The Son of God in the Roman World Michael

Peppard,2011-08-29 Examines the social and political meaning of divine sonship in the Roman Empire and offers new interpretations of the Christian theological metaphors of begotten and adoptive sonship.

One God, One People, One Future John Anthony Dunne,Eric Lewellen,2019-01-15 Leading scholars from around the world engage with key facets of N. T. Wright's most important work, providing a window onto major debates and developments in New Testament studies in recent decades. These essays focus on N. T. Wright's contribution to New Testament theology and interpretation over the past four decades. The structure is three-fold, corresponding to the three areas of classic Jewish theology that Wright views as starting points for discerning the shape of New Testament theology: monotheism, election, and eschatology. Working within these broad categories, the contributors critically engage with Wright's work from both biblical and theological perspectives.

Historiography and Space in Late Antiquity Peter Van Nuffelen,2019-08-29 The later Roman Empire was shrinking on the map, but still shaped the way historians represented the space around them.

Gaining and Losing Imperial Favour in Late Antiquity Kamil Cyprian Choda,Maurits Sterk de Leeuw,Fabian Schulz,2019-10-07 The volume *Gaining and Losing Imperial Favour in Late Antiquity* studies fundamental dynamics of the political culture of the Later Roman Empire (4th and 5th centuries A.D.) by examining how people rose in and fell from the emperor's favour.

The Contest for Time and Space in the Roman

Imperial Cults and 1 Peter Wei Hsien Wan, 2019-10-17

Wei Hsien Wan builds on the work of David Horrell and Travis Williams for his argument that the letter of 1 Peter engages in a subtle, calculated form of resistance to Rome, that has often gone undetected. Whilst previous discussion of the topic has remained largely focused on the letter's stance toward specific Roman institutions, such as the emperor, household structures, and the imperial cults, Wan takes the conversation beyond these confines and examines 1 Peter's critique of the Roman Empire in terms of its ideology or worldview. Using the work of James Scott to conceptualize ideological resistance against domination, Wan considers how the imperial cults of Anatolia and 1 Peter offered distinct constructions of time and space—that is, how they envisioned reality differently. Insofar as these differences led to divergent ways of conceiving the social order, they acquired political power and generated potential for conflict. Wan thus argues that 1 Peter confronts Rome on a cosmic scale with its alternative construal of time and space, and examines the evidence that the Petrine author consciously, if cautiously, interrogated the imperial imagination at its most foundational levels, and set forth in its place a theocentric, Christological understanding of the world.

Politics and Divinization in Augustan Poetry Bobby Xinyue, Lecturer in Ancient Greek and Latin Language and Literature Bobby Xinyue, 2022-06-07 *Politics and Divinization in Augustan Poetry* offers a new interpretation of one of the most prominent themes in Latin poetry, the divinization of Augustus, and argues that this theme functioned as a language of political science for the early Augustan poets as they tried to come to terms with Rome's transformation from Republic to Principate. Examining an extensive body of texts ranging from Virgil's *Eclogues* to

Horace's final book of the Odes (covering a period roughly from 43 BC to 13 BC), this study highlights the multifaceted metaphorical force of divinizing language, as well as the cultural complications of divinization. Through a series of close readings, this book challenges the view that poetic images of Augustus' divinization merely reflect the poets' attitude towards Augustus or their recognition of his power, and puts forward a new understanding of this motif as an evolving discourse through which the first generation of Augustan poets articulated, interrogated, and negotiated Rome's shift towards authoritarianism.

Apex Omnium R. L. Rike, 2023-04-28 One of the masterpieces of Greco-Roman literature is the history written by Ammianus Marcellinus near the end of the fourth century A.D. His work bears unique witness to an empire struggling at once toward traditional and transformation, the old Rome of Augustus and the new Rome of Christ. Embodied within Ammianus's history is a universally admired spirit of independence that has, however, led to a steady denaturing of the historian's personal commitment to particular causes. At the hands of modern critics, Ammianus frequently seems to lose his character, and his frequently seems to lose his character, and his religion too vanishes. Rike reconstructs Ammianus's religion from the beginning and concludes that he was an enthusiastic pagan whose firm commitment to traditional beliefs cannot be understood without changing our usual conceptions of late Roman religion. Rike's study widens our too narrowly philosophical sense of paganism; the historian's striving will remind us of the vital spiritual continuum which joined the ages of Augustus and Constantine. Accordingly, this book should itself serve as a useful bridge between students of Late Antiquity and traditional classicists. This title is part of UC Press's Voices

Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1987.

God, Space, and City in the Roman Imagination

Richard Jenkyns, 2013-11 *God, Space, and City in the Roman Imagination* is a unique exploration of the relationship between the ancient Romans' visual and literary cultures and their imagination. Drawing on a vast range of ancient sources, poetry and prose, texts, and material culture from all levels of Roman society, it analyses how the Romans used, conceptualized, viewed, and moved around their city. Jenkyns pays particular attention to the other inhabitants of Rome, the gods, and investigates how the Romans experienced and encountered them, with a particular emphasis on the personal and subjective aspects of religious life. Through studying interior spaces, both secular (basilicas, colonnades, and forums) and sacred spaces (the temples where the Romans looked upon their gods) and their representation in poetry, the volume also follows the development of an architecture of the interior in the great Roman public works of the first and second centuries AD. While providing new insights into the working of the Romans' imagination, it also offers powerful challenges to some long established orthodoxies about Roman religion and cultural behaviour.

A Sceptic's Guide to Atheism Peter S

Williams, 2013-09-01 This is an accessible response to the contemporary anti-God arguments of the 'new atheists' (Dawkins, Dennett, Harris, Hitchens, Grayling, etc). Atheism has become militant in the past few years, with its

own popular mass media evangelists such as Richard Dawkins and Daniel Dennett. In this readable book, Christian philosopher Peter S. Williams considers the arguments of the 'new atheists' and finds them wanting. Williams explains the history of atheism and responds to the claims that: 'belief in God causes more harm than good'; 'religion is about blind faith and science is the only way to know things'; 'science can explain religion away'; 'there is not enough evidence for God'; 'the arguments for God's existence do not work'. Williams argues that belief in God is more intellectually plausible than atheism.

Judaism and Imperial Ideology in Late Antiquity

Alexei Sivertsev, 2011-06-20 Explores the influence of Roman imperialism on the development of Messianic themes in Judaism.

Judaism and Imperial Ideology in Late Antiquity Alexei M. Sivertsev, 2011-06-20 This book explores the influence of Roman imperialism on the development of Messianic themes in Judaism in the fifth through the eighth centuries CE. It pays special attention to the ways in which Roman imperial ideology and imperial eschatology influenced Jewish representations of the Messiah and Messianic age. Topics addressed in the book include: representations of the Messianic kingdom of Israel as a successor to the Roman Empire, the theme of imperial renewal in Jewish eschatology and its Roman parallels, representations of the emperor in late antique literature and art and their influence on the representations of the Messiah, the mother of the Messiah in late antique and Byzantine cultural contexts, and the figure of the last Roman Emperor in Christian and Jewish tradition.

Naming and Mapping the Gods in the Ancient

Mediterranean Thomas Galoppin, Elodie Guillon, Max Luaces, Asuman Lätzer-Lasar, Sylvain Lebreton, Fabio Porzia, Jörg Rüpke, Emiliano Rubens Urciuoli, Corinne Bonnet, 2022-12-31 Ancient religions are definitely complex systems of gods, which resist our understanding. Divine names provide fundamental keys to gain access to the multiples ways gods were conceived, characterized, and organized. Among the names given to the gods many of them refer to spaces: cities, landscapes, sanctuaries, houses, cosmic elements. They reflect mental maps which need to be explored in order to gain new knowledge on both the structure of the pantheons and the human agency in the cultic dimension. By considering the intersection between naming and mapping, this book opens up new perspectives on how tradition and innovation, appropriation and creation play a role in the making of polytheistic and monotheistic religions. Far from being confined to sanctuaries, in fact, gods dwell in human environments in multiple ways. They move into imaginary spaces and explore the cosmos. By proposing a new and interdisciplinary angle of approach, which involves texts, images, spatial and archaeological data, this book sheds light on ritual practices and representations of gods in the whole Mediterranean, from Italy to Mesopotamia, from Greece to North Africa and Egypt. Names and spaces enable to better define, differentiate, and connect gods.

The Peace of the Gods Craige B.

Champion,2017-05-30 The Peace of the Gods takes a new approach to the study of Roman elites' religious practices and beliefs, using current theories in psychology, sociology, and anthropology, as well as cultural and literary studies. Craige Champion focuses on what the elites of the Middle Republic (ca. 250–ca. 100 BCE) actually did in the religious sphere, rather than what they merely said or wrote about it, in order to provide a more nuanced and satisfying historical reconstruction of what their religion may have meant to those who commanded the Roman world and its imperial subjects. The book examines the nature and structure of the major priesthoods in Rome itself, Roman military commanders' religious behaviors in dangerous field conditions, and the state religion's acceptance or rejection of new cults and rituals in response to external events that benefited or threatened the Republic. According to a once-dominant but now-outmoded interpretation of Roman religion that goes back to the ancient Greek historian Polybius, the elites didn't believe in their gods but merely used religion to control the masses. Using that interpretation as a counterfactual lens, Champion argues instead that Roman elites sincerely tried to maintain Rome's good fortune through a *pax deorum* or peace of the gods. The result offers rich new insights into the role of religion in elite Roman life.

Song Exchange in Roman Pastoral Evangelos

Karakasis,2011-01-27 Agonistic or friendly song exchange in idyllic settings forms the very heart of Roman pastoral. It is also a key means of metapoetic stance-taking on the part of the long line of authors who have cultivated this “traditional” genre. The present book examines the motif of song exchange in Roman bucolic poetry under this double aspect: as a central theme with established or constantly forming sub-themes and paraphernalia (thus providing a

comprehensive listing, description and analysis of such scenes in the totality of Roman literature), and as the locus where, thanks to its very traditionality, innovative generic tendencies are most easily expressed. Starting from Vergil, and continuing with Calpurnius Siculus, the *Einsiedeln Eclogues* and Nemesianus, the book focuses on how politics, panegyric, elegy, heroic and didactic poetry function as guest genres within the pastoral host genre, by tracing in detail the evolution of a wide variety of literary, linguistic, stylistic and metrical features.

Spaces for Shaping the Nation Marina Beck, Christina Strunck, 2024-04-30 As spaces of knowledge, the national museums and galleries of nineteenth-century Europe played an important role both in the shaping of nation-states and the education of their populations. In this context, such institutions sought to convey the history of the people, for example by displaying pictorial cycles of important scenes from their history, exhibiting objects associated with certain formative events, or arraying period rooms to promote a specific impression of the past. The contributions to this volume examine the purposes and educational strategies of national museums and national galleries via case studies from Denmark, France, Germany, Great Britain, Italy, the Netherlands, Poland, Sweden, and Switzerland.
