**Brocken Spectre** Jacques J. Rancourt, 2021-09-14

Set in San Francisco, Brocken Spectre examines the way the past presses up against the present. The speaker, raised in the wake of the AIDS crisis, engages with ideas of belatedness, of looking back to a past that cannot be inhabited, of the ethics of memory, and of the dangers in memorializing and romanticizing tragedy.

The Designer's Guide to Spice and Spectre® Ken Kundert, 2006-04-11 Engineering productivity in integrated circuit product design and development today is limited largely by the effectiveness of the CAD tools used. For those domains of product design that are highly dependent on transistor-level circuit design and optimization, such as high-speed logic and memory, mixed-signal analog-digital interfaces, RF functions, power integrated circuits, and so forth, circuit simulation is perhaps the single most important tool. As the complexity and performance of integrated electronic systems has increased with scaling of technology feature size, the capabilities and sophistication of the underlying circuit simulation tools have correspondingly increased. The absolute size of circuits requiring transistor-level simulation has increased dramatically, creating not only problems of computing power resources but also problems of task organization, complexity management, output representation, initial condition setup, and so forth. Also, as circuits of more complexity and mixed types of functionality are attacked with simulation, the spread between time constants or

event time scales within the circuit has tended to become wider, requiring new strategies in simulators to deal with large time constant spreads.

*Spectre* Phaedra Weldon, 2008-06-03 Next in the series that's 'art paranormal whodunit, part urban fantasy' (Publishers Weekly) by the author of *Wraith*. Zoë Martinique has the extraordinary ability to travel outside her body at will. When she is drawn into an investigation of a series of bizarre murders, in which the victims are missing body parts, Zoë hopes to help her boyfriend, Atlanta homicide detective Daniel Frasier, stop the killer-one she's sure is from the darkest levels of the astral plane-without letting him find out about her special abilities. Then danger strikes close to home when Zoë's mother disappears, and Zoë must use all the powers at her command to save her-even though Zoë knows that, in doing so, she may make herself into something no longer entirely human.

The SPECTRE Trilogy Ian Fleming, 2015-04-03 There's no better time to rediscover James Bond. SPECTRE is the ultimate threat; the merciless international terrorist organisation led by James Bond's nemesis, Ernst Stavro Blofeld. In *Thunderball*, SPECTRE is holding the world to ransom with two stolen nuclear weapons and it is 007's duty to find them in time to prevent a global catastrophe. In *On Her Majesty's Secret Service*, Bond disrupts SPECTRE's plan to destroy Britain from the inside, but little does he know victory will bring tragic consequences. In *You Only Live Twice*, grief-stricken and erratic, Bond

is given one last chance to face his arch-enemy in a battle to the death. 'Bond is a hero for all time' Jeffrey Deaver

*James Bond: Agent of Spectre* Christos Gage, 2023-08-16 There's a civil war brewing within SPECTRE. An upstart □American member of the international criminal organization is attempting a coup, threatening to depose Ernst Stavro Blofeld. She's on guard against Blofeld's men, so to take her out, Blofeld recruits a wild card - James Bond! With Blofeld threatening the life of Bond's friend Felix Leiter as leverage, Bond agrees...□but he has a plan to use this internal strife to bring SPECTRE down once and for all. Will he succeed, or is this a dark path from which even 007 can't return?

*Callsign: Spectre* Jeff Noecker, 2011-04-29 Callsign: Spectre is the true story of a young man from a small town in Pennsylvania who grows up and enlists in the United States Air Force at nineteen. Nearly forty years after the fact, Jeff Noecker recounts his combat flight experiences from the Vietnam War flying in an AC-130 Spectre gunship. The story follows him from his initial air force training to being accepted into an unusual Special Operations unit. What sets this story apart from the others that have been written about Vietnam is the Spectre gunship that Noecker flew in on his missions. While the US Air Force was flying hundreds of F-4s, F-105s, B-52s, OV-10s, O-2s, A-7s in Vietnam and Southeast Asia, there were only fourteen AC-130A Spectre gunships in theater and only one squadron that flew them—Noecker's squadron. There were even fewer

than fourteen when the program began in 1968; the first few flew out of a base in Vietnam. The stories contained here resemble a diary, presenting both personal anecdotes of Noecker's and of stories he heard over the course of his time in service. Some of these may seem a bit farfetched, but Noecker sticks to the facts as much as possible. Unbelievable as some of the stories sound, his tales of his time in the air are unmistakably true. After being live for a year, I find that one piece of data was incorrect in the original printing. This has been corrected and a small amount of other data has been added. The corrections appear in the second printing of both hard and soft covers which are available now and will be available in ebook format very soon.

**Spectre** Robert Tyler, R J Reynolds, 1987-09-01

**Spectre** Shiloh Walker, 2019-07-14 Myth. Monster. Mine. Spectre I wasn't even a man when I took a life for the first time, although you couldn't say I was a child. If I'd ever had a childhood, it hadn't lasted long. My father, may he rot in hell, had seen to that. I took his life as well and that, too, happened before I was old enough to be considered a grown man. I never regretted it for a second. That path almost led to my own grave, and would have, if I hadn't stumbled across somebody who was as different from my father as day was from night. Sarge had seen the monster lurking inside, so he took control, gave me guidelines, rules, so I wouldn't be the monster my father had planned. It worked. I restrained the worst of my rage and honed the skills that had been drilled into me--theft, stealth... assassination. The broken child ceased to exist and I became Spectre, an assassin spoken

of in whispers, hired to take out the worst of humanity. Then I was sent to kill her...and my world came to a screeching halt. **Tia** It's taken a long time, but I finally had a nice, steady routine. I stopped trying to conform to the neurotypicals of the world and found my own normal. Normal went out the window when I walked into my kitchen and found a strange (hot), dangerous looking (so fricking hot) man drugging my new dog. It probably wasn't the smartest thing to leap at him like a banshee and attack, but that's what I did. When my attempt to wreck the vehicle was averted, my kidnapper didn't hurt or threaten me. In fact, he told me he wanted to protect me. This (hot) guy had to be crazy. But if he was crazy, what did that make me? Because I believed him. More, I found myself seeing something beyond the rigid, blank mask he wore. He kept trying to push me away, but I couldn't seem to keep my distance. He calls himself a monster...but when I look at him, that isn't what I see. I just see him...and I know he's meant to be mine.

**Spectre** Boone Desotell, 2022-05-24 A simple task: a theft steal an object for a lord. Ro believed it an easy thing to accomplish except when the object in question begins to speak to its mind, and seeing a grotesque creature flitting at the edge of his field of vision does he start to suspect that there was something much more to it. Armed with his wits and with his spectral ally at his side, he tries to navigate the perils of a decaying world and dreams that threaten to tear him apart.

## **The Spectre Cycle** Alan Burt Akers, 2015-11-19

Dray Prescott has been chosen by the Star Lords to be the so-called Emperor of All Paz. Together, the countries of Paz must resist the deadly Shanks who raid from over the curve of the world. Delia and Dray Prescott have abdicated the throne of Vallia and now seek to make the dream of a united Paz come true. ***Shadows over Kregen*** Whether Prescott is battling slavers and freeing slaves with the Kroveres of Iztar, or fighting Fish-heads in the land of the Shanks, he is certain to be thrown into more headlong adventures under the streaming mingled lights of the Suns of Scorpio. ***Murder on Kregen*** A new page turns in the unruly life of Dray Prescott, and all his strengths and inner resources will be required to confront fresh problems and perils. Join Dray Prescott as he rides south from the port city of Zandikar on the inner sea of the continent of Turismond, the Eye of the World, with his blade comrade Seg Segutorio and the Princesses Velia and Didi of Vallia. Of course, as is the nature of Kregen, they face unexpected peril... ***Turmoil on Kregen*** The undead monster called the Spectre has been destroyed. Didi herself lies seriously injured in Zandikar in the Eye of the World, lovingly tended by her cousin, Princess Velia. Ulna Farlan, the governor of Didi's province of Urn Vennar, has been removed from office. Now the rogue and schemer Nath Swantram, Nath the Clis, rules. But the Spectre, dead and animate, is about to terrorize Gafarden again as Tralgan Vorner, the wronged Elten of Culvensax, seeks vengeance on those who betrayed him. Within Vorner the Spectre lives. Including a glossary to

the Spectre cycle.

James Bond: Agent of Spectre #4 Christos Gage, 2021-06-09 It's all-out action in Athens, Greece as Bond and Blofeld's tenuous alliance is tested under fire! Can they survive the mountainside attack by upstart SPECTRE member Titania Jones...and can they survive each other? The double-crosses and triple-crosses hurtle toward a shocking and explosive conclusion in this penultimate issue!

**The Spectre General** Theodore Cogswell, 2014-05-13 500 years after the Galactic Empire's collapse, the 427th Light Maintenance Battalion of the Imperial Space Marines stubbornly hold onto their mission, training to repair starships that never come. Their equipment gradually wears out and to all outward appearance, they seem to be primitive savages, living by hunting and farming. When a coup removes Colonel Marcus Harris, commander of the maintenance battalion, in favor of his executive officer, the colonel and a loyal second lieutenant, Kurt Dixon, are jailed. When Dixon escapes, he hides in a battle suit to avoid detection. He accidentally activates it and is propelled into outer space. There, he is rescued by a scout of the new Galactic Protectorate...a ramshackle, barely-functioning organization whose leaders are fighting amongst themselves. The Galactic Protectorate, despite its name, has lost most of the technical expertise to do even routine maintenance on their own equipment. Both sides have something the other needs. But can they possibly work together? And if they do, will it be war -- or the start of a new Galactic Empire?

Theodore Cogswell's classic science fiction novella is available in ebook form for the first time in more than a decade!

**Spectre** William Shatner, Judith Reeves-Stevens, 2002-02-21 Retired and happily in love, Kirk believes his adventuring days are over. But as he returns to Earth for the first time since his apparent death upon the Enterprise-B, events elsewhere in the galaxy set in motion a mystery that may provide Kirk with his greatest challenge yet. The Enterprise-E, under the command of Captain Jean-Luc Picard, is exploring an unstable region of space on a scientific mission of vital concern to Starfleet when they discover the last thing they ever expected to find: a lonely, battle-scarred vessel that is instantly recognizable to every member of Picard's crew. Five years after being lost with all hands in the Delta Quadrant, the Starship Voyager has come home! The commander of Voyager, one Tom Paris, explains that Captain Kathryn Janeway and half of the original crew is dead, but if that is true, who is the mysterious woman who has kidnapped Kirk back on Earth, pleading with him to assist her against a threat to the entire Federation? All is not as it seems, and soon Kirk is forced to confront the hideous consequences of actions taken more than a hundred years prior, as well as his own inner doubts. After years of quiet and isolation, does he still have what it takes to put things right-and join with Captain Picard to save the lives of everyone aboard a brand-new Enterprise? An unforgettable saga peopled by old friends and ancient enemies, Star Trek: Spectre

propels Kirk on a journey of self-discovery every bit as harrowing as the cataclysmic new adventure that awaits him.
