Liveness in Modern Music Paul Sanden,2013-01-17 This study investigates the idea and practice of liveness in modern music. Understanding what makes music live in an ever-changing musical and technological terrain is one of the more complex and timely challenges facing scholars of current music, where liveness is typically understood to represent performance and to stand in opposition to recording, amplification, and other methods of electronically mediating music. The book argues that liveness itself emerges from dynamic tensions inherent in mediated musical contexts—tensions between music as an acoustic human utterance, and musical sound as something produced or altered by

machines. Sanden analyzes liveness in mediatized music (music for which electronic mediation plays an intrinsically defining role), exploring the role this concept plays in defining musical meaning. In discussions of music from both popular and classical traditions, Sanden demonstrates how liveness is performed by acts of human expression in productive tension with the electronic machines involved in making this music, whether on stage or on recording. Liveness is not a fixed ontological state that exists in the absence of electronic mediation, but rather a dynamically performed assertion of human presence within a technological network of communication. This book provides new insights into how the ideas of performance and liveness continue to permeate the perception and reception of even highly mediatized music within a society so deeply invested, on every level, with the use of electronic technologies.

Dan in Real Life Pierce Gardner, Peter Hedges, 2007-12-12 It all begins with widowed father and family advice columnist Dan Burns (Steve Carell), who is still reeling from the heartache of loss and takes refuge by trying to maintain order with his three rebellious young girls, while dodging anything unexpected or outside the box. But when Dan heads to Rhode Island, his miffed daughters in tow, for the annual Fall weekend thrown by the large and boisterous Burns family, everything changes. Soon after his arrival, he runs into an alluring woman named Marie (Juliette Binoche) in a bookshop. For the first time in a very, very long time, Dan experiences real live sparks—only to have to douse them liberally when he discovers Marie is, in fact, the brand-new girlfriend his brother Mitch (Dane Cook) is about to proudly introduce to the family. As the weekend gets under way in the close quarters of a crowded house filled with quirky, prying relatives, Dan and Marie try to squelch and cover up their growing mutual attraction at every turn, leading to one comical situation after another. Yet, no matter how hard they try to do the very opposite, Dan and Marie can't help but fall in love. Now Dan is about to realize that no matter how wise safety might seem, when it comes to real life, he's going to have to break all the rules.

The Untitled Journals of Steve Donovan's Marathon Training Steve Donovan, 2005-11-01 Steve Donovan liked smoking a lot, but he liked his wife and daughter more. When he started running to help himself quit smoking, he entered into a whole new culture. Donovan's competitive spirit leads him to train for the Chicago Marathon to break the four-hour mark. During that time, he kept this diary. The journal entries are humorous, touching and genuine. *The Untitled Journals of Steve Donovan's Marathon Training* is based on events logged in Donovan's journal from January 2003 to October 2004. His view of running becomes entwined with his personal life. Running helps him become more insightful about him being his best, but his competitive spirit takes a hit when a life-altering event leads to an epiphany.

The Singer-Songwriter Handbook Justin Williams, Katherine Williams, 2017-02-23 The singer-songwriter, someone who writes and performs their own music, is an ever-present and increasingly complex figure in popular music worlds. *The Singer-Songwriter Handbook* provides a useful resource for student songwriters, active musicians, fans and

scholars alike. This handbook is divided into four main sections: Songwriting (acoustic and digital), Performance, Music Industry and Case Studies. Section I focuses on the 'how to' elements of popular song composition, embracing a range of perspectives and methods, in addition to chapters on the teaching of songwriting to students. Section II deals with the nature of performance: stagecraft, open mic nights, and a number of case studies that engage with performing in a range of contexts. Section III is devoted to aspects of the music industry and the business of music including sales, contract negotiations, copyright, social media and marketing. Section IV provides specific examples of singer-songwriter personae and global open mic scenes. The Singer-Songwriter Handbook is a much-needed single resource for budding singer-songwriters as well as songwriting pedagogues.

The Oxford Handbook of Popular Music in the Nordic Countries Fabian Holt,Antti-Ville Kärjä,2017 The Nordic countries, a group of countries spanning a large area of northern Europe and the North Atlantic, present unique natural and cultural environments in which popular music has come to play a significant role. Research on the region's music has largely followed national narratives and ignored more complex geographies and transcultural issues. This first handbook of music in the Nordic countries explores the significance of popular music in the history of the region, with implications for broader debates about the region's uniqueness and its future. The chapters highlight music's place in media and tourism industries, in sustaining exotic images of the North, but also in more serious issues such as racism and environmentalism.
