Ann Komaromi

*The Soviets at Work* Vladimir Il'ich Lenin,1919

The Soviet Myth of World War II Jonathan Brunstedt,2021-07-15 How did a socialist society, ostensibly committed to Marxist ideals of internationalism and global class struggle, reconcile itself to notions of patriotism, homeland, Russian ethnocentrism, and the glorification of war? In this provocative new history, Jonathan Brunstedt pursues this question through the lens of the myth and remembrance of victory in World War II – arguably the central defining event of the Soviet epoch. The book shows that while the experience and legacy of the conflict did much to reinforce a sense of Russian exceptionalism and Russian-led ethnic hierarchy, the story of the war enabled an alternative, supra-ethnic source of belonging, which subsumed Russian and non-Russian loyalties alike to the Soviet whole. The tension and competition between Russocentric and 'internationalist' conceptions of victory, which burst into the open during the late 1980s, reflected a wider struggle over the nature of patriotic identity in a multiethnic society that continues to reverberate in the post-Soviet space. The book sheds new light on long-standing questions linked to the politics of remembrance and provides a crucial historical context for the patriotic revival of the war's memory in Russia today.

Russia, the Soviet Union, and the United States John Lewis Gaddis,1990 From the capricious reign of Catherine the Great and Alexander I to the provocative leadership of Mikhail Gorbachev, the author concentrates on the interplay between interests and ideologies in the relationship between the United States and the Soviet Union, in an even-handed, non-ideological narrative.

**Soviet Life** ,1971

*Soviet Communism* Sidney Webb,Beatrice Webb,1936 Paged continuously. I. The constitution.--II. Social trends in soviet communism.

**The Sino-Soviet Dispute** Alfred D. Low,1976 Provides an analysis of the conflict between the Soviet Union and the People's Republic of China, focusing on the polemics. Attempts to trace and analyze Soviet and Chinese policies toward each other on the basis of available documents and general evidence.

*The Dream that Failed* Walter Laqueur,1996-02-15 Walter Laqueur as been hailed as one of our most distinguished scholars of modern European history in the New York Times Book Review. Robert Byrnes, writing in the Journal of Modern History, called him one of the most remarkable men in the Western world working in the field. Over a span of three decades, in books ranging from Russia and Germany to the recent Black Hundred, he has won a reputation as a major writer and a provocative thinker. Now he turns his attention to the greatest enigma of our time: the rise and fall of the Soviet Union. In *The Dream that Failed*, Laqueur offers an authoritative assessment of the Soviet era--from the triumph of Lenin to the fall of Gorbachev. In the last three years, decades of conventional wisdom about the U.S.S.R. have been swept away, while a flood of evidence from Russian archives demands new thinking about old assumptions. Laqueur rises to the challenge with a critical inquiry conducted on a grand scale. He shows why the Bolsheviks won the struggle for power in 1917; how they captured the commitment of a young generation of Russians; why the idealism faded as Soviet power grew; how the system ultimately collapsed; and why Western experts have been so wrong about the Communist state. Always thoughtful and incisive, Laqueur reflects on the early enthusiasm of foreign observers and Bolshevik revolutionaries--then takes a piercing look at the totalitarian nature of the Soviet Union. We see how Communist society stagnated during the 1960s and '70s, as the economy wobbled to the brink; we also see how Western observers, from academic experts to CIA analysts, made wildly optimistic estimates of Moscow's economic and political strength. Just weeks before the U.S.S.R. disappeared from the earth, scholars were confidently predicting the survival of the Soviet Union. But in underscoring the rot and repression, he also notes that the Communist state did not necessarily have to fall when it did, and he examines the many factors behind the collapse (the pressure from Reagan's Star Wars arms program, for instance, and ethnic nationalism). Some of these same problems, he finds, continue to shape the future of Russia and the other successor states. Only now, in the rubble of this lost empire, are we coming to grips with just how wrong our assumptions about the U.S.S.R. had been. In *The Dream That Failed*, an internationally renowned historian provides a new understanding of the Soviet experience, from the rise of Communism to its sudden fall. The result of years of research and reflection, it sheds fresh light on a central episode in our turbulent century.

**I Found God in Soviet Russia** John H. Noble,2019-12-06 I Found God in Soviet Russia, first published in 1959, is a profoundly moving account of author John Noble's religious epiphany while confined in a brutal Soviet prison following World War II. The book also recounts Noble's harrowing survival of the massive Allied fire-bombing of Dresden, where he and his family took shelter in the cellar of their home (which was partially destroyed during the raid). Following World War II, Noble, along with his father, were arrested in East Germany and held in several prison camps in Germany including the infamous Nazi-era Buchenwald. Noble is eventually transferred to Vorkuta in far northern Russia where he works in a coal mine. Sustained by his faith and devotion to God, Noble recounts his experiences, stories of his captors and fellow inmates, and the deep faith shown by many of the other prisoners. Of special note is a chapter devoted to three nuns who, as punishment for refusing to work, were placed outdoors in sub-zero weather in only lightweight-clothing. Miraculously, the nuns came through the ordeal without frostbite and were thereafter excused from work details. Following an imprisonment of nearly 10 years, Noble was eventually released to the West, and would go on to lecture about his experiences for the remainder of his life. I Found God in Soviet Russia complements the author's other book entitled I Was a Slave in Russia, which details the day-to-day life in the Soviet gulag.

*The Soviet World of American Communism* Harvey Klehr,John Earl Haynes,Kyrill M. Anderson,2008-10-01 The Secret World of American Communism (1995), filled with revelations about Communist party covert operations in the United States, created an international sensation. Now the American authors of that book, along with Soviet archivist Kyrill M. Anderson, offer a second volume of profound social, political, and historical importance. Based on documents newly available from Russian archives, *The Soviet World of American Communism* conclusively demonstrates the continuous and intimate ties between the Communist Party of the United States of America (CPUSA) and Moscow. In a meticulous investigation of the personal, organizational, and financial links between the CPUSA and Soviet Communists, the authors find that Moscow maintained extensive control of the CPUSA, even of the American rank and file. The widely accepted view that the CPUSA was essentially an idealistic organization devoted to the pursuit of social justice must be radically revised, say the authors. Although individuals within the organization may not have been aware of Moscow's influence, the leaders of the organization most definitely were. The authors explain and annotate ninety-five documents, reproduced here in their entirety or in large part, and they quote from hundreds of others to reveal the actual workings of the American Communist party. They show that: • the USSR covertly provided a large part of the CPUSA budget from the early 1920s to the end of the 1980s; • Moscow issued orders, which the CPUSA obeyed, on issues ranging from what political decisions the American party should make to who should serve in the party leadership; • the CPUSA endorsed Stalin's purges and the persecution of Americans living in Russia.

**The Soviet Polity** John Stephen Reshetar,1971 From the John Holmes Library collection.

The Last Empire Serhii Plokhy,2014-05-13 A prize-winning historian describes the collapse of the Soviet Union in 1991, dispelling the myth that the event was spurred on in part by the close relationship between George H.W. Bush and Mikhail Gorbachev. 20,000 first printing.

**Soviet Samizdat** Ann Komaromi,2022-05-15 Soviet Samizdat traces the emergence and development of samizdat, one of the most significant and distinctive phenomena of the late Soviet era, as an uncensored system for making and sharing texts. Based on extensive research of the underground journals, bulletins, art folios and other periodicals produced in the Soviet Union from the mid-1950s to the mid-1980s, Ann Komaromi analyzes the role of samizdat in fostering new forms of imagined community among Soviet citizens. Dissidence has been dismissed as an elite phenomenon or as insignificant because it had little demonstrable impact on the Soviet regime. Komaromi challenges these views and demonstrates that the kind of imagination about self and community made possible by samizdat could be a powerful social force. She explains why participants in samizdat culture so often sought to divide political from cultural samizdat. Her study provides a controversial umbrella definition for all forms of samizdat in terms of truth-telling, arguing that the act is

experienced as transformative by Soviet authors and readers. This argument will challenge scholars in the field to respond to contentions that go against the grain of both anthropological and postmodern accounts. Komaromi's combination of literary analysis, historical research, and sociological theory makes sense of the phenomenon of samizdat for readers today. Soviet Samizdat shows that samizdat was not simply a tool of opposition to a defunct regime. Instead, samizdat fostered informal communities of knowledge that foreshadowed a similar phenomenon of alternative perspectives challenging the authority of institutions around the world today.

**Red Flag Wounded** Ronald Suny,2020-08-25 Red Flag Wounded brings together essays covering the controversies and debates over the fraught history of the Soviet Union from the revolution to its disintegration. Those monumental years were marked not only by violence, mass killing, and the brutal overturning of a peasant society but also by the modernisation and industrialisation of the largest country in the world, the victory over fascism, and the slow recovery of society after the nightmare of Stalinism. Ronald Grigor Suny is one of the most prominent experts on the revolution, the fate of the non-Russian peoples of the Soviet empire, and the twists and turns of Western historiography of the Soviet experience. As a biographer of Stalin and a long-time commentator on Russian and Soviet affairs, he brings novel insights to a history that has been misunderstood and deliberately distorted in the public sphere. For a fresh look at a story that affects our world today, this is the place to begin.

Soviet Russia ,1921

*The Struggle to Save the Soviet Economy* Chris Miller,2016-10-13 For half a century the Soviet economy was inefficient but stable. In the late 1980s, to the surprise of nearly everyone, it suddenly collapsed. Why did this happen? And what role did Soviet leader Mikhail Gorbachev's economic reforms play in the country's dissolution? In this groundbreaking study, Chris Miller shows that Gorbachev and his allies tried to learn from the great success story of transitions from socialism to capitalism, Deng Xiaoping's China. Why, then, were efforts to revitalize Soviet socialism so much less successful than in China? Making use of never-before-studied documents from the Soviet politburo and other archives, Miller argues that the difference between the Soviet Union and China--and the ultimate cause of the Soviet collapse--was not economics but politics. The Soviet government was divided by bitter conflict, and Gorbachev, the ostensible Soviet autocrat, was unable to outmaneuver the interest groups that were threatened by his economic reforms. Miller's analysis settles long-standing debates about the politics and economics of perestroika, transforming our understanding of the causes of the Soviet Union's rapid demise.

**The Soviet Century** Moshe Lewin,2005-02-17 The USSR may no longer exist, but its history remains highly relevant—perhaps today more so than ever. Yet it is a history which for a long time proved impossible to write, not simply due to the lack of accessible documentation, but also because it lay at the heart of an ideological confrontation which obscured the reality of the Soviet regime. In *The Soviet Century*, Moshe Lewin traces this history in all its complexity, drawing widely upon archive material previously unavailable. Highlighting key factors such as demography, economics, culture and political repression, Lewin guides us through the inner workings of a system which is still barely understood. In the process he overturns widely held beliefs about the USSR's leaders, the State-Party system and the Soviet bureaucracy, the “tentacled octopus” which held the real power. Departing from a simple linear history, *The Soviet Century* takes in all the continuities and ruptures that led, via a complex route, from the founding revolution of October 1917 to the final collapse of the late 1980s and early 1990s, passing through the Stalinist dictatorship and the impossible reforms of the Khrushchev years.

**Thank You, Comrade Stalin!** Jeffrey Brooks,2021-04-13 Thank you, our Stalin, for a happy childhood. Thank you, dear Marshal [Stalin], for our freedom, for our children's happiness, for life. Between the Russian Revolution and the Cold War, Soviet public culture was so dominated by the power of the state that slogans like these appeared routinely in newspapers, on posters, and in government proclamations. In this penetrating historical study, Jeffrey Brooks draws on years of research into the most influential and widely circulated Russian newspapers--including Pravda, Ivestiia, and the army paper Red Star--to explain the origins, the nature, and the effects of this unrelenting idealization of the state, the Communist Party, and the leader. Brooks shows how, beginning with Lenin, the Communists established a state monopoly of the media that absorbed literature, art, and science into a stylized and ritualistic public culture--a form of political performance that became its own reality and excluded other forms of public reflection. He presents and explains scores of self-congratulatory newspaper articles, including tales of Stalin's supposed achievements and virtue, accounts of the country's allegedly dynamic economy, and warnings about the decadence and cruelty of the capitalist West. Brooks pays particular attention to the role of the press in the reconstruction of the Soviet cultural system to meet the Nazi threat during World War II and in the transformation of national identity from its early revolutionary internationalism to the ideology of the Cold War. He concludes that the country's one-sided public discourse and the pervasive idea that citizens owed the leader gratitude for the gifts of goods and services led ultimately to the inability of late Soviet Communism to diagnose its own ills, prepare alternative policies, and adjust to new realities. The first historical work to explore the close relationship between language and the implementation of the Stalinist-Leninist program, *Thank You, Comrade Stalin!* is a compelling account of Soviet public culture as reflected through the country's press.

**The Formation and Dissolution of the Soviet Union** Budd Bailey,2018-07-15 The formation and dissolution of the Soviet Union impacted the entire world. The Soviet Union was guided by the principles of communism. Conflict emerged between the Soviet Union and capitalist countries, namely, the United States and those in Western Europe. Eventually, the Soviet Union dissolved in 1991 as a result of a declaration that recognized the independence of the former Soviet republics. This book examines how the history, geography, and culture of the region impacted the formation and dissolution of the Soviet Union.

**New Directions in Soviet Social Thought: An Anthology** Murray Yanowitch,A. Schultz,M. Vale,2019-07-25 The essays in this volume illustrate the kind of expansionary logic that has characterized Soviet reformist thinking in the social sciences in the 1980s. The themes discussed show the wide-ranging and multidisciplinary nature of reformist currents in the Soviet Union.

*Social Change in Soviet Russia* Alex Inkeles,1968 Representing the results of more than twenty years of study by one of this country's foremost experts on the Soviet Union, this collection of twenty-one essays by Alex Inkeles is the first broad sociological survey of Soviet social institutions to be available in English.

Thank you very much for reading **Soviet**. As you may know, people have search numerous times for their chosen novels like this Soviet, but end up in harmful downloads. Rather than reading a good book with a cup of tea in the afternoon, instead they are facing with some infectious virus inside their laptop.

Soviet is available in our digital library an online access to it is set as public so you can get it instantly. Our digital library spans in multiple locations, allowing you to get the most less latency time to download any of our books like this one.
