Space Brothers James Blocker,2019-05-30 How well do you know your church leaders and members? Space Brothers by James C. Blocker is a Christian sci-fi novel that weaves satanic-occult practices within the Christian church. It is a story of finding the real Jesus amid confusion and signs and lying wonders (2 Thess. 2:9). Kyle, a young college student, has an encounter with a being that at first appears to be extra-terrestrial. As events unfold, readers learn it is indeed supernatural, only not the godly supernatural. Instead of being otherworldly, its origin is demonic while its host is human, and Kyle learns an important truth: sometimes people are not who they portray themselves to be, and the reasons for this can be surprising. Come along with Kyle, Zig-Zag, Lilith, the Oracle, and others, to discover what is real and who to trust. In Space Brothers, readers learn that some church members, even those in leadership, have deceptive motives, and their errors can cause us to lose those we love. In the end, thanks to friends and loved ones, Kyle realizes that he is a chosen vessel by God who is appointed to disrupt the plans of the devil. Even though we may suffer, God brings about healing and hope to those who trust in Him.

George Adamski - A Herald for the Space Brothers Gerard Aartsen,2012 This book focuses, for the first time, on the true significance of the mission of George Adamski (1891-1965) to inform humanity of our spiritual nature, our interplanetary brotherhood and the need to take responsibility for our home, planet Earth. Using Adamski's own words where possible, and making connections that have thus far been missed or ignored, this book shows how Adamski's work as a harbinger for the Space Brothers and their teachings fits squarely within the Ageless Wisdom tradition as handed down through the ages by the Elder Brothers of humanity - the Masters of Wisdom with whom Adamski studied as a teenager. In doing so this book places his mission in a context larger in scope than even most of his supporters could have fathomed. 'George Adamski - A Herald for the Space Brothers' is a unique book that reveals the true scope of Adamski's mission in preparation for a complete restructuring of our world, re-framing the discussion about the relevance of his work; provides the first comprehensive outline of Adamski's teaching, largely based on publications that were never available to the larger public and were never reprinted; shows there is nothing 'alien' about the visitors from space; and features the most complete Adamski bibliography to date.

Here to Help Gerard Aartsen,2012-12 Second, revised edition with seven of the photographs now in full colour. Exploring the facts behind the myths, this book reframes the debate about the reality of the space visitors in view of the unprecedented changes engulfing the world today. After the early contactees had been ruthlessly debunked by an organized disinformation campaign, a new context was carefully constructed by clandestine government agencies in collusion with the media, with only one purpose: to ridicule or instil fear of the extraterrestrial presence. And while the experiences and messages of the original contactees are now largely being ignored amid the frenzy of fear-based speculation that has resulted from decades of cover-ups and subsequent conspiracy theories, the author shows that they are in fact more relevant today than ever before by bringing together the spiritual and the practical strands of Ufology. From historical records, documentary evidence and testimonies of early and contemporary contactees against the background of the Ageless Wisdom teaching, this book uncovers the patient and sustained efforts of the space people to interact with people of Earth. In the process it reveals the true motive for their presence - to help humanity through this historical time of transition by sharing their wisdom and technology. According to the author, the message from space can be summarized as: Life is One, so live as one... or perish. About the author: Gerard Aartsen, M.Ed., has been a student of the Ageless Wisdom teaching for over 30 years. His many years of research resulted in the online reference Our Elder Brothers Return - A History in Books. A long-standing co-worker in the worldwide network of groups affiliated with British esotericist Benjamin Creme, he writes regular contributions to Share International magazine about the extraterrestrial presence on Earth. He is also a frequent guest on international radio shows about UFOs and related subjects, and gives lectures at home and abroad.
