**The Scout Rifle Study** Richard Mann,2018-02-21 This book is the definitive study of the enigma known as the Scout Rifle. The Scout Rifle, as conceived by Jeff Cooper, is one of the most misunderstood firearms of all time. The Scout Rifle Study examines the factors that influenced Cooper's Scout Rifle Concept, examines the practicality of the Scout Rifle, looks at the various attempts to achieve Scout Rifle nirvana, and explores the feasibility of the Scout Rifle in the modern world. Whether you're already a Scout Rifle enthusiast or if you're considering a Scout Rifle for the first time, The Scout Rifle Study is the ultimate guide to what many believe is a rifle that can do everything well or possibly, the only rifle you will ever need.

**Prepper Guns** Bryce M. Towsley,2016-05-17 Food, water, and shelter are very important to survival. But you must also be ready to protect what is yours, because if somebody stronger, better prepared, and better equipped takes it all away, you will die. Your family will die. The only way to protect them is with firearms. Written with the law-abiding civilian in mind, Prepper Guns covers the firearms and tools needed to survive, not only for defense, but also for foraging. It is a comprehensive look at the realities of the firearms a prepper should have. Written by Bryce M. Towsley, a firearms expert and a full-time gun writer with thirty years of experience, it steps away from the “conventional wisdom” that is often spouted by prepper publishing and takes a hard, honest, look at the reality of the firearms, ammo, tools and training needed to survive at home and on the road. Prepper Guns takes a careful look at each category of firearms, ammo, sights, and accessories. Other topics include gun care and maintenance, as well as some simple gunsmithing and reloading to keep firearms repaired and ammo on hand. Finally, Prepper Guns has training suggestions and drills, plus a look at the psychology of survival, using the expertise of some of the top people in the world in these fields. If you are worried that bad things are coming and are trying to prepare, this book is the most important piece of gear you can buy. Because if you can't protect your family, your food and your home, nothing else really matters.

**Military Trains and Railways** Jean-Denis G.G. Lepage,2017-08-23 Featuring 256 drawings, this history of military trains and railways from 1853 through 1953 describes how the railroad transformed the nature of warfare. Transport and logistics are discussed for armored trains, rail-borne artillery and armored combat vehicles, medical evacuation trains and draisines (light auxiliary vehicles such as handcars). The railroad's role in establishing European colonial empires in Asia and Africa is examined. Conflicts covered include the Boer Wars, the American Civil War, the Austro-Prussian War, the Franco-Prussian War, the Russo-Turkish War, World War I, the Finnish Civil War, the Spanish Civil War, World War II and the French Indochina War.

**The Sniper Encyclopaedia** John Walter,2019-08-23 A complete guide to snipers, rifles, techniques, battles, and campaigns throughout history and around the world, by the author of The Hand Gun Story. The work features hundreds of snipers, including not only the best-known—world renowned gurus such as Vasiliy Zaytsev and Chris Kyle—but also many crack shots overlooked by history. Among them are some of more than a thousand Red Army snipers—men and women, who amassed sufficient kills to be awarded the Medal for Courage and the Order of Glory. Also included are some of the best-known sniper victims, and the veracity of the most popular myths. The book thoroughly examines the history and development of the many specialist sniper rifles—some more successful than others—that have served the world's armies from the nineteenth-century American Wars to today's technology-based conflicts. Attention, too, is paid to the progress made with ammunition—without which, of course, precision shooting would be impossible. The development of aids and accessories, from camouflage clothing to laser rangefinders, is also considered. Finally, The Sniper Encyclopedia examines significant locations and specific campaigns—the way marksman have influenced the course of the individual battles and places which have played a crucial part in the history of sniping, from individual sites to sniper schools and training grounds. The book contains authors' biographies, a critical assessment of the many books and memoirs on the world of the sniper, and a guide to research techniques. “A remarkable work of research and an endless treasure trove of information for anyone with an interest in the subject.” —Martin Pegler, author of Out Of Nowhere: A History of the Military Sniper

*Devil's Vortex* James Axler,2015-11-03 CHILD OF DARKNESS An orphaned teen with the ability to transform into a vicious whirlwind latches on to Ryan and the companions as they travel through former North Dakota. Her deadly power seems like a boon at first, until it starts to control her. When threatened, she destroys everything in her path...including those she loves. Then a group of outcast fighters kidnaps the young woman and manipulates her--and her terrifying mutation--for their own destructive agenda. With the vortex unleashed, the companions face a tough decision: chill the orphan or perish in her violent wake. AMERICAN NIGHTMARE Since the nukocaust, the American dream has been reduced to a daily fight for survival. In the hellish landscape of Deathlands, few dare to dream of a better tomorrow. But Ryan Cawdor and his companions press on, driven by the need for a future less treacherous than the present.

**End Program** James Axler,2014-05-01 HOPE'S ADVERSARY No one waits long for trouble in Deathlands—it's everywhere in the remains of a nuke-altered civilization. The American dream was annihilated more than a century ago by the country's own unchecked power play. But the worst may be yet to come. SURVIVAL'S CASTOFF Built upon a predark military installation in former California, a ville called Progress could be the utopia Ryan Cawdor and his companions have been seeking. A place where humanity and technology thrive, it's the nucleus of a new hope for Deathlands. The successful replacement of Ryan's missing eye with a cybernetic prosthetic nearly convinces the group that their days of surviving hell are behind them. Then they discover that the high tech in Progress isn't designed to enhance human life, but to destroy it. To block the final assault, the companions must stop Ryan from becoming a willing pawn in the eradication of mankind.

**Hive Invasion** James Axler,2015-01-01 DUST DWELLERS Seeking refuge in a post-Armageddon America, Ryan Cawdor and his crew of misfits travel together for survival and sanity. Known as Deathlands, this lawless hellscape is defined by destruction, death and despair. Only those who persevere with the belief in a better future stand a chance in this world where each day brings a new, and potentially lethal, struggle. HARNESSED MINDS Desperate to find water and shelter on the barren plains of former Oklahoma, Ryan and his team come upon a community that appears, at first, to be peaceful. Then the ville is attacked by a group of its own inhabitants—people infected with a parasite that has turned them into slave warriors for an unknown overlord. The companions try to help fend off the enemy and protect the remaining population, but when Ryan is captured during a second ambush, all hope seems lost. Especially when he launches an assault against his own crew.

*Motherlode* James Axler,2013-11-01 COERCION VORTEX The cost of living disintegrated after America's nuclear cull, and a life in Deathlands—any life—is dirt cheap. But those few who manage to stay alive in the savage new reality must travel the hellgrounds any way they can. For Ryan Cawdor and his fellow survivors, that means denying the pull toward savagery, and clinging to what little humanity they have left, when they can afford it. SEEDS OF SUSTAINABILITY Desperately short of supplies, Ryan and his companions are forced to seek help at the prosperous-looking ville of Amity Springs. Hired on to retrieve a stolen relic, they quickly become caught up in an escalating power struggle between two strong-willed lady barons. Each woman covets the cache of predark goods buried in the ville's backyard. But they are not alone in their desire. And all that stands between a motherlode of buried bounty and the destructive power of unchecked greed is Ryan's grim determination to survive another day.

No Man's Land James Axler,2012-10-30 Forced to takes sides in a civil war or face certain death, Ryan Cawdor and his friends, desperate to find a way out of the conflict, must first defeat Snake Eye, the deadliest gunslinger in Deathlands, who wants Ryan's head. Original.

*Child of Slaughter* James Axler,2015-09 MORTAL RIFTS When Doc is taken captive by a band of marauders in what was once Nebraska, Ryan and the companions rally to get him back. But they aren't just fighting the local muties. They're also up against the area's terrifying terrain, which shifts and morphs at a moment's notice. With their options dwindling in this mazelike region that doesn't obey the laws of physics, the team joins forces with a beautiful and deadly woman who evens the odds on the battlefield. But while this warrior seems to be on their side, she has a secret agenda that could spell the end for them all... THE AMERICAN NIGHTMARE Since the nukocaust, the American dream has been reduced to a daily fight for survival. In the hellish landscape of Deathlands, few dare to dream of a better tomorrow. But Ryan Cawdor and his companions press on, driven by the need for a future less treacherous than the present.
