**One Hundred Years of Solitude, Struggle, and Violence along the US/Mexico Border** John Thomas, 2018-01-23 This book features oral histories, mainly of members of the ranching families who have lived in the Mexican State of Sonora and the corresponding territory in the US that stretches from Tijuana on the California border to Agua Prieta on the Arizona border. The elders in those families recall the tales that their grandparents told, providing a century of perspectives on the revolution in economics,

culture, and drug trade that the area has witnessed. The book uses the voices of those who have lived through the vicissitudes of border life to paint this cultural upheaval in gripping, personal terms.

Grow Yourself Beautiful Sharon Caldwell Peddie,2018-10-06 Young women today are more stressed than many imagine. Society bombards the country's precious young women with unrealistic expectations of superficial beauty, body type, and hyper overachievement in all areas. These relentless messages begin at younger and younger ages and are harmful to their self-esteem and well-being. Far too many young women suffer from anxiety, depression, eating disorders, sleep issues, bullying, or lack of simple joy. They need help to grow strong with a powerful sense of self and self-love. In Grow Yourself Beautiful, author Sharon Caldwell Peddie offers a comforting guide to help young women shift focus from these harmful superficial expectations. It empowers them to grow in satisfying, meaningful ways that will bring them joy, inner strength, and true beauty. A mother who has raised three daughters, Peddie uses the letters in the word "beautiful" to deliver solid advice. She helps girls build a strong foundation and deep roots to become truly beautiful, resilient, loving, joyful, strong women who will make beautiful contributions of their choice and in their own perfect timing.

Glory Ralph Brooks,Gary Burley,Valencia Belle,2021 The book, Glory: The Struggle for Yards are stories gathered together to illustrate the unique cultures, history and values that unite people of all races together. It is so much more than a book of facts and individual's personal accomplishments. Glory share stories that include powerful

messages that can inspire, teach, and influence others to achieve their goals in life. These stories bring facts to life and have the ability to connect the past with the present. We start with diversity and inclusion by respecting, understanding and appreciating each other's humanities and beliefs and most of all reading to know for your own gratification and personal experiences. These stories promote a positive attitude through football legends hardships, fears and never losing desire for taking care of their families and leaving a legacy for the future generation to understand their challenges, difficulties, misfortune and adversities. We have to remember before writing books; ancestors told stories by cave painting on the wall, as they would blow the paint through hollow bones very similar to today's airbrushing. Campfires was also a form of storytelling performed around an open fire at night and mostly in the wilderness. We see it in today modern campfires stories with Girls Scouts and Boy Scouts of America and even with good old family reunion barbecue in the front or backyard. Glory is a book of legendary football stories that helps us understand our differences in culture with other peoples so that we can connect and communicate in love and make new friends through story telling.

**Philosophy of Unity** Michael Bassey Eneyo, 2019-01-08 This book is borne out of the author's desire to introduce Philosophy of Unity as one of the emerging philosophical paradigms tasked with the responsibility of offering practical ideas to contend with the alarming crisis, disunity, division, disassociation, war, terrorism, distrust and the general unrest that have engulfed the present human society. The author decries human disjointedness from the original purpose of love and the need for complementary living. Thus, attributing the challenges so experienced in the recent human tension-laden society

to this negation. The book stands out as a portal of plethora of knowledge that unravels love as the ultimate unifier of the multiplicity of things in the universe, of which the unity and the separation of things in the world are necessitated by it. The author reasoned that, without love, the idea of the universe is inconceivable. The principle of inclusiveness is adopted by the author to drive home the point that the warring opposites, the conflicting issues and the fragments characterizing the universe should not be taken as reasons for division and disunity. Rather, it should be seen as means through which human limitations can be overcome if these different entities are brought together for the overall good of human beings. Hence, all fragments and their opposites are necessary since it is by their existence that our individuals and collective essences are fully put to use. The book is highly recommended for the general public, countries, especially those with multiple religions and ethnicities. It is very relevant to scholars in the areas of Philosophy, Religion, Political Science, Public and International Studies, Public Administration and Sociology. It is also useful to those who study or engage in conflict resolutions, especially in the crisis-prone communities. All lovers of wisdom will find the book useful in their respective areas of research.

This easy-to-follow guide features activities that will help writers of any level develop their stories from concept to scene-by-scene outline. Based upon a popular workshop Myers has led with over a thousand writers at all levels of experience, this book is a must-have for screenwriting students, both undergraduate and graduate, and those looking at advanced story development.

*The Ideology of Competition in School Music* Sean Robert Powell,2023 *The Ideology of Competition in School Music* explores competition as a structuring force in school music and provides critiques of that system from multiple philosophical and theoretical perspectives. Competition is seen by many music teachers, students, and supporters as natural and inevitable--a taken-for-granted aspect of music education or an irresistible force, rather than a choice. This book uncovers this ideological nature of competition and examines its effect on student learning, teacher agency, and equity within music education. It considers ways in which music educators might reconsider the role of competition in their teaching practice and offers alternative frameworks for organizing school music. In this book, author Sean Robert Powell views competition as a microcosm of the wider neoliberal capitalist society, in which subjects are interpellated in an antagonistic competitive field as market logic dictates a system of accountability, reduction, and audit culture. Music teachers, students, and education administrators,

consciously and unconsciously, reinforce, replicate, and sustain the competitive structure, even if they do so while expressing a cynical disavowal. Powell considers competition broadly, including, for example: formal competitions between schools in which ensembles are given numerical scores and ranked; festivals in which groups are given ratings based on pre-given criteria; state, regional, and national honor ensembles; hierarchical arrangements within school music programs; or simply the pursuit of social prestige, reputation, and ever-higher performance standards. Although the book provides examples from the competitive landscape of school music in the United States (and, especially, Texas, considered a hyper example of competitive culture), Powell's analyses and discussions are relevant to readers in any context around the world. Although the degree to which competitive achievement as an explicitly-stated aim of instruction varies from program to program and location to location, the realism of neoliberal capitalism--and its effect on all aspects of education--is a global phenomenon.

The Fair Chase Chronicles Walt Prothero, 2022-10-12 Hunter, writer, university professor and wildlife biologist Walt Prothero claims that our humanity evolved from our hunting traditions, and without those traditions Homo sapiens would never have appeared on the African savannas. Bipedal locomotion freed up the hands to make and use tools--stone hand-axes, wooden spears, flaked stone blades. Without those first crude tools, smart-phones, television, modern medicine and writing would not exist. The first part of this book deals with ethics and philosophy of modern hunting, and what hunters must do today to keep hunting alive tomorrow, including fair-chase hunting. The first part of the book is also liberally sprinkled with hunting anecdotes, the oldest form of human

communication. The second portion of the book consists of hunting stories, all with a common theme--fair-chase hunting. If hunting is to survive into the 21st century, it must evolve as humans have evolved. Of course the reader may read a story simply for the enjoyment. Prothero has graced the masthead of Field & Stream, Outdoor Life, Sports Afield and Wild Sheep magazines and readers of such magazines are seldom interested in ethics or philosophy. The short narratives in this tome are as taut and adrenaline-pumping as any novel, and few readers will yawn at stalking man-eating crocodiles; at charging grizzlies and elephants; of solo expeditions into the Far-North wilderness; of chasing polar bears by dogsled on the Arctic Ocean icepack.
