Treconomics Manu Saadia,2016-05-31 Manu Saadia has managed to show us one more reason, perhaps the most compelling one of all, why we all need the world of Star Trek to one day become the world we live in. — Chris Black, Writer and Co-Executive Producer, Star Trek: Enterprise What would the world look like if everybody had everything they wanted or needed? Treconomics, the premier book in financial journalist Felix Salmon's imprint PiperText, approaches scarcity economics by coming at it backwards — through thinking about a universe where scarcity does not exist. Delving deep into the details and intricacies of 24th century society, Treconomics explores post-scarcity and whether we, as humans, are equipped for it. What are the prospects of automation and artificial intelligence? Is there really no money in Star Trek? Is Treconomics at all possible?

In Typeset in the Future, blogger and designer Dave Addey invites sci-fi movie fans on a journey through seven genre-defining classics, discovering how they create compelling visions of the future through typography and design. The book delves deep into 2001: A Space Odyssey, Star Trek: The Motion Picture, Alien, Blade Runner, Total Recall, WALL-E, and Moon, studying the design tricks and inspirations that make each film transcend mere celluloid and become a believable reality. These studies are illustrated by film stills, concept art, type specimens, and ephemera, plus original interviews with Mike Okuda (Star Trek), Paul Verhoeven (Total Recall), and Ralph Eggleston and Craig Foster (Pixar). Typeset in the Future is an obsessively geeky study of how classic sci-fi movies draw us in to their imagined worlds.

Paper Hearts Meg Wiviott,2015-09-01 A forbidden gift helps two teenage girls find hope, friendship, and the will to live in this “beautifully told true story about brave young women who refused to be victims and walked out of Auschwitz with their heads unbowed” (School Library Journal). An act of defiance. A statement of hope. A crime punishable by death. Making a birthday card in Auschwitz was all of those things. But that is what Zlatka did, in 1944, for her best friend, Fania. She stole and bartered for paper and scissors, secretly creating an origami heart. Then she passed it to every girl at the work tables to sign with their hopes and wishes for happiness, for love, and most of all—for freedom. Fania knew what that heart meant, for herself and all the other girls. And she kept it hidden, through the bitter days in the camp and through the death marches. She kept it always. This novel is based on the true story of Fania and Zlatka, the story of the bond that helped them both to hope for the best in the face of the worst. Their heart is one of the few objects created in Auschwitz, and can be seen today in the Montreal Holocaust Memorial Centre.

Star Trek: Designing the Final Frontier Dan Chavkin,Brian McGuire,2021-08-03 When Star Trek first premiered in 1966, viewers were shown a window into an amazing new sci-fi universe. That vision has lasted and grown for decades after - and it was fulfilled by the creativity of this legendary show's talented art directors, prop masters, and set decorators. Star Trek would not have been the same without the Burke and Origami chairs, sculptures and other decorative arts, and props used on-set. These items would not even exist, were it not for various designers of the midcentury modern movement, such as Pierre Paulin, Joe Colombo, Paul McCobb, Warren Platner, and Milo Baughman. Authors Dan Chavkin and Brian McGuire invite you on a journey through the original series. Together, they illustrate in depth how Midcentury Modern design gave rise to the feel and aesthetic of Star Trek. Detailed, expert examination of key episodes shows how these highly influential design movements are nigh-inseparable from Star Trek -- and how they helped to shape one of the greatest visions of the future.--Back cover.

Starship Spotter Adam 'mojo' Lebowitz,Robert Bonchune,2012-09-17 The Starship Spotter was created more than two centuries ago in the early years of deep space travel to serve as a reference guide to assorted space-going vessels. Captains of the spaceships of the United Earth Space Probe Agency used this invaluable tool to help their crews to distinguish friend from foe in the unexplored reaches of the cosmos. When the services were merged to form Starfleet, the Spotter as a paper book disappeared from use. Only recently rediscovered, the newest editions of this historic volume have until now been the sole purview of the students of Starfleet Academy. Each year a new class of Starfleet cadets carefully reviews and revises the contents. The ships displayed in the Starship Spotter are chosen as a tribute to the crews who have served on them and the valour shown, regardless of the ship's affiliation. Although only thirty ships could be selected, the cadets feel that these ships reflect the noble history of space exploration and travel. We proudly present to you the Class of 2383 edition of Starship Spotter.
