked well. To Joseph-Armand's mind, anyhow. Not so much his father, who made him take the contraption apart. Over the years, Joseph-Armand dreamed of becoming a great mechanic and inventing machines. But when his young son died of a fever because it was impossible to get to the hospital over the snow-covered roads, Joseph-Armand applied his single-minded determination to building a vehicle that could go over snow. It took years, but he accomplished his goal. His invention changed the way people in snow country lived. Inaccessible roads could now be travelled, taking patients to hospitals, doctors and priests to the needy, children to school, and even mail to residents.

Snow Goer's Vintage Snowmobiles David Wells,2019-11-26 Snow Goer magazine has combed its comprehensive archive of

articles from long-time contributor David Wells to assemble a collection of profiles of the most interesting machines that the sport has ever seen. There is an impressive array of machines, including sleds from the four surviving major brands--Polaris, Ski-doo, Yamaha, and Arctic Cat--and many other well-known names like Ariens, Bolens, Evinrude, and Johnson, and even some obscure names like Roll-O-Flex and Dauphin. In addition to the profiles, there are background features on "Snowbikes" through the years, a look at "rebadging," and an in-depth flashback to the fabulous factory speed run and stock racing wars of the early 1970's.

    Snowmobiling Laura Purdie Salas,2008 In winter, frozen lakes become a paradise for fishing enthusiasts. Discover how these hardy ice fishers bundle up, make a hole in the ice, and drop in a line.

    Snowbug Yvon Gauthier,2000 No machine comes close to it. Those were the words of Dr. J.R. Weber, research scientist for the Canadian government working in the far north, in describing one of the first snowmobiles to be made - the one that was produced in Sudbury, Ontario. I would suggest to anyone interested in learning more about snowmobiles of the past that this book is interesting. Ed Skomoroh, Vice President, Marketing, Polaris Industries, Inc. Very interesting Reading! Edgar Hetteen [founder of Polaris] Known for its working ability rather than for speed, the Snowbug was valued by trappers, hunters, mining and government officials as well as doctors and social workers whose duties took them into all types of weather and snow conditions in the north. Its popularity spread from Canada to northern Michigan and the New England States where heavy snowfalls also prevail
