Rethinking Asian Tourism Victor T. King,Ploysri Porananond,2014-10-16 Rethinking Asian Tourism addresses some of the latest developments in on-

going tourism research in Southeast Asia and the wider Asia region (encompassing, in geographical terms, Thailand, Vietnam, Indonesia, the Philippines, Malaysia, Hong Kong, Japan, and Korea). It examines many of the emerging, as well as established, themes and issues in Asian tourism and promotes the development of critical scholarship within Asia to overcome Anglo-Western ethnocentrism in tourism studies of the region. There is some attention to such familiar concepts as authenticity, commoditisation, culture, heritage, and hosts and guests, but more especially to the diversification of phenomena which traditionally would not have been included within the parameters of tourism studies: retirees and long-stays, gastronomy, family-based leisure, popular culture, and local branding. Above all, the book addresses and develops a conceptual understanding from a multidisciplinary perspective of the character, experiences, encounters, perceptions and motivations of local, national and intra-regional tourism rather than basing concepts, perspectives, emphases and analyses on Western-Asian interactions and on transformations in the West. In this respect it encourages a shift in emphasis towards 'Asianising' our understanding of Asian tourism. This is one of the first volumes on Asian tourism written primarily by Asians and, as such, provides them with the opportunity to express their concerns, interests and priorities, rather than depending on the analyses and interpretations of those from outside the region. It also enables a deconstruction of the field of tourism studies, acknowledging that it is an open-ended, shifting, fluid and complex category of encounters and events generated by the processes of physical mobility.

**Asian Tourism** Janet Cochrane, 2008 Tourism in Asia is growing faster than anywhere else in the world. Despite the significance of the tourism industry in this area it is under researched. This book addresses this imbalance by providing an edited collection of chapters which explore the domestic and intraregional tourism in Asia.

**Farang** Iain Corness, 2015-01-07 Dr Iain Corness fell in love with Thailand on a holiday in 1975, and finally managed to move there permanently in 1997. As a settled farang, or foreigner, he enjoys a unique perspective on Thai life and all its eccentricities; looking in from the outside while also getting to see the things most foreigners don't. His stories and anecdotes are full of the joys of life, and celebrate this exotic and exciting land in all its glory with painfully funny observations. From a date with a fortune teller to tales of a reincarnated squid, Corness revels in the chaos and charm of 'the only country where you can be run over by a shop.' This is a book to be enjoyed by tourists and Thais alike.

**Bangkok** Barry Bell,2003 Using direct observations of the surrounding landscape and the tangible artifacts of the city, its topography, streets, temples and other stunning architectural monuments, Barry Bell carries out a progressive investigation into Bangkok's urban sensibility and its central mythologies - the more mysterious perceptual realms of allusion and illusion, arguably the real Bangkok, implicitly present within its deceptive exterior. In spite of the knowledge that, for many people, order seems alien to the city, the author searches for conceptual coherence. He strives to link the city's hectic urban sensibility to its more elusive and hidden character - the dream of Bangkok that is prompted by angelic allusions--P. [2] of cover.

**Food, Feasts, and Faith [2 volumes]** Paul Fieldhouse,2017-04-17 An indispensable resource for exploring food and faith, this two-volume set offers information on food-related religious beliefs, customs, and practices from around the world. Why do Catholics eat fish on Fridays? Why are there retirement homes for aged cows in India? What culture holds ceremonies to welcome the first salmon? More than five billion people worldwide claim a religious identity that shapes the way they think about themselves, how they act, and what they eat. *Food, Feasts, and Faith: An Encyclopedia of Food Culture in World Religions* explores how the food we eat every day often serves purposes other than to keep us healthy and stay alive: we eat to express our faith and to adhere to ethnic or cultural traditions that are part of who we are. This book provides readers with an understanding of the rich world of food and faith. It contains more than 200 alphabetically arranged entries that describe the beliefs and customs of well-established major world religions and sects as well as those of smaller faith communities and new religious movements. The entries cover topics such as religious food rules, religious festivals and symbolic foods, and vegetarianism and veganism, as well as general themes such as rites of passage, social justice, hospitality, and compassion. Each entry on religion explains what the religious dietary laws and guidelines are and how these were interpreted and put into practice historically and in modern settings. The coverage also includes important festivals and feast days as well as significant religious figures and organizations. Additionally, some 160 sidebars provide examples and more detailed information as well as fun facts.

Asian American Religious Cultures [2 volumes] Jonathan H. X. Lee,Fumitaka Matsuoka,Edmond Yee,Ronald Y. Nakasone,2015-09-01 A resource ideal for students as well as general readers, this two-volume encyclopedia examines the diversity of the Asian American and Pacific Islander spiritual experience. Despite constituting a fairly small proportion of the U.S. population—roughly 5 percent—Asian Americans are a widely diverse group with equally heterogeneous religious beliefs and traditions. This encyclopedia provides a single source for authoritative information on the Asian American and Pacific Islander religious experience, addressing South Asian Americans, such as Indian Americans and Pakistani Americans; East Asian Americans, including Chinese Americans, Japanese Americans, and Korean Americans; and Southeast Asian Americans, whose ethnicities include Filipino Americans, Thai Americans, and Vietnamese Americans. Pacific Islanders include Hawaiians, Samoans, Marshallese, Tongan, and Chamorro. The coverage includes not only traditional eastern belief systems and traditions such as Buddhism, Confucianism, and Hinduism as well as Micronesian and Polynesian religious

traditions in the United States, but also the culture and religious rituals of Asian American Christians.
