Starship Spotter Adam 'mojo' Lebowitz, Robert Bonchune, 2012-09-17 The Starship Spotter was created more than two centuries ago in the early years of deep space travel to serve as a reference guide to assorted space-going vessels. Captains of the spaceships of the United Earth Space Probe Agency used this invaluable tool to help their crews to distinguish friend from foe in the unexplored reaches of the cosmos. When the services were merged to form Starfleet, the Spotter as a paper book disappeared from use. Only recently rediscovered, the newest editions of this historic volume have until now been the sole purview of the students of Starfleet Academy. Each year a new class of Starfleet cadets carefully reviews and revises the contents. The ships displayed in the Starship Spotter are chosen as a tribute to the crews who have served on them and the valour shown, regardless of the ship's affiliation. Although only thirty ships could be selected, the cadets feel that these ships reflect the noble history of space exploration and travel. We proudly present to you the Class of 2383 edition of Starship Spotter.

A Political Psychoanalysis for the Anthropocene Age Ryan LaMothe, 2023-09-11 A Political Psychoanalysis for the Anthropocene Age presents an evaluation of the politics of climate change and considers how psychoanalysis can contribute to this discourse. Presented in two parts, the book first uses a psychoanalytic approach to interrogate political-economic realities and their impact on shaping Western political selves in the Anthropocene age. Ryan LaMothe identifies core illusions of the Western psyche and how they shape behavior and relations, as well as how they are implicated in various emotional responses to climate change like eco-mourning and eco-denial. Topics such as political dwelling, sovereignty, political violence and change, climate obstacles such as capitalism, nationalism, and imperialism, and the problem of hope are explored using psychoanalytic and philosophical perspectives. LaMothe then considers the role of psychoanalysis in the public-political realm, as well as how a psychoanalytic political perspective invites reforming the education and practice of psychoanalysis. A Political Psychoanalysis for the Anthropocene Age will be thought-provoking reading for psychoanalysts and psychotherapists, as well as anyone interested in the politics of climate change.

British Battleships 1939-45 (1) Angus Konstam, 2012-12-20 With the outbreak of World War II, Britain's Royal Navy and her fleet of battleships would be at the forefront of her defence. Yet ten of the 12 battleships were already over 20 years old, having served in World War I, and required extensive modifications to allow them to perform a vital service throughout the six long years of conflict. This title offers a comprehensive review of the development of these British battleships from their initial commissioning to their peacetime modifications and wartime service, with detailed descriptions of the effectiveness of the main armament of individual ships. With specially commissioned artwork and a dramatic re-telling of key battleship conflicts, this book will highlight what it was like on board for the sailors who risked their lives on the high seas.

British Battleships 1919-1945 R A Burt, 2012-02-28 This superb reference book achieved the status of 'classic' soon after its first publication in 1993; it was soon out of print and is now one of the most sought-after naval reference books. And with good reason. Offering an unprecedented range of descriptive and illustrative detail, the author describes the evolution of the battleship classes through all their modifications and refits. As well as dealing with design features, armour, machinery and power plants and weaponry, he also examines the performance of the ships in battle and analyses their successes and failures; and as well as covering all the RN's battleships and battlecruisers, he also looks in detail at the aircraft carrier conversions of the WWI battlecruisers Furious, Glorious and Courageous. British Battleships 1919-1939 is a masterpiece of research and the comprehensive text is accompanied by tabular detail and certainly the finest collection of photographs and line drawings ever offered in

such a book. For this new edition the author has added some 75 new photographs, many of them having never appeared in print before, and the book has been completely redesigned to fully exploit the superb photo collection. A delight for the historian, enthusiast and ship modeller, it is a volume that is already regarded as an essential reference work for this most significant era in naval history and ship design.

Project Delta Book 3 David T. Chlebowski, 2008-03-28 The book talks about how Fleet Admiral Chlebowski continues his voyage in the 3rd book of the Project Delta series. At first he finds himself in trouble for certain trivial things. The book talks about what goes on fictionally from January 2380 to July 2381 in a journal format within the story line. The question is: Will he have to face responsibility for what he did, or will he become innocent onboard his starship and his starbase?

British Battleships 1914-18 (2) Angus Konstam, 2013-12-20 In 1906, the Germans began building their own dreadnought fleet armed with larger guns, word of which soon reached the British Admiralty. This raised the spectre that the British dreadnought fleet would be outgunned, and prompted the Admiralty to order the building of their own "super dreadnoughts". The first of these new dreadnoughts were laid down in 1909, and entered service three years later. The British public supported this programme, and the slogan "we want eight and cannot wait" became popular, a reference to the building of eight of these super dreadnoughts. Four more super dreadnoughts entered service in 1914. By then the Admiralty had developed a new programme of "fast battleships", armed with 15-inch guns. These powerful warships entered service in time to play a part in the battle of Jutland in 1916. World War I broke out before the Royal Navy had fully evaluated these new warships, and so lessons had to be learned through experience - often the hard way. Although none of these super dreadnoughts were lost in battle, their performance at the battle of Jutland led to a re-evaluation of the way they were operated. Still, for four years they denied control of the sea to the enemy, and so played a major part in the final collapse of Imperial Germany.

Oathbound Bastion Press, Incorporated, 2003-08 The vast red desert of Arena sprawls south and westward from the nurturing plains of Penance. Spurred onward by the ancient promise of gold buried beneath the sands, massive armies of brutal warriors rumble across the scarred and wasted terrain. For the fortunate few, the ultimate dream of Arena still comes true - immeasurable riches, supreme command, and decades of extravagant and luxurious living atop the Queen's pedestal of pleasure. For most however, whatever dreams they may harbor are soundly crushed under years of backbreaking labor, constant battle, exhausting marches, gruesome butchery, and an infinity of accursed crimson sand. For the prospective Warlord, a sea of troubled choices and impossible trials awaits. Can you lead your army to victory against the savage legions of Minos Spar, the terrible war golems of Asheanna, or the unnatural technology of Ossian? Will your hidden mine escape the attention of the flying navies of the Grand Asherake? Strategy, fortune, alliances, and leadership are your only weapons in this endless and unforgiving struggle for wealth, power, and glory. **Oathbound: Arena** provides a new entry point into the world of the Forge. This is the Domain of Barbello, the Mask of Fury, the invincible mistress of rage, pain, warfare, and death. Who amongst you can withstand her test?

The World's Most Powerful Battleships David Ross, 2016-12-15 The World's Most Powerful Battleships features 52 of the greatest warships to have sailed and fought in the last 500 years. Beginning with King Henry VIII's flagship, the book covers all the main periods of battleship development, including the great sail ships, steam-driven

warships, and the great battleships of the two world wars. Each entry includes a brief description of the battleship's development and history, a profile view, key features, and specifications. Packed with more than 200 artworks and photographs, *The World's Most Powerful Battleships* is a colorful guide for the military historian and naval warfare enthusiast.

British Battleship vs Italian Battleship Mark Stille,2020-01-23 During World War II's battle for control of the Mediterranean, both the British and Italian navies planned to bring their battle fleets into play. At the centre of both of these fleets was a core of battleships which both sides expected to play a decisive role in the conflict. On 9 July 1940, the two navies met in the central Mediterranean, as two Italian battleships faced off against three of their British counterparts. Christened the Battle of Calabria, the action allowed the ships to play to their strengths, engaging in a long-range gunnery duel, the very thing they had been designed for. Though both sides shot well, the only hit was scored by Warspite on the Italian battleship Giulio Cesare. The Italians were forced to withdraw, and the action ended up being indecisive, but it was the largest fleet action fought in the Mediterranean during the war. As well as this battle, there were other occasions during the war when both British and Italian battleships were present and influential, but during which they never engaged each other directly – the Battle of Spartivento on 27 November 1940, and the Battle of Cape Matapan on 28-29 March 1941. Packed with full-colour artwork, carefully selected archive photographs and expert analysis, this title explores in detail the role played by British and Italian battleships in these encounters, and their influence in the Mediterranean theatre of World War II.
