A Chance in the World Stephen Pemberton, 2012-01-09 "Pemberton's beautifully told story is a rags to riches journey—beginning in a place and with a jarring set of experiences that could have destroyed his life. But Steve's refusal to give in to those forces, and his resolve to create a better life, shows a courage and resilience that is an example for many of us to follow." —Stedman Graham, author, educator Home is the place where our life stories begin. A Chance in the World is the astonishing true story of a boy destined to become a man of resilience determination and vision. Down in the dank basement, amidst my moldy, hoarded food and beloved worm-eaten books, I dreamed that my real home, the place where my story had begun, was out there somewhere, and one day I was going to find it. Taken from his mother at age three, Steve Klakowicz lives a terrifying existence. Caught in the clutches of a cruel foster family and subjected to constant abuse, Steve finds his only refuge in a box of books given to him by a kind stranger. In these books, he discovers new worlds he can only imagine and begins to hope that one day he might have a different life, that one day he will find his true home. A fair-complexioned boy with blue eyes, a curly Afro, and a Polish last name, he is determined to unravel the mystery of his origins and find his birth family. Armed with just a single clue, Steve embarks on an extraordinary quest for his identity, only to find that nothing is as it appears. Through it all, Steve's story teaches us that no matter how broken our past, no matter how great our misfortunes, we have it in us to create a new beginning and to build a place where love awaits.

The Lighthouse Effect Steve Pemberton, 2021-09-28 In this stirring follow-up to his memoir, Steve Pemberton gives practical encouragement for how you can be a human lighthouse for others and through these inspiring stories will renew your hope for humanity. Our polarized, divisive culture seems to be without heroes and role models. We are adrift in a dark sea of disillusionment and distrust and we need human lighthouses to give us hope and direct us back to the goodness in each other and in our own hearts. Steve Pemberton found a lighthouse in an ordinary man named John Sykes, his former high school counselor. John gave Steve a safe harbor after Steve escaped an abusive foster home and together they navigated a new path that led to personal and professional success. Through stories of people like John and several others, you will identify how the hardships you have overcome equip you to be a human lighthouse, inspiring those around you. The humble gestures of kindness that change the course of our lives can shift the course for America too. With a unique vision for building up individuals and communities and restoring trust, The Lighthouse Effect opens your eyes to those who are quietly heroic. You will reflect on the lighthouses in your own life and be reminded that the greatest heroes are alongside us--and within us.

Harmful Societies Pemberton, Simon A., 2016-03-23 While the notion of social harm has long interested critical criminologists it is now being explored as an alternative field of study, which provides more accurate analyses of the vicissitudes of life. However, important aspects of this notion remain undeveloped, in particular the definition of social harm, the question of responsibility and the methodologies for studying harm. This book, the first to theorise and define the social harm concept beyond criminology, seeks to address these omissions and questions why some capitalist societies appear to

be more harmful than others. In doing so it provides a platform for future debates, in this series and beyond. It will be a valuable resource for academics and researchers across criminology, sociology, social policy, socio-legal studies and geography.

A Chance in the World Steve Pemberton, 2012-01-10 A stirring account of courage, hope, and victory, *A Chance in the World* is the extraordinary story of what is possible when you dare to believe. Home is the place where our life stories begin. It is where we are understood, embraced, and accepted. It is a sanctuary of safety and security, a place to which we can always return. Down in the dank basement, amidst my moldy, hoarded food and beloved worm-eaten books, I dreamed that my real home, the place where my story had begun, was out there somewhere, and one day I was going to find it. Taken from his mother at age three, Steve Klakowicz lives a terrifying existence. Caught in the clutches of a cruel foster family and subjected to constant abuse, he finds his only refuge in a box of books gifted to him by a kind stranger. In these books, he discovers new worlds he can only imagine and gains hope that one day he might have a different life, that one day he will find his true home. Armed with just a single clue, Steve embarks on an extraordinary quest for his identity, only to find that nothing is as it appears. *A Chance in the World* is the unbelievable true story of a broken boy destined to become a man of resilience, determination, and vision. Through it all, Steve's story teaches us that no matter how broken our past, we have it in us to create a new beginning and to build a new place, where love awaits.

Detroit 67 Stuart Cosgrove, 2016-10-06 First in the award-winning soul music trilogy—featuring Motown artists Diana Ross & the Supremes, Smokey Robinson, Marvin Gaye, and others. *Detroit 67* is “a dramatic account of twelve remarkable months in the Motor City” during the year that changed everything (Sunday Mail). It takes you on a turbulent journey through the drama and chaos that ripped through the city in 1967 and tore it apart in personal, political, and interracial disputes. It is the story of Motown, the breakup of the Supremes, and the damaging clashes at the heart of the most successful African American music label ever. Set against a backdrop of urban riots, escalating war in Vietnam, and police corruption, the book weaves its way through a year when soul music came of age and the underground counterculture flourished. LSD arrived in the city with hallucinogenic power, and local guitar band MC5—self-styled holy barbarians of rock—went to war with mainstream America. A summer of street-level rebellion turned Detroit into one of the most notorious cities on earth, known for its unique creativity, its unpredictability, and self-lacerating crime rates. The year 1967 ended in social meltdown, rancor, and intense legal warfare as the complex threads that held Detroit together finally unraveled. “A whole-hearted evocation of people and places,” *Detroit 67* is “a tale set at a fulcrum of American social and cultural history” (Independent).

The League of Gentlemen's Book of Precious Things Jeremy Dyson,Steve Pemberton,2007 The League of Gentlemen have been making audiences laugh for years, but what makes them tick and what is behind their dark, twisted humour? In this book, all four members have assembled a stunning collection of prose, poetry, sketches, lyrics and classic film scenes to create a very special Book of Precious Things. The League of Gentlemen was critically acclaimed when the first series was shown on BBC2 in 1999. Already known from their radio show *On The Town?*, the League were much discussed, with their unique mixture of very black comedy and harrowing social observation set in the fictional town of Royston Vasey. With a mind-blowing mixture of influences from Hammer Horror, Carry On and Martin Amis to Monty Python, Shakespeare and Victoria Wood, the League are utterly unique and more than a little disturbing!

The Troubled Dream of Genetic Medicine Keith Wailoo, Stephen Pemberton, 2006-05-29 Winner of the History of Science category of the Professional and Scholarly Publishing Awards given by the Association of American Publishers Why do racial and ethnic controversies become attached, as they often do, to discussions of modern genetics? How do theories about genetic difference become entangled with political debates about cultural and group differences in America? Such issues are a conspicuous part of the histories of three hereditary diseases: Tay-Sachs, commonly identified with Jewish Americans; cystic fibrosis, often labeled a Caucasian disease; and sickle cell disease, widely associated with African Americans. In this captivating account, historians Keith Wailoo and Stephen Pemberton reveal how these diseases—fraught with ethnic and racial meanings for many Americans—became objects of biological fascination and crucibles of social debate. Peering behind the headlines of breakthrough treatments and coming cures, they tell a complex story: about different kinds of suffering and faith, about unequal access to the promises and perils of modern medicine, and about how Americans consume innovation and how they come to believe in, or resist, the notion of imminent medical breakthroughs. With Tay-Sachs, cystic fibrosis, and sickle cell disease as a powerful backdrop, the authors provide a glimpse into a diverse America where racial ideologies, cultural politics, and conflicting beliefs about the power of genetics shape disparate health care expectations and experiences.
