Music and Change in the Eastern Baltics Before and After 1989 Rūta Stanevičiūtė, Małgorzata Janicka-Słysz, 2022-11-15 This volume provides a transnational study of the impact of musical cultures in the Eastern Baltics—Lithuania, Latvia, Poland, and Russia—at the end of the Cold War and in the early post-Communist period. Throughout the book, the contributors explore and conceptualize transnational musical collaboration and the diffusion of information, people, and ideas focusing on musical activity which shaped the moral and artistic outlook of several generations. The volume sheds light on the transformative power of politically and socially engaged music and offers a deeper understanding of the artistic potential of societies and its impact on social and political change.

Plunkett's Investment & Securities Industry Almanac Jack W. Plunkett, 2008 The investment and securities industry is rebounding from the dismal markets of the early 2000s. Improved corporate profits, low interest rates and efforts to improve corporate governance have led the way, despite recent scandals in the mutual funds industry. Meanwhile, the investment industry is increasingly a global business. This is partly due to the needs of multinational corporations to list their stocks or issue debt in more than one nation. For example, ADRs (American Depositary Receipts) are increasingly popular instruments. Cross-border investments and acquisitions continue at a rapid pace. Discount brokerages are enjoying improved levels of trading, while investment banks are developing new ways to create lucrative fees. This carefully-researched book (which includes a database of leading companies on CD-ROM) is a complete investments, securities and asset management market research and business intelligence tool -- everything you need to know about the business of investments, including: 1) Investment banking, 2) Stock brokers, 3) Discount brokers, 4) Online brokers, 5) Significant trends in financial information technologies, 6) Asset management, 7) Stock ownership by individuals and households, 8) 401(k)s and pension plans, 9) Mutual funds, 10) ETFs (Exchange traded funds), 11) ECNs (Electronic Communication Networks), 12) Developments at the NYSE and other exchanges. The book includes a complete chapter of vital industry statistics, an industry glossary, a complete list of industry contacts such as industry associations and government agencies, and our in-depth profiles of more than 300 leading firms in the investment and asset management business. A CD-ROM database of these firms is included with the book.

The Turning Points of the New Phenomenological Era Anna-Teresa Tymieniecka, 2012-12-06 orbit and far beyond it. Indeed, the immense, painstaking, indefatigable and ever-improving effort of Husserl to find ever-deeper and more reliable foundations for the philosophical enterprise (as well as his constant critical re-thinking and perfecting of the approach and so called method in order to perform this task and thus cover in this source-excavation an ever more far-reaching groundwork) stands out and maintains itself as an ineptisable reservoir for philosophical reflection in which all the above-mentioned work has either its core or its source. In fact, in his undertaking to re-think the entire philosophical enterprise as such and to recreate philosophy upon what he sought to be at least a satisfactorily legitimated basis, Husserl, through his already systematised and authorized work, and his courses, and later on in his spontaneous reflection (which did not find its way into a definitive corpus but was nevertheless sufficiently coherent with his previously established body of thought to be considered a continuation of it), uncovers perspectives upon the universe of man and projects their new philosophical thematisation that brings together all the attempts by philosophers (e. g. , Merleau-Ponty, who drew upon this material and found there his own inspiration) who succeeded him with foundational intentions; it also gives a core of philosophical ideas and insights for the younger generation of philosophers today.

Backstage Democracy Ainius Lašas, 2023-03-29 This book investigates how the actual dynamics of business-state relations work in a democracy and their changes overtime. The focus is limited to one country because access to high-level sources, who are able to openly discuss the nature of the business-politics nexus, cannot be easily replicated. The study is distinctive in a number of ways. First, its focus on politics and business touches upon a number of academic disciplines – business sciences, political science, public policy and administration. Second, it is not limited to a static picture of a relatively new democracy, but instead examines the dynamics of change over the last twenty years. As such, it talks to situations in a number of other countries, especially those in Central and Eastern Europe and the post-Soviet space. Third, the methodological approach, which combines anonymous interviews, mass media sources, governmental and non-governmental reports, is not very typical and thus provides a relatively fresh perspective on studying such social phenomena. Finally, the study offers original theoretical and analytical frames that can be conveniently applied and tested in other national/regional contexts. These and other features make it a valuable resource in higher education settings, offering a case study at hand, which can be used in courses on corruption, business ethics, democracy, EU studies, areas studies focused on Central and Eastern Europe or the post-Soviet space.

Ethnic Music on Records Richard K. Spottswood, 1990 This impressive compilation offers a nearly complete listing of sound recordings made by American minority artists prior to mid-1942. Organized by national group or language, the seven-volume set cites primary and secondary titles, composers, participating artists, instrumentation, date and place of recording, master and release numbers, and reissues in all formats. Because of its clear arrangements and indexes, it will be a unique and valuable tool for music and ethnic historians, folklorists, and others. Winner of the ARSC Award for Excellence in the Field of Recorded Country, Folk, or Ethnic Music, 1991.

Satoumi Science Shinichiro Kakuma, Tetsuo Yanagi, Tetsu Sato, 2022-04-07 This book guides readers to the new concept of “Satoumi” and explains how its practice works to solve challenges in complex social-ecological systems of coastal areas. The book describes the significance of Satoumi Science as a transdisciplinary process. It starts with introducing the definition of Satoumi, highlights the important distinction between active measures (direct actions to improve ecosystem functions and services) and passive measures (a variety of management activities), and presents the concept of Integrated Local Environmental Knowledge (ILEK) as a knowledge base for Satoumi activities. It also introduces residential researchers and bilateral knowledge translators as the key actors of Satoumi co-creation through the transdisciplinary processes. The concept of Satoumi goes beyond the idea of protecting pristine nature by eliminating humans. It is about creating coastal environments where humans closely connect with the sea, which leads to the effective conservation and sustainable management of various natural resources and ecosystem services. This book will be of high interest to managers, governments, environmental groups, and the research community. Chapters cover current and emerging concerns, such as over- and under-use of natural resources, restoration of damaged ecosystems, and co-creation of new relations between humans and coastal seas, from transdisciplinary approaches to tackle with complex and 'wicked' challenges of coastal social-ecological systems.

The Development of Eco-Phenomenology as An Interpretative Paradigm of The Living World Daniela Verducci, Maija

Kūle,2022-09-29 This volume presents eco-phenomenology’s role in pandemics and post-pandemics and takes up the task of eco-phenomenology as a unified project by not focusing on naturalizing phenomenology but rather exploring the full range of possibilities - such as creative acts and self-individualization - in dealing with ecological threats. Eco-phenomenological developments are based on the main concepts of “phenomenology of life”, as created by Anna-Teresa Tymieniecka. This volume also uniquely explores the Covid-19 pandemic as a phenomenologically interpreted and ecological phenomenon. It appeals to students and researchers working in the fields of phenomenology and environmental philosophy.

Lithuania 1928 Ernest John Harrison,1928
Baltic Postcolonialism ,2006-01-01 Emerging from the ruins of the former Soviet Union, the literature of the Baltic states of Lithuania, Latvia and Estonia is analyzed from the fruitful perspective of postcolonialism, a theoretical approach whose application to former second-world countries is in its initial stages. This groundbreaking volume brings scholars working in the West together with those who were previously muffled behind the Iron Curtain. They gauge the impact of colonization on the culture of the Baltic states and demonstrate the relevance of concepts first elaborated by a wide range of critics from Frantz Fanon to Homi Bhabha. Examining literary texts and the situation of the intellectual reveals Baltic concerns with identity and integrity, the rewriting of previously blotted out or distorted history, and a search for meaning in societies struggling to establish their place in the world after decades - and perhaps millennia - of oppression. The volume dips into the late Tsarist period, then goes more deeply into Soviet deportations to the Gulag, while the main focus is on works of the turning-point in the late 1980s and 1990s. Postcolonial concepts like mimicry, subjectivity and the Other provide a new discourse that yields fresh insights into the colonized countries’ culture and their poignant attempts to fight, to adapt and to survive.This book will be of interest to literary critics, Baltic scholars, historians and political scientists of Eastern Europe, linguists, anthropologists, psychologists, sociologists, working in the area of postcommunism and anyone interested in learning more about these ancient and vibrant cultures.
